Revenue growth during the quarter was broad-based across the Company's e-commerce, quick-commerce and offline distribution channels. Operating profit grew ahead of revenue, reflecting the Company's largely fixed cost base, with employee costs declining as a proportion of revenue.

Online Sales increased by 55% (YoY) & 55% (QoQ). Offline revenue increased to 90%(YoY) & 49% (QoQ). Ecommerce sales contribute to 88% of revenue.

Working capital increased during the half year, reflecting inventory and channel positioning ahead of the festive and winter season. The Company remains debt-free.
