## **NISM and CAMS Collaborate to Advance Technology-Enabled Compliance Learning through CAMS Lens**

- AI-powered regulatory intelligence platform to support practical learning and research at the NISM Compliance & RegTech Lab

**Mumbai, October 14<sup>th</sup>, 2026 - The National Institute of Securities Markets (NISM) and Computer Age Management Services Limited (CAMS)** have entered into a collaboration to integrate CAMS Lens into the Regulatory Intelligence module of the NISM Compliance & RegTech Lab.

The collaboration brings together NISM's focus on securities-market education and capacity building with CAMS' technology and regulatory intelligence capabilities. It is aimed at providing students, faculty members and market professionals with practical exposure to technology-enabled regulatory research and compliance workflows relevant to India's capital markets.

Established as a technology-driven platform for education, training, simulation, research and innovation in financial-market compliance, the NISM Compliance & RegTech Lab provides a multi-software environment spanning RegTech, risk management, analytics, artificial intelligence, machine learning and market-surveillance solutions. Its applied learning model enables participants to work through realistic regulatory scenarios using synthetic identities, transactions and case files.

As a part of the collaboration, the Regulatory Content and Intelligence module of CAMS Lens will be made available across devices in the NISM Compliance & RegTech Lab, with additional access for faculty members. Participants will be able to use the platform to research and understand regulatory and compliance requirements across the capital-markets ecosystem, with a primary focus on SEBI-regulated intermediaries.

CAMS Lens is an AI-powered regulatory intelligence and compliance execution platform designed for participants across the Indian capital-markets ecosystem. The platform brings regulatory information and intelligence together in a structured environment, helping organisations strengthen regulatory management, compliance oversight and audit readiness.

Its integration into the Lab will support participants as they navigate regulatory requirements and develop a more practical understanding of how technology can facilitate regulatory interpretation and compliance execution. The deployment will also complement the Lab's broader pedagogy, which takes learners through workflows such as screening, risk assessment, transaction monitoring, investigation, evidence evaluation and reporting.

Commenting on the collaboration, **Shri Sashi Krishnan, Director, NISM, said**, *"The growing complexity of financial markets requires compliance professionals to combine sound regulatory knowledge with the ability to work effectively with technology. The NISM Compliance & RegTech Lab has been created to provide this practical exposure. With four*

*decades of experience serving the mutual fund ecosystem, CAMS brings a deep understanding of the regulatory environment and the complexities involved in navigating it. The integration of its in-house platform, CAMS Lens, will strengthen the Regulatory Intelligence module of the NISM Compliance & RegTech Lab and enable participants to engage with regulatory information in a structured, technology-enabled environment.”*

**Mr. Anuj Kumar, Managing Director, CAMS, said,** *“Effective compliance begins with the ability to access, understand and apply regulatory information with clarity. Through CAMS Lens, we seek to make regulatory intelligence more accessible and actionable for participants across the capital-markets ecosystem. Our collaboration with NISM allows us to extend this capability to the learning environment and contribute to the development of technology-enabled compliance professionals.”*

The collaboration agreement was formally signed in Mumbai on October 14, 2026, by Shri Sashi Krishnan, Director, NISM, and Mr. Anuj Kumar, Managing Director and CEO, CAMS.

---

#### **About NISM:**

The National Institute of Securities Markets (NISM) is a public trust established by the Securities and Exchange Board of India (SEBI) in 2006 to strengthen the quality and integrity of India's securities markets through education, certification, research, capacity building and financial literacy. As India's premier institution for securities market education and investor awareness, NISM works with regulators, market participants, academic institutions and investors to enhance professional competence, promote financial literacy and support a fair, transparent and resilient securities market ecosystem through its academic programmes, professional certifications, research initiatives and nationwide outreach activities.

#### **About CAMS Limited ([www.camsonline.com](http://www.camsonline.com)) | BSE: 543232 | NSE: CAMS**

CAMS is a financial infrastructure and service partner to the asset management industry, providing platform-based services to the BFSI segment. The company is India's leading registrar and transfer agent for mutual funds, serving an aggregate market share of ~68% based on mutual fund average assets under management (“AAuM”). CAMS is also the market-leading platform and service partner for alternative investment funds and portfolio managers, offering end-to-end digital and fund administration services. Its subsidiary CAMSKRA is a fast-growing KYC repository for capital markets, leveraging new-

age technologies to deliver seamless investor onboarding. CAMSPay specializes in secure, seamless and innovative payment solutions for mutual funds, BFSI and EdTech sectors. Through CAMSRep, the company provides services to insurance companies and the insurance ecosystem. CAMS has also expanded into new growth areas such as Account Aggregator and Central Record-Keeping Agency (CRA) services for the National Pension System. The company has further strengthened its digital capabilities through its majority stake in Think360.ai, a full-stack Data Science and AI-focused firm, and Fintuple Technologies, a digital transformation partner for capital market entities.
