WORKING ON MOU

US, Iran report progress on talks to end the war

US President Donald Trump says might take decision today

ASSOCIATED PRESS
New Delhi/Dubai, May 23

US PRESIDENT DONALD Trump on Saturday said he was meeting with his negotiators to discuss Iran's latest offer and would likely decide by Sunday whether to resume the war, US media outlet *Axios* reported. Trump told *Axios* that it was a "solid 50/50" as to whether he would be able to make a "good" deal or else "blow them to kingdom come." The US President said he would meet with special envoy Steve Witkoff and Jared Kushner to discuss the proposal from Tehran. Vice President JD Vance, who is in Ohio, is likely to return to Washington to join the meeting. Pakistan's Army chief Asim Munir was in Tehran to discuss with the negotiators on the fine print of the peace deal.

Iran's Parliament speaker Mohammad Bagher Qalibaf (right) with Pak Army Chief Field Marshal Asim Munir in Tehran

In Delhi, Secretary of State Marco Rubio said, "There's been some progress done, some progress made." Even as I speak to you now, there's some work being done. There is a chance that, whether it's later today, tomorrow (Sunday), in a couple of days, we may have something to say." Rubio, who is on a four-day visit to India, said the Presi-

negotiating a letter of intent to end the war and commit to 30 days of more in-depth negotiations, *Axios* reported.

"I think one of two things will happen: either I hit them harder than they have ever been hit, or we are going to sign a deal that is good," Trump said. He acknowledged that "some people would much rather have a deal and others would rather resume the war," but rejected the idea that Israeli Prime Minister Benjamin Netanyahu was "worried" that he might make an unfavourable deal. Iran state TV quoted Foreign Ministry spokesperson Esmail Baghaei as describing the draft as a "framework agreement" and adding: "We want this to include the main issues required for ending the imposed war and other issues of essential importance to us. Then, over a reasonable time span, between 30 and 60 days, details are discussed, and ultimately a final agreement is reached." He said the Strait of Hormuz is among the topics discussed.

HC allows Vinesh Phogat to participate in trials for Asian Games

PRESS TRUST OF INDIA
New Delhi, May 23

THE DELHI HIGH Court has given its nod to the participation of celebrated grappler Vinesh Phogat in the upcoming trials for the Asian Games, saying the Wrestling Federation of India's (WFI) selection policy is exclusionary for the lack of discretion to consider an iconic player like her, who is returning from a maternity break.

A bench of Chief Justice DK Upadhyaya and Justice Tejas Karia ordered that the selection trials, to be held on May 30-31, shall be video-recorded by the WFI and an independent observer from the Sports Authority of India (SAI) and the Indian Olympic Association (IOA) each shall also remain present.

The court observed that the grounds taken in the show-cause notice "appear to be pre-mediated and reopening the closed issues" and that "it is necessary that the appellant is permitted to participate in the selection trials in the interest of the sport and justice".

3-DAY AD & MEDIA FEST COMES TO AN END

Live entertainment & deep conversations at Goafest

KARTIKAY KASHYAP
Goa, May 23

THE THREE-DAY GOAFEST 2026 ended on a high note with a compelling blend of reflections, live entertainment and thought-provoking conversations. Of more than 4,000 entries received from over 300 companies and brands, around 1,282 were shortlisted for jury discussions around various categories. The prestigious ABBY Awards recognised excellence and a total of 367 entries were awarded over the three-day festival. Leo India emerged as the top performer, sweeping the festival with 640 points and 134 metals (1 Grand Prix, 12 Golds, 44 Silvers, 57 Bronzes, and 20 Merits).

The key takeaway from the event was that advertising is fundamentally about people. While scale and technology have emerged as critical tools to deliver messages efficiently to highly specific target audiences across various plat-

forms, devices, and global markets, they only exist to support the ultimate goal of brand building — that of understanding human psychology, earning their trust and influencing behaviour. And that while AI cannot completely replace humans in advertising, it is fundamentally transforming the business. The first day saw the media Abby creative awards. For media awards, 437 entries

were shortlisted for discussion and 97 of them received medals. For creative publisher Abby, 16 received medals out of the 36 entries which were shortlisted for discussion. On the second day, awards were given from the fields of broadcaster, public relations, design direct and technology. Of the 310 entries received, 255 received medals or merits. Finally, on the third day, winners from various award categories were felicitated across video craft, audio & radio, social content and influencer marketing, among others.

A total of 499 entries were received, of which 367 bagged awards. The event was themed around 'Resetting for Growth', discussing the future course of the marketing, creative and advertising industry in India.

The session on 'Resetting Brand India: From Growth Story to Growth Strategy' was attended by Rajiv Kumar, chairman, Pahle India Foundation; Praseon Joshi, chairman, Prasar Bhatti; Nikhil Sharma, MD, Perfetti Van Melle India. A key point made by Joshi was how India must focus on building brands from India and not just 'brand India'.

Forecast for \$200-billion CPU market includes China: Nvidia

REUTERS
Taipei, May 23

NVIDIA CEO JENSEN Huang said on Saturday that his forecast of a \$200 billion market for CPUs includes China, signalling Nvidia still sees significant long-term demand in the market amid ongoing US-China technology tensions.

Central processing units have taken centre stage as companies and businesses gravitate towards agentic AI — systems that perform autonomous functions — broadening demand beyond graphics processing units, or GPUs, that are used to train large models.

Huang aimed to assure investors that the world's most valuable company can keep up its blockbuster growth with the help of a broad base of customers and that new products will help it beat the \$1 trillion in sales it has forecast for its flagship AI chips.

During an earnings call on Wednesday, Huang said Nvidia's

Nvidia ramping up production of its Vera Rubin platform

CEO says it would be 'terrific' to sell H200 AI chip in China

Nvidia CEO Jensen Huang drinks beer with fans at Meet-a-Claw event in Taipei, Taiwan

new "Vera" central processors give it access to a new \$200 billion market. Speaking to reporters upon arrival in Taipei on Saturday and asked if that forecast included China, he said: "I would think so."

Nvidia has received licenses from the US government to sell its H200 chips but has not received approval from Chinese officials who are fostering China's own chip suppliers. US President Donald Trump's talks with Chinese President Xi Jin-

ping in Beijing this month produced no immediate breakthrough for Nvidia to sell H200 chips. Huang was also there as part of the US delegation.

Reuters reported last week that the US has cleared around 10 Chinese firms to buy Nvidia's second-most powerful AI chip, the H200, but not a single delivery has been made so far. "H200 has been licensed to ship to China. It would be terrific to be able to serve that market."

Bangladesh's central bank launches \$5-bn fund to spur growth

BLOOMBERG
Beijing, May 23

BANGLADESH'S CENTRAL BANK unveiled a 600 billion-taka (\$5-billion) package to boost economic growth, revive shuttered factories and support small businesses.

Some 410 billion taka will be raised from banks with excess liquidity at a 10% interest rate, while the remaining 190 billion taka will come from Bangladesh Bank's own reserves, Governor Mostaqur Rahman said at a media briefing Saturday.

The fund will restore "industrial production and stimulate domestic demand and rebuild business confidence," Rahman said. The largest single allocation, 200 billion taka, will be earmarked for closed factories and service sector businesses, with the central bank estimating it could create 200,000 jobs.

Anthropic nears \$30-bn funding

BLOOMBERG
May 23

ANTHROPIC IS SET to close its latest round of funding, which may top \$30 billion at a valuation above \$900 billion, as soon as next week, according to people familiar with the matter, vaulting ahead of rival OpenAI to become the world's most valuable AI startup. Sequoia Capital, Dragonair Investment Group, Altimeter Capital and Greenoaks Capital Partners are expected to co-lead the financing round, said the people, who spoke on condition of anonymity as the information is not public.

Each of the firms plan to invest roughly \$2 billion, the people said. A number of other existing Anthropic investors are also planning to partici-

China's DeepSeek makes 75% price cut on V4-Pro AI model

CHINESE ARTIFICIAL INTELLIGENCE startup DeepSeek will make permanent a 75% price cut on its flagship V4-Pro artificial intelligence model, keeping prices at a quarter of their original level, the company said in a statement on Saturday. DeepSeek did not disclose whether the permanent price cut was due to increased supply of Huawei's

Ascend 950 chips, which it used to maximise V4's performance. The company cut V4-Pro API costs to between 0.025 and 6 yuan per million tokens (about \$0.0035 to \$0.83) depending on usage type, from 0.1 to 24 yuan previously, the statement said. A "token" is a unit of text processed by the AI model.

pate, including Peter Thiel's Founders Fund and General Catalyst, the people said. The total investments in the round are tracking north of the \$30 billion that Anthropic had been targeting, the people

said. The commitments are being finalised and the terms could change. The large round came together in a matter of weeks, a sign of strong investor demand for the Claude maker.

Nepali film wins Jury Prize at Cannes

NEPALI FILM *ELEPHANTS in the Fog* has created history by becoming the first film from the country to win at Cannes, taking home the Un Certain Regard Jury Prize at the 79th edition of the world's most prestigious film festival. Written, directed by Abinash Bikram Shah in his feature debut, which runs parallel to the main competition for the Palme d'Or and highlights emerging filmmakers and voices. The story is about Pirati, the matriarch of a Kinnar community, who dreams of escaping to live with the man she loves.
