Our team is dedicated to maintaining the highest standards of quality, efficiency, and technological integration. This project represents another milestone in our journey to support regional development and strengthen our standing as a trusted infrastructure partner.”

With a continued focus on water resource management, irrigation, and renewable energy, Om Infra is well-positioned to support national initiatives such as the Jal Jeevan Mission and hydroelectric development. We expect this project to contribute positively to our revenue and profitability, while driving long-term value for our stakeholders”

About Om Infra Ltd.

Om Infra Ltd. is an infrastructure development company with a core focus on Engineering, Procurement, and Construction (EPC) services across the water and energy sectors. With decades of experience and a strong execution track record in executing turnkey contracts for H M components , the company delivers complex projects involving hydroelectric and pumped storage power plants, dams, water supply and irrigation systems, and water treatment facilities. Om Infra is also actively engaged in integrated renewable energy solutions, reinforcing its commitment to sustainability and innovation in infrastructure development.
