**Subject: Disclosure under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 – Successful Operationalization of AI-Driven Integrated Counter-UAV Defence System**

Dear Sir / Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, read with the Company's Policy on Determination of Materiality of Events and Information, we wish to inform you that the Company has successfully delivered and operationalized its proprietary AI-Driven Integrated Counter-UAV Defense System under a pilot phase contract for a leading Indian Defense Public Sector Undertaking (PSU).

The system has been operationalized following the successful completion of User Acceptance Testing (UAT), demonstrating its performance, reliability, and mission-critical capabilities in accordance with the technical requirements of the customer.

This operational milestone establishes the Company as an approved technology partner for the concerned customer and is expected to create opportunities for future business, including potential follow-on orders across multiple operational units, subject to the customer's procurement processes, commercial negotiations, and applicable approvals.

A copy of the press release proposed to be issued by the Company in this regard is enclosed herewith as Annexure-A.

This is for your information and record.

Thanking you,

For OptiValue Tek Consulting Limited

**Annexure-A****FOR IMMEDIATE RELEASE****OptiValueTek Announces Successful Operationalization of AI-Driven Integrated Counter-UAV Defense System for a Leading Defense PSU****Bangalore, 10th July, 2026**

OptiValueTek Limited ("the Company"), a Deep Tech and Digital Engineering company, today announced the successful delivery and operationalization of its proprietary AI-Driven Integrated Counter-UAV Defense System under a pilot phase engagement for a leading Indian Defense Public Sector Undertaking (PSU).

The system has been operationalized following the successful completion of User Acceptance Testing (UAT), which validated the system's performance in accordance with the customer's prescribed technical and operational requirements.

The successful completion of the pilot phase marks an important operational milestone for the Company. Based on the successful deployment, the Company expects to participate in future business opportunities with the customer, including potential follow-on orders, subject to the customer's procurement processes, commercial negotiations, budgetary approvals and other applicable statutory and contractual requirements. There can be no assurance regarding the timing, value or receipt of any such future orders.

Commenting on the development, **Mr. Ashish Kumar, Founder & Chief Executive Officer**, said:

*"The successful operationalization of our AI-Driven Integrated Counter-UAV Defense System is an important milestone for the Company and reflects our continued commitment to developing indigenous technology solutions for the defence sector. We remain focused on innovation, customer satisfaction and long-term value creation through technology-led solutions."*

The Company believes that increasing emphasis on indigenous defence capabilities, counter-drone technologies, electronic warfare and advanced surveillance solutions may present long-term opportunities for technology providers. OptiValueTek will continue to strengthen its research and development capabilities and pursue business opportunities aligned with its strategic objectives and applicable regulatory requirements.

**About OptiValueTek Consulting Limited**
