for OPTO CIRCUITS (INDIA) LTD.,

Authorised Signatory

Opto Circuits launches new Powerheart G5 AED
Major EU Markets Gain Access to New CE-certified Product

Bengaluru | 11th June, 2012

Opto Circuits' subsidiary and global leader in automated external defibrillators (AED), Cardiac Science Corporation, today announced the European launch of its CE-certified Powerheart® G5, the next-generation AED to help save lives from sudden cardiac arrest (SCA).

Each year, as many as 700,000 lives are lost to SCA in Europe.

The Powerheart G5, which enters a global AED market valued at \$550M as of 2011, is designed to enable both professional rescuers and first-time users to swiftly provide effective, life-saving therapy to aid a person who has suffered SCA. It is the first AED to combine real-time CPR guidance for the rescuer, customized patient therapy, and fast shock times, providing significant differentiation and greatly expanded features vis-a-vis competition.

"We expect the new G5 AED to help us secure a top global market-share position," said Vinod Ramnani, Chairman and Managing Director, Opto Circuits. "The Powerheart G5's combination of life-saving features and intuitive controls will appeal to current and new customers in work places, public spaces and emergency services."
