Notable Achievements of H1 FY 26

Energy Generation (Solar)

- Commissioned **Rajasthan's first Group Captive Open Access project**
- Secured additional **Open Access grid connectivity** across **Rajasthan, Haryana, and Tamil Nadu**, ensuring future growth
- Ensured **robust execution** by expanding the **land secured by 600+ acres**
- Secured Oriana's **first open access project in Gujarat**
- Commissioned the **largest project in Goa under Virtual Net Metering Policy**
- Achieved L1 position for a solar project in Latin America through Exim Bank (approx. USD 2.5 million), **expanding global footprint** (LOA awaited)

Energy Storage (BESS)

- Signed **BESPA agreements for 100 MWh of BESS capacity** in Rajasthan
- Signed **BESPA agreements for 100 MWh of BESS capacity** in Tamil Nadu
- 170+ MWh C&I order secured for solar + BESS hybrid projects, opening new business opportunities
- 450 MWh BESPA expected within 2 months

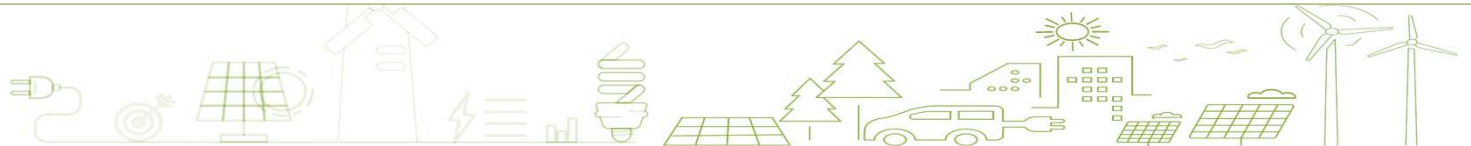

Notable Achievements of H1 FY 26

Energy Consumption (Green Hydrogen & Derivatives)

- **Forayed into green fuels** by receiving allocation of 60,000 MTPA Green Ammonia as well as 10,000 MTPA Green Hydrogen from SECI. This ensures an annual recurring revenue of INR 313 Cr
- **Acquired land** in Narmadapuram for Integrated Green Ammonia, e-methanol and CCUS project

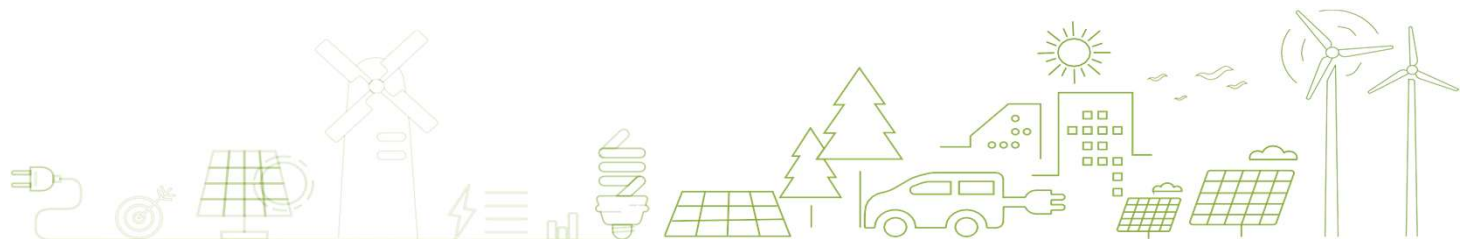

Corporate

- Increased **CRISIL credit rating** from BBB/Stable to **A-/Stable**
- Accessibility to **Surety Bond for EMD & PBG**, resulting in **better capital management and larger participation in tenders**
- Emphasis on **cyber-security**, strengthening governance and digital security standards of the company
- Recognized as a “**Great Place To Work**”
- **Strengthened the team size by over 100 strong members** of Oriana family, from 250 in March 2025 to 350+ as on date
- Added yet another office space to cater to our growing team

Strategic Collaborations for a Sustainable Future

- Signed an MoU with **Invest Alberta (Canada)** for RE Complex- USD 300-500 million, scalable to USD 1 billion over 5 years
- Signed a joint development agreement with **Actis GP LLP for development of 1GW of RE assets** under their platform, with funds of USD 100 million equity for the period of two years. Under this agreement, Oriana will act as the project development and turnkey partner
- Engaged with the **top licensors in green hydrogen and its derivatives** for technological collaboration
- Signed an MoU with the **Government of Rajasthan** of INR ₹10,000 crore for integrated renewable energy solutions, with actions initiated for a 685 MW solar power plant and 104 MWh BESS
- Signed an MoU with the **Government of Madhya Pradesh** of INR 5,000 crore, for integrated renewable energy solutions, with actions initiated on land and connectivity. 30 acre land allocation completed for integrated complex of green ammonia, e-methanol & CCUS
- Signed an MoU with the **Government of Assam** of INR 500 crore, for integrated renewable energy solutions, with actions initiated on land and connectivity

Oriana Power & Actis GP LLP : Strategic Partnership

Transaction Overview

- ~238 MW solar power plants sold at an enterprise value of ~USD 108 million
- Marks a landmark capital-recycling milestone for Oriana
- 1 GW joint development agreement with Actis, leading to revenue generation of INR 4000+ Cr in next two years
- Actis to invest up to USD 100 million over the next two years

Strategic Impact

- Capital Recycling for Growth -unlocks capital to accelerate Oriana's next phase of RE asset development
- Exclusive EPC & O&M Mandate - Oriana remains the exclusive EPC + O&M partner, boosting revenue and margins
- Significant Development Premium - portfolio monetization delivers strong value for Oriana's execution capabilities
- Strengthened IPP Position - enhances Oriana's footprint as a credible, scalable Independent Power Producer
- Global Advantage with Actis - backed by a global investor managing ~USD 12.5B AUM and combining with General Atlantic to form a USD 96B platform, supporting competitive financing and superior project bankability
- Stronger Client Base - enables access to AAA-rated customers across EPC and IPP segments
- Shareholder Value Creation - reinforces trust, long-term growth, and strengthens market capitalization

New Project Added to the Growth Story

Energy Generation (Solar)

- Cement Conglomerate, Rajasthan : 112.5 MW (part of hybrid project)
- A Navratna PSU, Gujarat, **Oriana's first solar open access project in Gujarat** : 70 MW
- Government Power Generation company, Jharkhand (LOA awaited) : 300+ MW
- Miscellaneous cumulative capacity of 75+ MW

Hybrid Solutions (Solar + BESS)

- Cement Conglomerate, Rajasthan : 112.5 MW + 50 MW/100 MWh
- Cement Conglomerate, Rajasthan : 12.5 MW / 25 MWh
- Cement Conglomerate, Rajasthan : 15 MW / 30 MWh

Energy Storage (BESS)

- A Maharatna PSU, Rajasthan : 125 MW / 250 MWh
- Cement Conglomerate, Rajasthan : 450 kW / 903kWh
- A state Transmission Utility, Karnataka : 50 MW/100 MWh
- A state Transmission Utility, Tamil Nadu : 50 MW/100 MWh
- A state Transmission Utility, Telangana : 50 MW/100 MWh

Energy Consumption (Green Fuels)

- Fertilizer company, backed by government of India, SECI : 60,000 MTPA for Green Ammonia (feasibility study started)
- 10,000 MTPA allocation by SECI for Green Hydrogen
- Discussions in advance stage for a joint venture in Egypt, for 1,00,000 MTPA e-methanol plant

Strategies for a Sustainable Growth

Generation

Storage

Consumption

Expanding our EPC & IPP Portfolio

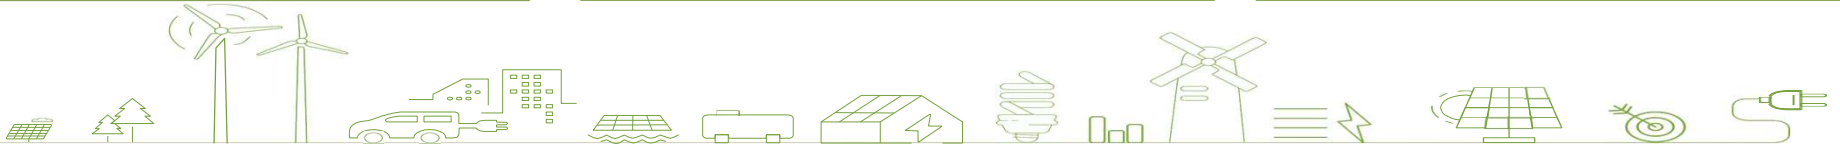

- Expand installed capacity, planning to reach **1,000 MW by FY26**
- **Engagement with global funds** for development of their assets & asset recycling, leading to significant top line revenue and increase margin profiles in future
- Pursue **larger project opportunities**, achieved through compliance with tender requirements on revenue, net worth and execution capability
- Introduce **tailored solutions** for C&I clients, focused on **enabling their Net Zero objectives**

Expanding further into BESS for Grid Efficiency

- Advance order pipeline with a focus on **securing additional projects exceeding 2 GWh by FY26**, positioning the division to reach the 20 GWh scale targeted for 2030 ahead of schedule
- Develop new revenue streams in the C&I segment through **Energy-as-a-Service** models, enabling wider market access and long-term service-led engagements
- Enhance institutional coordination with MNRE, SECI, and state utilities to support **policy development**
- **Engage with Invit & institutional funds** for asset development under their platform, for maximizing profitability

Development of Green Hydrogen and derivatives

- Progress **scale-up of production, towards 2,00,000 MTPA by FY28** supported by existing allocations
- Engage in **emerging hydrogen hubs** such as Harit Mala and Harit Sagar
- Develop **e-methanol and green ammonia export channels** targeted at key markets in Japan, Europe and Egypt
- Strategic entry into **Carbon Capture, Utilisation & Storage (CCUS)** industry as carbon pricing market has started taking shape in India under **National Carbon Capture Initiative of Government of India**

Strategies for a Sustainable Growth

Strategic initiatives

- Partnering with technology leaders on **Energy Management Systems, energy trading & AI**
- **Strategic engagements** with large conglomerates, IITs, and the Government of India's Department of Science & Technology on **research and innovation**
- Undertaking solar **asset recycling** to support reinvestment into new projects and enhance capital efficiency
- Developing green-energy enablement solutions for **data centers**

Focusing on high growth geographies within India

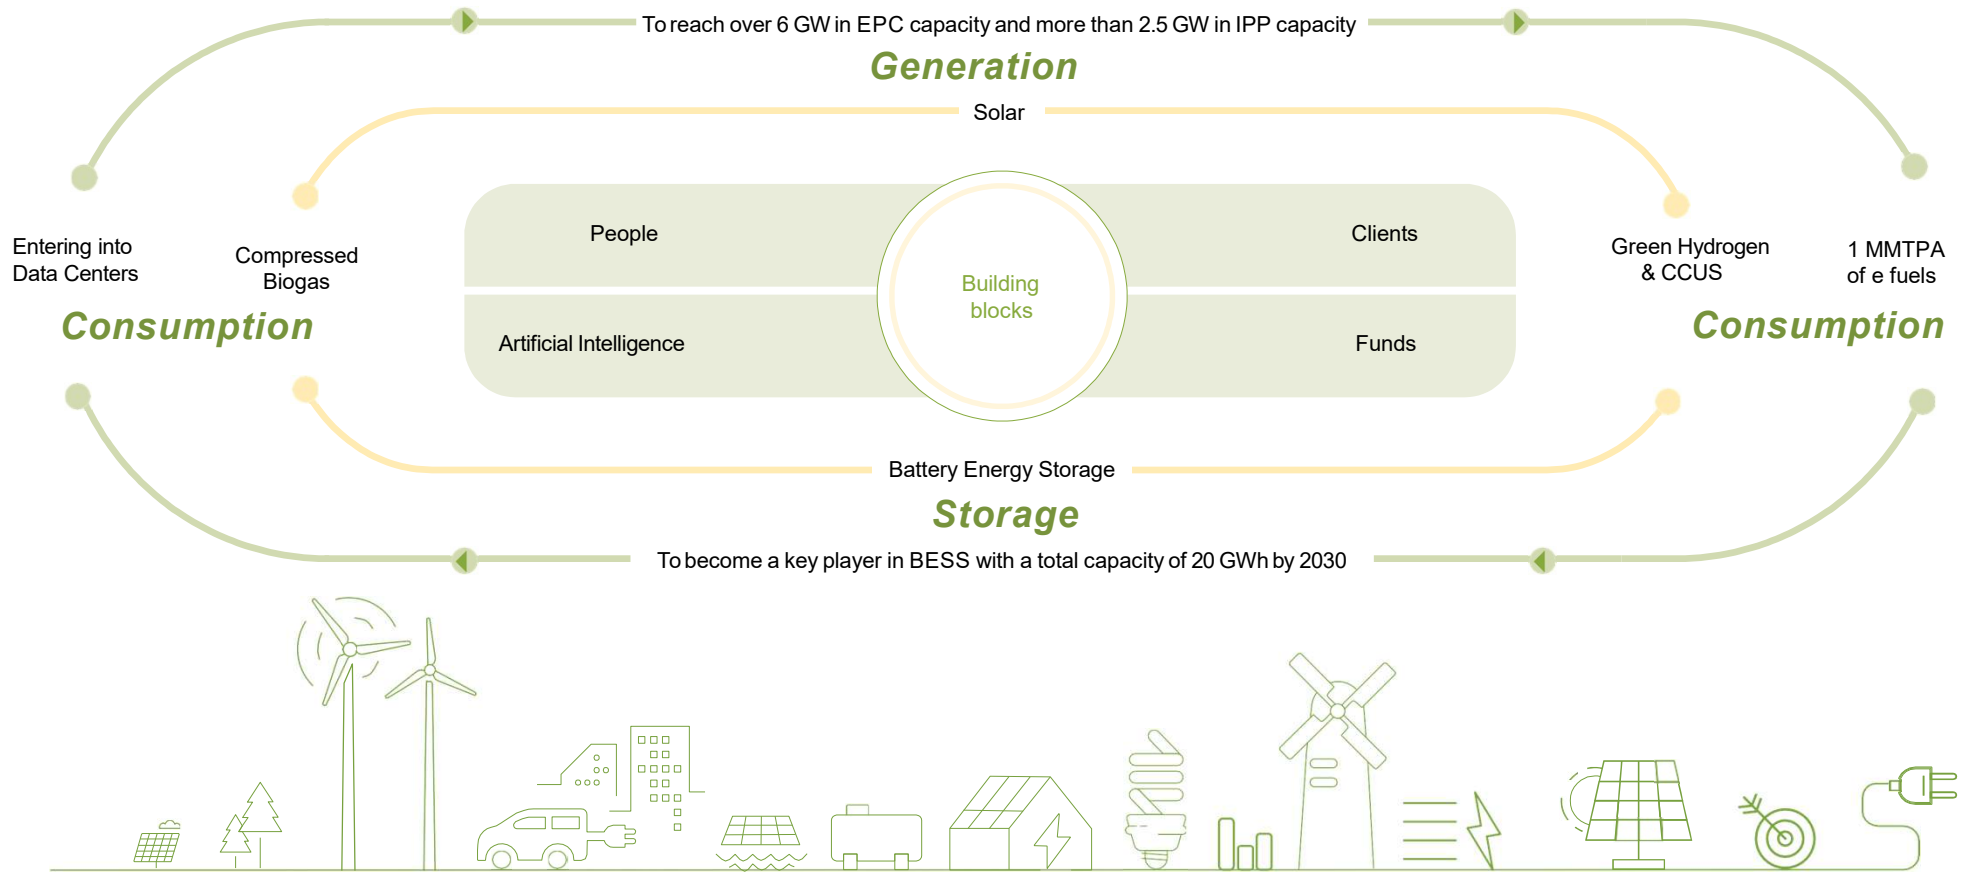

- Targeting geographies with a **conductive policy environment, robust solar potential, and significant industrial demand**- such as Haryana and Andhra Pradesh- for scalable RE deployment
- Diversifying to new geographies with unexplored potential

Strategic Land Acquisition and Deployment

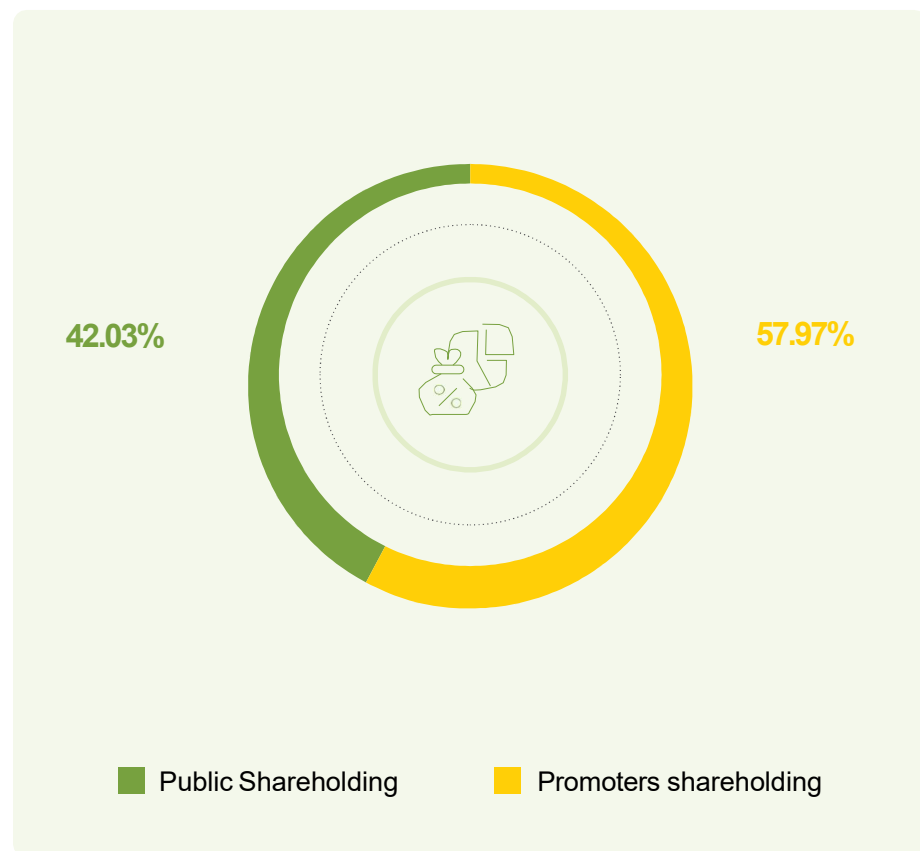

- **Enhancing project efficiency and reducing transmission losses** through strategic land acquisition near power evacuation substations
- Joining hands with the project development companies for acquiring shawl-ready projects for faster execution

Looking ahead Vision 2030

Message from the Management

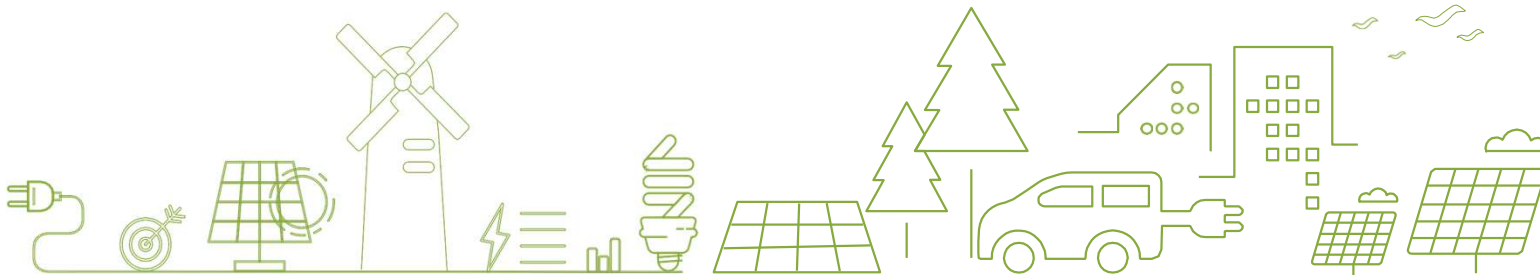

Over the past few years, Oriana has evolved far beyond being just an EPC company. Today, we have built a unique position in the renewable-energy market — one where we can serve the entire clean-energy value chain, from **generation**, through our solar projects, to **storage**, through our fast-growing BESS portfolio, to **consumption** enablement through green-fuel initiatives such as hydrogen and its derivatives. This integrated approach ensures we stay ahead of the market and continue creating long-term value in multiple dimensions.

Our journey has always been about anticipating the future to stay ahead of the curve. We entered the BESS sector in 2024, long before the market expanded, and we are applying the same foresight today as we build capabilities in green molecules and explore AI-driven solutions across operations.

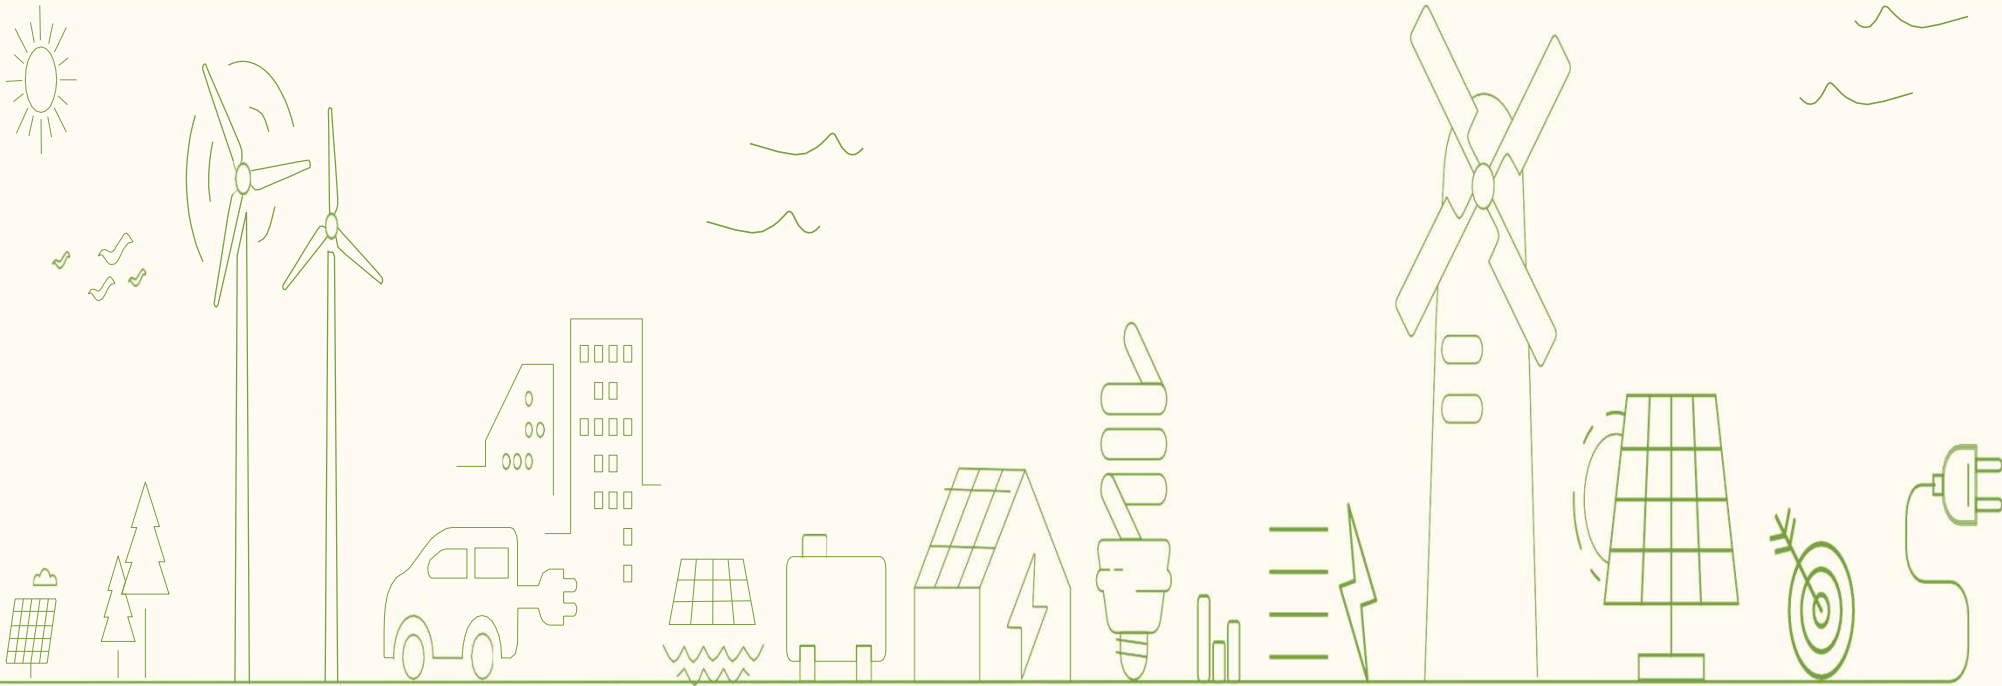

As we grow, we are actively exploring opportunities in both domestic and international markets. For ensuring a steady business across verticals, we are continuously exploring partnerships and joint development agreements. Our recently closed agreement with Actis for developing 1 GW of renewable assets with a USD 100 million equity commitment over two years is a strong example of the confidence global institutions place in Oriana's vision and capability.

Going forward, asset-recycling will help us reinvest efficiently, strengthen our balance sheet, and accelerate project development across verticals.

Every step we take is guided by a single objective — to create sustained value for our investors, our customers, our partners, our team, and all stakeholders who believe in our mission. We are now embarking on a journey of Giga-trends, unfolding greater value for the shareholders.

Company Overview

About Oriana

A fully integrated RE powerhouse- we master the complete value chain of clean energy, ensuring reliable solutions are delivered from generation through storage, to consumption.

Vision

Driving India towards a sustainable future with Renewable Energy.

Mission

Oriana Power is dedicated to becoming an integral part of the global shift towards renewable energy. The company strives to meet the growing demand for energy while ensuring environmental sustainability and economic viability. As Oriana Power continues to expand its services and technologies, it remains focused on its mission to harness the power of being a truly renewable energy company, thereby contributing to a greener planet and a sustainable future.

Oriana's Journey

2013

- Incorporated as Oriana Power Private Limited, marking entry into India's emerging solar energy sector

2020

- Commissioned our first floating solar project, showcasing innovation in alternative solar deployment formats

2024

- Initiated our transition into a full spectrum renewable energy company by entering the Green Hydrogen and BESS

2017

- Marked our first International footprint- in Kenya

2023

- Transitioned into a public limited company, strengthening our corporate structure and positioning for future growth

2025

- Signed our first international govt. MoU with Invest Alberta
- Achieved Giga Watt Capacity
- Achieved Market Capitalization of USD 500 million
- Achieved Revenue of INR 1000+ Cr
- Signed MoU with Actis GSP LLP, for USD 100 million

BRAITHWAITE

“ We scale with purpose, not pressure. As we embark on our journey forward to cater across the RE value chain – from Generation, through storage, to consumption of energy, every opportunity we take on is matched to our ability to execute—deliberately, sustainably, and without compromise. Our focus remains on building a business that delivers with consistency and endures with strength. ”
