SBI to revisit policy on construction finance: Setty

PRESS TRUST OF INDIA New Delhi, December 20

> **STATE BANK OF India (SBI)** Chairman CS Setty on Saturday said that the bank will reassess its policy on construction finance for residential real estate, but stressed that accountability and transparency will be key factors in determining interest rates for such loans. At present, the bank has almost negligible presence in construction finance for housing projects, but it is slowly building a book on commercial real estate, especially office space. "So how do we work out on the construction (finance), particularly on the residential real estate, is something that we are working on. But it is also a fact that many of the people who have been aggressive on the residential real estate market have burned their hands," he said, while reminding realtors of past cases of failures due to overleveraging.

"The stability in terms of transparency, in terms of project management, in terms of risk management, gives us some confidence....accountability is something what is going to give confidence to the lenders like us, and you will be accessing the construction finance at a much affordable cost," he said. With regard to commercial real estate, Setty said developers should facilities in the city, with the ensureat least 40-50% commitpotential to scale up to over | ment from potential tenants for the upcoming office space to avail construction finance.

We must become world leaders in AI: Mukesh Ambani

INDUSTRIES RELIANCE CHAIRMAN Reliance Industries Chairman Mukesh Ambani on Saturday said India must become a world leader in artificial intelligence, but stressed the need for greater empathy in adopting new-age tech.

He said the largest Indian corporate is at the "doorstep" of solving India's energy challenge with solar energy and storage solutions. Speaking at an event in Mumbai, Ambani said RIL's telecom arm Jio has catapulted India into the digital mainstream of the world by laying the foundation with its services.

"... of course we need AI. We (India) must become world leaders in AI. But above all, we need empathy and compassion even more," Ambani said. "By combining intelligence with empathy, prosperity with purpose, India can present a new model of development to the rest of the world," he said.

He said there were many

"disbelievers" about the telecom business even within RIL. In an apparent reference to RIL's battery and energy storage ambitions, he said the company is at the cusp of solving long-standing challenges on the energy front for India, which imports 80% of its energy requirements and faces limitations around energy storage despite having abundant solar potential. RIL has focused on becoming an innovation-led Ambani said. PTI
