Press Release

SFL Hearing Solutions Private Limited, a Step-down Subsidiary of OSEL Devices Limited, Enters into a Strategic Partnership with Petals Healthcare LLP, Adding 04 More Centres to SFL's Existing Network of 37 Operational Hearing Care Centres.

New Delhi, July 01, 2026

OSEL Devices Limited ("OSEL" or the "Company") is pleased to announce that its step-down subsidiary, ***SFL Hearing Solutions Private Limited ("SFL")***, has entered into a strategic partnership agreement with ***Petals Healthcare LLP*** to expand its hearing care network across West Bengal.

Petals Healthcare LLP is engaged, inter alia, in the business of operating healthcare establishments, including polyclinics, and possesses the infrastructure, premises, operational expertise and requisite licenses and registrations required for establishing and operating healthcare facilities.

Under this strategic partnership, ***SFL will be adding 04 more centres to its existing network of 37 operational hearing care centres, expanding its total network to 41 operational centres.*** The addition of these centres will strengthen SFL's presence in West Bengal and enable the commencement of its hearing care operations through established healthcare infrastructure.

Through these centres, SFL will provide comprehensive hearing healthcare solutions, including hearing assessments, hearing aid fitting, calibration, after-sales support and other specialized audiology services.

The addition of these 04 centres represents the initial phase of the collaboration, with opportunities to progressively expand SFL's hearing care network through additional polyclinics at mutually agreed locations. By combining SFL's expertise in advanced audiology and hearing solutions with Petals Healthcare LLP's healthcare operational capabilities, the collaboration aims to improve accessibility to quality hearing care while supporting SFL's long-term expansion.

The strategic partnership is expected to strengthen the OSEL Group's healthcare ecosystem, enhance SFL's operational footprint and support its expansion into new geographies through strategic collaborations with reputed healthcare providers.

Management Comment:

"The addition of 04 more centres will expand SFL's hearing care network from 37 to 41 operational centres, marking an important step in strengthening our presence in West Bengal through a partnership-led model. This strategic collaboration enables us to commence operations through established healthcare infrastructure while further advancing our objective of expanding access to quality hearing care.

We believe this collaboration provides a strong framework for future expansion through similar strategic partnerships, enabling SFL to strengthen its operational footprint, improve accessibility to specialized hearing healthcare and continue delivering high-quality audiology services across new markets. This initiative also reinforces the OSEL Group's commitment to building a sustainable and accessible healthcare ecosystem."
