HUL to step up capex for volume-led gains

FMCG firm to raise productive capex to 3% of turnover from around 2%

MUMBAI

Consumer goods major Hindustan Unilever Ltd plans to step up spending on its business, raising productive capital expenditure to 3% of turnover from around 2% to deliver long-term, competitive, volume and profit growth. The Lux and Surf Excel maker said this in its Capital Markets Day presentation submitted to the stock exchanges on Friday.

Over the last five years, total capex for growth & savings was 2% of turnover. The company reported an annual turnover of ₹63,763 crore in FY26.

HUL also said that it will decisively enter select high-growth spaces that exhibit sustainable growth, have a profit pool, and are spaces where HUL has the right to win. This includes categories such as male grooming, mass prestige skincare (a combination of high-end ingredients at affordable prices), fragrances, vitamins and minerals, healthy snacking, protein, hydration, ready-to-drink products, and functional deodorants.

The company has reiterated its focus on volume-led growth. Category growth will be driven by four core levers: increasing consumption (more usage), accelerating premiumization (more benefits), leading market-making in the under-penetrated segments (more customers), and expanding into new spaces (more categories).

HUL said its premium brands receive twice the investment as the rest of the portfolio, reflecting their strategic importance.

HUL has been streamlining its portfolio through the sale of non-core assets such as Pureit, the demerger of its ice cream business, and the divestment of Nutrilab.

The company has also made major acquisitions in newer territories over the past few years. HUL acquired the plant-

The Securities and Exchange Board of India (Sebi) has approved the initial public offering (IPO) of the National Stock Exchange of India Ltd (NSE), clearing the way for the bourse to begin the final steps for its long-awaited listing in the stock market.

Sebi issued its observation to the exchange's potential ₹30,000 crore offer in the week ending 4 September, a notification on the Sebi website showed on Friday. The NSE IPO nod follows Sebi's approval of Jio Platforms Ltd's potential ₹35,000 crore IPO last week, paving the way for back-to-back listings of two of India's biggest offerings so far.

Mint reported on 14 August that the Ashish Chauhan-led firm was targeting a mid-September IPO launch, with a listing planned by the end of the month. A Mint report from 18 August said the exchange was likely to price its shares at over ₹2,000 apiece, taking its valuation to over ₹5 trillion.

The NSE IPO is structured entirely as an offer for sale of 148.9 million equity shares, representing 6% of the company's paid-up equity capital. Proceeds will go entirely to the existing shareholders, including State Bank of India, SBI Capital Markets, Canada Pension Plan Investment Board, Bank of Baroda, Stock Holding Corp of India, General Insurance Corp of India, and The New India Assurance Co. for an extended version of the story, go to www.livemint.com
