Sub.: Investor Presentation

Dear Sir/ Madam,

Pursuant to the provisions of Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find enclosed the Investor Presentation. The same is also available on the website of the Company https://www.oswalpumps.com/.

This is for your information and records.

Thanking you,

Yours faithfully,

For **Oswal Pumps Limited**

Q2 FY27 Investor Presentation

November 2026

Safe Harbour Statement

This presentation may contain certain “forward-looking statements” within the meaning of applicable securities laws and regulations, which may include those describing the Company’s strategies, strategic direction, objectives, future projects and/or prospects, estimates etc. Investors are cautioned that “forward looking statements” are based on certain assumptions of future events over which the Company exercises no control.

Therefore, there can be no guarantee as to their accuracy and readers are advised not to place any undue reliance on these forward-looking statements. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

These statements involve a number of risks, uncertainties and other factors that could cause actual results or positions to differ materially from those that may be projected or implied by these forward-looking statements. Such risks and uncertainties include, but are not limited to, growth, competition, acquisitions, domestic and international economic conditions affecting demand, supply and price conditions in the various business's verticals in the Company’s portfolio, changes in Government regulations, laws, statutes, judicial pronouncement, tax regimes, and the ability to attract and retain high quality human resource. This document is not an offer document and should not, in any way, be construed as an offer or an invitation to sell or issue, or the solicitation of an offer to buy or acquire, any securities.

Snapshot

Management Commentary

"The Company reported sequential growth in Q2 FY27, with Revenue from Operations increasing by 6.9% quarter-on-quarter to ₹5,063 million, supported by steady execution of its solar pump order book despite a competitive pricing environment. Operating EBITDA stood at ₹574 million, with a margin of 11.3%, while PAT stood at ₹396 million, translating into a margin of 7.7%.*

Operating EBITDA margin reduced by 437 basis points quarter-on-quarter, primarily due to higher raw material costs and increased operating expenses. Higher raw material costs accounted for approximately 210 basis points of the decline, driven by an increase in aluminium frame, glass and copper prices, as well as higher zinc and steel costs at the Company's subsidiary, Walso Solar Solutions Private Limited, particularly in relation to orders secured at earlier input cost levels. The remaining 227 basis points were attributable to higher employee costs associated with strengthening the Company's workforce to support the scale-up of its Solar EPC business, increased project related operating expenses, and higher debtors provisions resulting from the applicable accounting standard. Consequently, PAT margin declined by 343 basis points quarter-on-quarter to 7.7%, largely reflecting the decline in operating profitability.*

The Company's solar pump order book currently stands at 9,487 pumps, complemented by a near-term pipeline of approximately 10,000 pumps across direct PM-KUSUM, Magel Tyala, indirect PM-KUSUM and export opportunities, providing visibility on future execution.

Against the backdrop of delays in the rollout of PM-KUSUM 2.0, the Company continues to strategically diversify its revenue streams beyond its core government-led solar irrigation business. It is actively expanding its presence across Rooftop Solar, Utility-Scale Solar and Commercial & Industrial (C&I) Solar EPC segments. The combined order book across these segments currently stands at approximately 143 MW, and a robust pipeline of 168 MW. This diversification is expected to broaden the Company's addressable market, strengthen its revenue base and create additional avenues for long-term growth.

Further strengthening its backward integration capabilities, the Company, through its wholly owned subsidiary, Oswal Solar Energy Private Limited, has announced plans to establish a 1.2 GW TOPCon solar cell manufacturing facility, subject to shareholders' approval. This strategic initiative is aimed at securing a reliable supply of Domestic Content Requirement (DCR)-compliant solar cells, enhancing supply chain integration and improving cost competitiveness over the medium to long term. Solar cell manufacturing will not only improve its supply chain and market competitiveness, but will also improve the margin profile of the company.

Looking ahead, the Company remains focused on disciplined execution of its order book, restoring operating margins through cost optimisation and operational efficiencies, and building a more diversified and integrated business platform to drive sustainable growth and long-term value creation for all stakeholders."

**Attributable to the Owners of the parent*

-Vivek Gupta
Chairman and Managing Director, Oswal Pumps Limited

One of the Fastest Growing Vertically Integrated Solar Pump Manufacturer in India

Fully integrated turnkey providers of solar pumping systems, with comprehensive backward integration encompassing pumps, motors, solar panels, mounting structures, and balance of system (BoS) kits

Key Product

Grid-Connected Pumps

Solar Pumps

Electric Motors

Solar PV Modules

Manufacturing Facilities

Operates two manufacturing facilities:

- **Pumps and Motors:** One of India's largest single-site facilities for manufacturing pumps and motors

- **Solar Modules :** 570MW capacity

- Both the facilities are accredited with **ISO 9001:2015, ISO 45001:2018 and ISO 14001:2015 certifications**
- Included in the **approved list of manufacturers and models** for solar modules by the Ministry of New and Renewable Energy, Government of India

Key Highlights

54.7% CAGR — One of the Fastest growing vertically integrated solar pump manufacturer in India in terms of revenue growth during the last five fiscals.

23+ Years — Experience in pumping solutions encompassing engineering, product designing, manufacturing and testing

66,508[1] — One of the largest suppliers of Turnkey Solar Pumping Systems under the PM KUSUM scheme (No. of pumps)

1,462[2] — Extensive distributor network[2] across India to boost retail reach and brand recognition

Orders Executed as of October 31, 2026[1] ; Distributors as of September 30, 2026[2]

Tapping Opportunities under Government Schemes – Order Book

One of the Largest Suppliers of Agri-Solar Powered Pumps under the PM KUSUM Scheme

Within six years of supplying solar powered agricultural pumps, emerged as one of the largest suppliers of solar powered agricultural pumps under the PM Kusum Scheme

- Providing Turnkey Solar Pumping Systems directly under the PM KUSUM Scheme to farmers.
- Providing Turnkey Solar Pumping Systems to players participating in the PM KUSUM Scheme.
- Supplying only solar pumping system to players participating in the PM KUSUM Scheme.

Orders executed directly under the PM KUSUM Scheme as on October 31, 2026

State Government	No. of Solar Pumping Systems Supplied
Government of Maharashtra	27,223
Government of Maharashtra (Magel Tyala)	67,193
Government of Haryana	24,851
Government of Rajasthan	3,447
Government of Uttar Pradesh	2,392
Government of Uttarakhand	1,405
Government of Karnataka	3,633
Government of Punjab	341
Government of Assam	643

Rooftop Solar, Utility and C&I Solar Projects

PM Surya Ghar: Muft Bijli Yojna

A flagship Government of India program (~**₹75,000 crore** outlay) aimed at enabling rooftop solar adoption across 1 crore households, providing up to 300 units of free monthly electricity while accelerating residential solar penetration

Government provides subsidy of ~60% of benchmark cost (up to 2 kW) and ~40% on incremental cost (2–3 kW), capped at 3 kW system capacity

The Government of India has allocated **₹22,000 crore** for the PM Surya Ghar Muft Bijli Yojana in the Union Budget 2026–27, underscoring its continued commitment to expanding rooftop solar energy across one crore households.

Avg. Monthly Electricity Consumption (units)	Suitable Rooftop Solar Plant Capacity	Subsidy Support
0-150	1-2 kW	30,000 – 60,000
150-300	2-3 kW	60,000 – 78,000
>300	Above 3 kW	Capped at 78,000

Our Progress

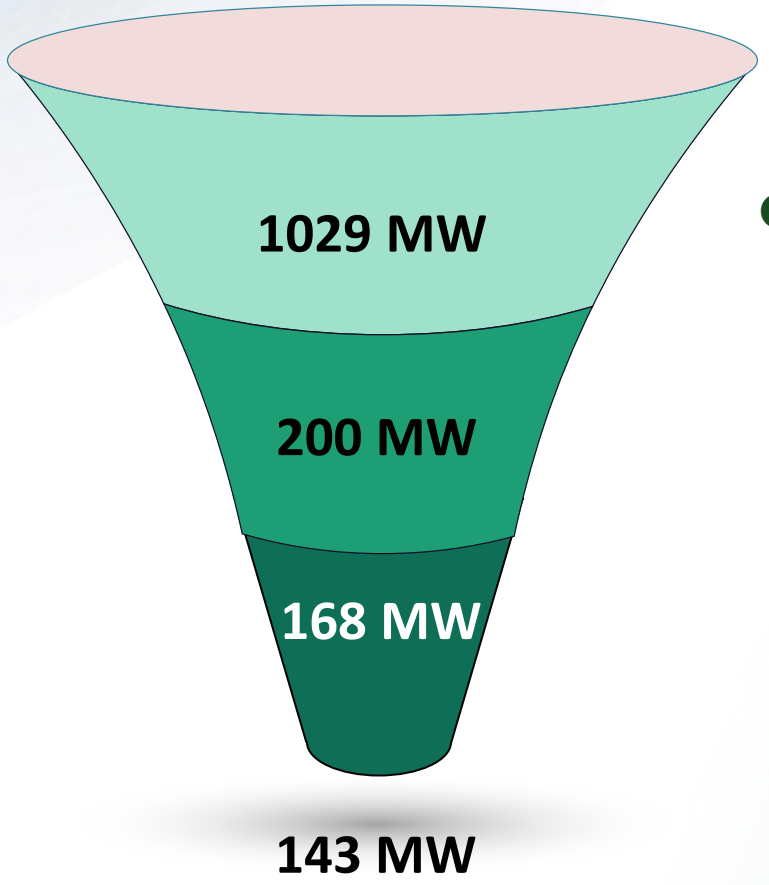

Beyond our core solar irrigation business, FY26 marked a significant strategic milestone with the Company's entry into the rooftop solar segment through its **first order** under the Government of India's **PM Surya Ghar: Muft Bijli Yojana**.

As part of its long-term growth strategy, Oswal Pumps is proactively diversifying beyond government-driven solar irrigation schemes into Rooftop Solar, Utility and Commercial & Industrial (C&I) Solar projects reducing single-scheme dependency, broadening its addressable market, and building a more resilient and scalable revenue base across India's renewable energy sector.

Oswal Solar Energy Private Limited has also incorporated a special purpose vehicle, **Oswal Doon Baran Bundi Solar Projects Limited** in partnership with Doon Infrapower Projects Private Limited, wherein Oswal Solar holds a 60% stake. This SPV has been established to execute **rooftop solar photovoltaic power projects** on state government buildings in Rajasthan under the Hybrid Annuity Mode (HAM)

Number of Pumps Supplied

Particulars	FY24	FY25	FY26	H1 FY27
Solar pumps forming part of Turnkey Solar Pumping Systems[1] supplied directly by us under the PM Kusum Scheme (A)	9,383	36,046	18,604	2,518
Solar pumps supplied other than A, C and D (B)	1,868	5,551*	45,609*	27,151*
Solar pumps supplied as part of Turnkey Solar Pumping Systems[1] players participating under the PM Kusum Scheme (C)	3,568	-	3	-
Only solar pumps[2] supplied to players participating under the PM Kusum Scheme (D)	33,444	29,570	23,107	6,887
Total solar pumps supplied E = (A + B + C + D)	**48,263**	**71,167**	**87,323**	**36,556**
Non-solar agri pumps[3] supplied (F)	33,722	50,452	52,670	21,484
Non-solar non-agri pumps[4] supplied (G)	18,778	35,926	40,915	16,264
Total non-solar pumps supplied (H) = (F) +(G)	**52,500**	**86,378**	**93,585**	**37,748**
Total solar and non-solar pumps (E) + (H)	**1,00,763**	**1,57,545**	**1,80,908**	**74,304**

1. Turnkey Solar Pumping Systems consist of solar-powered submersible or monoblock agricultural pumps and motors, solar modules, mounting structures, pump controllers, and their installations. Submersible pumps and motors are primarily made up of stainless steel, while monoblock pumps and motors are made up of cast iron.
2. Solar pumps refer to solar-powered submersible or monoblock agricultural pumps
3. Non-solar agri pumps refer to grid-connected submersible or monoblock pumps, and are used for agricultural purposes
4. Non-solar non-agri pumps refer to grid-connected submersible pumps or monoblock pumps, and are used for purposes other than agricultural, such as in residential and industrial sectors.

*These includes Turnkey Solar Pumping Systems supplied under **Magel Tyala** Scheme (Maharashtra State Government Scheme) and other Government schemes

Why Oswal Pumps?

- Vertically Integrated Manufacturing Competencies
- Enhanced Engineering & Design Capabilities
- Tapping Other New Opportunities In the Solar Space
- Comprehensive Product Portfolio
- Tapping Opportunities Under Government Schemes (PM-KUSUM)
- Extensive Distribution Network
- Industry Tailwinds
- Strong Presence in Major Agricultural Belts of India
- Experienced Management

Shareholding Summary

04 | Annexures

Cash Conversion Cycle

Particulars	Mar'26	Jun'26#	Sep'26^
Receivable Days[1]	155*	229*	229*
Inventory Days[2]	38	43	56
Payable Days[3]	21	28	28
Cash Conversion Cycle[4]	**172**	**244**	**257**

**The increase in the receivable cycle is primarily attributable to delays in payments from state nodal agencies. Management expects the payment cycle to normalize over the medium term, which should lead to a reduction in the cash conversion cycle and, in turn, lower interest costs*

Note : 1. Receivables days is calculated by multiplying the average accounts receivables by 365/ 91# / 183^ and dividing the result by the revenue from operations for the year/ period respectively

2. Inventory days is calculated by multiplying the average inventory by 365/ 91# / 183^ and dividing the result by the revenue from operations for the year/ period respectively

3. Payables days is calculated by multiplying the average accounts payable by 365/ 91# / 183^ and dividing the result by the revenue from operations for the year/ period respectively

4. Cash conversion cycle is calculated by adding Receivables days to Inventory days reduced by Payables days respectively
