Script Code: OWAIS

Subject: Business Update at the end of December 2024

Ref: Intimation under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Business Highlights

Our company has Started the Commercial Production of following Rare Earth Elements.

1. Tantalum Pentoxide, at 99.9% purity
2. Niobium Pentoxide at 99.9% purity
3. Titanium Dioxide
4. Tin

This signifies our commitment to technology development which enables our company to recover Rare Earth Elements of great importance from Mining Waste. This advancement is set to significantly enhance our performance and contribute to India's vision of becoming self-reliant Aatma Nirbhar.

Our company is one of kind company in India to recover these rare elements from Mining Wastes. These substances/Rare Earth Elements are extracted using proprietary technology developed internally by our team. This expansion will enable our company to expand the existing product base and increase overall profitability of the company.

As pioneers in extracting Rare Minerals from Mining Waste, we lead in transforming residual slag into high-purity materials like Tantalum Pentoxide and Niobium Pentoxide, essential for capacitors, semiconductors, and advanced technologies. Our advanced processes position us to dominate markets in defence, electronics, and high-tech industries.

Our Company is planning to enhance our current production capacity with the goal of becoming one of the foremost recyclers in India, specializing in the recovery of Rare Earth Elements from Mining waste

This underscores our commitment to the extraction of rare earth elements from waste. Our firm is actively engaged in multiple waste-to-wealth projects designed to identify and recover more precious metals from various forms of wastes.
