PRESS RELEASE

Orient Technologies Unveils New Turbe Service Delivery Centre with Next-Gen NOC & SOC and Securonix-Powered Capabilities

Mumbai, 26th November 2025 : Orient Technologies Limited, one of India's leading IT Infrastructure and Digital Transformation service providers, announced the grand opening of its new **state-of-the-art Service Delivery Centre (SDC)** in **Turbe, Navi Mumbai**, featuring an advanced **Network Operations Centre (NOC)** and **Security Operations Centre (SOC)**.

The new Turbe centre is designed to provide **24/7 monitoring, proactive threat detection, digital forensics, and infrastructure performance management**, powered by cutting-edge automation and a high-availability architecture. It enhances Orient Technologies' ability to deliver uninterrupted, future-ready IT services to enterprises across BFSI, Pharma, Manufacturing, ITES, Government, and large enterprise sectors.

Strengthening SOC Capabilities Through Strategic Partnership with Securonix

The launch also builds on Orient Technologies' recent strategic alliance with **Securonix**, a **five-time Leader in the Gartner Magic Quadrant for SIEM** and **Customers' Choice in the 2024 Gartner Peer Insights Voice of the Customer**. The partnership brings **Unified Defense SIEM powered by Agentic AI** to Orient's SOC operations, significantly elevating threat detection, investigation, and response capabilities.

The collaboration integrates Securonix's **agentic AI, advanced analytics, and ML-driven security intelligence** with Orient's strong MSSP expertise and India-wide presence. This

combination enables organisations to stay ahead of the growing wave of **AI-powered attacks, complex malware threats, regulatory requirements**, and an increasing cybersecurity talent gap.

A Major Milestone in Orient's Growth Journey

Ajay Sawant, Chairman & Managing Director, Orient Technologies, said: *"The new Turbe Service Delivery Centre symbolizes our commitment to delivering secure, scalable, and intelligent managed services. With expanded NOC–SOC capabilities and our strategic partnership with Securonix, we are providing customers with a next-generation operations environment designed for resilience and rapid response."*

Engineering Resilience Through Next-Gen Operations

The new Turbe Service Delivery Centre offers:

- **Next-gen NOC for real-time IT infrastructure monitoring and performance management**
- **24/7 SOC with advanced threat detection, digital forensics, and incident response capabilities**
- **High-availability, redundant architecture ensuring uninterrupted service delivery**
- **Integrated ITSM, ITAM, and automation-backed operations**
- **Specialized teams for multi-vendor management, cloud operations, cybersecurity, ITeS, and end-user support**
- **A secure, scalable environment built to meet global compliance frameworks**

Strengthening Customer Confidence, Enhancing Business Continuity

With this expansion, Orient Technologies enhances its ability to serve its rapidly growing customer base while ensuring business continuity, minimal downtime, and proactive protection against emerging cyber threats.

Shrihari Bhat, Chief Executive Officer, Orient Technologies, added: *"Securonix's Unified Defense SIEM powered by Agentic AI empowers our SOC teams to detect and contain threats with unmatched precision. Together, we are delivering an advanced cybersecurity ecosystem built for the modern enterprise while strengthening customer trust and operational excellence."*

Powering the Future of Managed Services in India

The Turbe centre significantly strengthens Orient Technologies' national service footprint and supports its vision of becoming India's most reliable, future-focused technology partner across IT Infrastructure, Cloud, Cybersecurity, and Digital Transformation.

About Orient Technologies Limited

Orient Technologies Limited is a leading IT Infrastructure, Cloud, Cybersecurity, and Digital Transformation services provider with over 30 years of industry expertise.
