Metro Lines 4, 4A gearing up for trial run

Sweetie Bhagwat

MUMBAI

After the recent successful trial runs launched on Metro Lines 2B and 9, on a partial stretch, the Mumbai Metropolitan Region Development Authority (MMRDA) is now preparing to launch trial operations on a key stretch of Metro Lines 4 and 4A – paving the way for greater connectivity across the city's eastern corridor.

The buzz is building around a 10km stretch that spans 10 stations from Cadbury to Gaimukh Metro Lines 4, 4A alignment, with sources suggesting that trial runs could begin soon. These stations include Cadbury, Majiwada, Kapurbawadi, Manpada, Tikuji Ni Wadi, Dongripada, Vijay Garden, Kasarvadavli, Gownipada, and Gaimukh – each representing a vital link in a transit line that could drastically reduce travel time

for thousands of commuters.

While the Metro Line 4 and 4A designated depot is still under construction, MMRDA has devised an interim plan to ensure testing moves ahead. Inspection pits beyond the terminal station at Gaimukh to facilitate early operations.

Metro Line 4, stretching 32.3km from Wadala to Kasarvadavali, is entirely elevated and includes 30 stations. Once completed, it will

become the backbone of East Mumbai's transit system. It's designed to seamlessly connect with other critical transport arteries such as the Eastern Express Highway, the Central Railway, Mono Rail, and future Metro lines, including 2B, 5, and 6. The aim is to slash commute times by 50% to 75% – a game-changer for those currently stuck in Mumbai's gridlocked traffic.

Meanwhile, Metro Line 4A, a 2.7km extension from

Kasarvadavali to Gaimukh of Metro 4, with two stations adding further depth to the metro's reach into the Thane region.

By targeting to launch trials on Line 4 and 4A, the MMRDA is not just expanding infrastructure—it is redefining the way Mumbai moves. With every new stretch tested and readied, the dream of a faster, more connected city inches closer to reality, the source said.

In line with the state government directives, the Brihanmumbai Electric Supply and Transport (BEST) Undertaking organised an Air Raid Precaution (ARP) mock drill on Thursday at its Colaba depot –Kamal Mishra

Tenants approach SC against MHADA, developer over delay in 14-year-old redvpt project

Pranali Lotlikar

MUMBAI

Highlighting prolonged inaction and alleged violations in a 14-year-old housing redevelopment project, senior citizens and original tenants of Parvati Building, Thakurdwar, have moved the Supreme Court by filing a Special Leave Petition (SLP) against the Maharashtra Housing and Area Development Authority (MHADA) and the project developer.

The SLP challenges the Bombay High Court's order dated September 9, 2024, which disposed of a contempt petition filed in connection with writ petition (27 of 2022). The petitioners alleged willful disobedience of a previous HC directive dated August 11, 2023, which had directed MHADA to firstly appoint a new developer if necessary; and certify and disburse dues to tenants within 30 days, with a 6% annual interest on delayed payments.

The petitioners argue that MHADA's compliance was selective and incomplete. While MHADA claimed it had certified the payment dues via an order dated April 16, 2024,

PETITIONERS SAY...

Willful disobedience of old HC order directing MHADA to appoint a new developer if necessary

Certify and disburse dues to tenants within 30 days

Pay 6% annual interest on delayed payments

the certification covered only 20 out of 114 tenants. Notably, the petitioners – despite being original litigants – were excluded from this list, and their pending dues amounting to Rs22.13,459 remain unpaid.

“The exclusion of the petitioners and non-payment despite clear directions constitutes a clear breach of the court's order,” the SLP states, citing Dinesh Kumar Gupta vs United India Insurance Co (2010), a landmark case defining civil contempt prerequisites.

The developer, Parekh Construction, is under increased scrutiny. The petitioners highlighted that despite giving undertakings in

other cases and paying arrears in parallel projects, the same has not been done in their case. Further, the developer is reportedly facing an FIR and a demand notice for dues amounting to over Rs9 crore under the Maharashtra Land Revenue Code, issued by the Mumbai City Tahsildar.

“The developer has used the project to acquire land without fulfilling its redevelopment obligations,” the petitioners' advocate Nilesh Gala argued. Under the terms of the no-objection certificate (NOC), redevelopment was to be completed in 24-30 months, with tenants receiving transit rent for the duration. However, the petitioners claim they have not received any rent since November 2018, and arrears have reached over Rs22 lakh per family in some cases.

After reviewing an affidavit filed by MHADA's chief officer, who appeared personally, the SC noted that there was no solution in sight and arrears exceeded Rs10 crore. MHADA assured the court it would not issue a fresh NOC to the developer unless a satisfactory plan was submitted.

'Change old octroi nakas into mod truck terminals'

FPJ News Service

MUMBAI

Transport department of Maharashtra on Friday called a meeting and recommended the conversion of old octroi nakas – specifically Mankhurd, Mulund, and Dahisar – into integrated truck terminals equipped with parking bays, godowns, offices, garages, fuelling /EV charging stations and restrooms and food courts.

Bal Malkit Singh, advisor and former president of All India Motor Transport Congress, attended the meeting chaired by Sanjay Sethi, additional chief secretary (transport), and Vivek Bhimanwar, state transport commissioner. Representing the road transport fraternity, Singh submitted an extensive memorandum of suggestions and concerns, highlighting critical infrastructure gaps and solutions vital for the smooth functioning and sustainable future of the transport sector.

The proposal aims not only to address the long-standing issues faced by transporters but also to align with broader goals of sustainable urban development and logistics efficiency.

BEST bus fare hike leads to a noticeable dip in daily ridership

BEST officials say decline due to summer vacation; various transport experts argue that fare increase is primary cause

Kamal Mishra

MUMBAI

The recent hike in bus fares by the Brihanmumbai Electric Supply and Transport (BEST) undertaking has led to a noticeable dip in the number of daily commuters, raising concerns among citizens and transport analysts. The fare hike was implemented on May 9 by the BEST administration.

However, despite several attempts, the BEST administration has not provided the official figures for the number of passengers. Sources said that on May 9, the number of passengers was recorded at around 23.17 lakh. Similarly, on May 10, it was 19.58 lakh; 14.81 lakh on May 11; on 12 May, 19.82 lakh; and on May 13, 21.54 lakh – all lower than the average daily ridership of BEST buses recorded in April. In April, the average daily ridership was over 30 lakh.

While BEST officials attribute the decline to the ongoing summer vacation period, which traditionally

The fare hike hits frequent commuters very hard. Instead, BEST should have increased the frequency of all buses to bring some respite to the common man
Mohammed Afzal
Transport expert

sees a drop in public transport usage, transport experts argue that the fare increase is the primary cause behind the reduced ridership.

“Every year, we observe a slight dip in passenger numbers during the summer months especially in May, as schools and colleges shut for holidays,” said a senior official of BEST. “This year is no different, and we believe the pattern is consistent with past trends.”
However, transport analysts

and regular commuters are not convinced. According to several urban mobility experts, the fare hike has made daily commuting less affordable for many, particularly low-income passengers who depend heavily on public buses for work and other essential travel.

“The dip in ridership is not surprising. Aamchi Mumbai, Aamchi BEST had warned the authorities that the hike would burden the lowest-income commuters and shift many bus users to shared autos and taxis. This will lead to a drop in ridership. It will also worsen traffic congestion and lengthen commuting times, which will affect service quality. Fare hikes have been attempted before, but they did not work. Ridership on BEST between 2009 and 2019 gradually dropped with rising fares, and after public opposition, when fares were reduced, the ridership increased,” said Hussain Indurwala of Aamchi Mumbai, Aamchi BEST.
