Notes:

- 1 Net carrying value of Property, plant & equipment ("PPE") and Right-of-use assets ("ROU") as at June 30, 2024 includes ₹ 1,222.32 Crore pertaining to 1,200 MW DGEN Mega Power Project located at Dahej, Gujarat including its Transmission Line ("DGEN"). DGEN started commercial operations with effect from November 2014 and thereafter had operated only intermittently / partially including the current quarter due to various factors such as unavailability of domestic gas, high prices of imported gas and non-availability of power selling arrangement.

In view of the above and given the current economic environment, the Company had carried out an impairment assessment of DGEN as at March 31, 2024 by considering the recoverable amount based on value-in-use of DGEN in accordance with Indian Accounting Standard 36 'Impairment of Assets' and concluded that no further impairment loss is required as at March 31, 2024. The Company has reviewed the key assumptions underlying the above assessment as on June 30, 2024 and concluded that no further impairment provision is considered necessary as at June 30, 2024.

During the earlier years, the Company had provided for impairment loss of ₹ 2,300.00 Crore.

Assessment of 'value-in-use' involves several key assumptions including expected demand, future price of fuel, expected tariff rates for electricity, discount rate, exchange rate and electricity market scenario, based on past trends and the current and likely future state of the industry. Management reviews such assumptions periodically to factor updated information based on events or changes in circumstances in order to make fresh assessment of impairment, if any.

- 2 Torrent Pipavav Generation Limited ("TPGL"), a subsidiary of the Company and a joint venture between the Company and Gujarat Power Corporation Limited ("GPCL"), had made payments in nature of compensation for acquisition of private land as per the court orders in Amreli, Gujarat for the purpose of developing a coal-based power plant of 1,000+ MW. Due to non-availability of fuel linkage, Government of Gujarat ("GoG") vide its letter dated December 06, 2017, communicated that the said project may not be developed and accordingly, the joint venture is intended to be dissolved. Further, as per the said letter, the cost of land would be reimbursed after the disposal of land.

As per the Letter dated January 23, 2024 from Revenue Department, Government of Gujarat, the said land is now to be handed over to the Collector, Amreli and had determined the amount to be paid to GPCL towards the cost incurred for acquisition of aforesaid land. The Collector, Amreli issued letter dated March 28, 2024 for payment to be made towards the cost incurred for acquisition of aforesaid land to GPCL. GPCL will reimburse TPGL its share from the total amount received from Collector, Amreli. Considering the above facts, assets and liabilities are reflected at their net realisable values or cost whichever is lower and the financial results of TPGL for quarter ended June 30, 2024 have been prepared on a non-going concern basis.

Considering the above facts, Management has concluded that there is no additional impairment required as at June 30, 2024 for Carrying amount of equity and loan is of ₹ 94.05 Crore (net of impairment ₹ 18.70 Crore).

- 3 The Board of Directors of the Company at its meeting dated August 10, 2023, had approved the Scheme of Arrangement ("Scheme") for transfer and vesting of "the Renewable Power Undertaking" (comprises of 316.60 MW of solar and wind power) of the Company to Torrent Green Energy Private Limited, a wholly owned subsidiary (incorporated w.e.f. August 02, 2023) of the Company, on a going concern basis by way of slump sale with effect from the appointed date i.e. April 01, 2024 at book value, under sections 230 to 232 and other applicable provisions of the Companies Act, 2013. The Scheme had been filed with National Stock Exchange of India Limited & BSE Limited on August 28, 2023. The Company had got approval of National Stock Exchange of India & BSE Limited vide Observation Letters dated March 04, 2024. The Company had filed the Application with National Company Law Tribunal ("NCLT"), Ahmedabad Bench on March 29, 2024 for its approval. As per NCLT order dated May 15, 2024, separate Meetings of Equity Shareholders, Secured Creditors and Unsecured Creditors of Renewable Power Undertakings of the Company was held on Thursday, July 18, 2024 and in the said meetings, the scheme was approved with requisite majority. The Scheme is subject to other requisite regulatory and other approvals, pending which no adjustments are required to be made in the financial results for the quarter ended June 30, 2024.

Notes:

- 1 Net carrying value of Property, plant & equipment ("PPE") and Right-of-use assets ("ROU") as at June 30, 2024 includes ₹ 1,222.32 Crore pertaining to 1,200 MW DGEN Mega Power Project located at Dahej, Gujarat including its Transmission Line ("DGEN"). DGEN started commercial operations with effect from November 2014 and thereafter had operated only intermittently / partially including the current quarter due to various factors such as unavailability of domestic gas, high prices of imported gas and non-availability of power selling arrangement.

In view of the above and given the current economic environment, the Company had carried out an impairment assessment of DGEN as at March 31, 2024 by considering the recoverable amount based on value-in-use of DGEN in accordance with Indian Accounting Standard 36 'Impairment of Assets' and concluded that no further impairment loss is required as at March 31, 2024. The Company has reviewed the key assumptions underlying the above assessment as on June 30, 2024 and concluded that no further impairment provision is considered necessary as at June 30, 2024.

During the earlier years, the Company had provided for impairment loss of ₹ 2,300.00 Crore.

Assessment of 'value-in-use' involves several key assumptions including expected demand, future price of fuel, expected tariff rates for electricity, discount rate, exchange rate and electricity market scenario, based on past trends and the current and likely future state of the industry. Management reviews such assumptions periodically to factor updated information based on events or changes in circumstances in order to make fresh assessment of impairment, if any.

- 2 Torrent Pipavav Generation Limited ("TPGL"), a subsidiary of the Company and a joint venture between the Company and Gujarat Power Corporation Limited ("GPCL"), had made payments in nature of compensation for acquisition of private land as per the court orders in Amreli, Gujarat for the purpose of developing a coal-based power plant of 1,000+ MW. Due to non-availability of fuel linkage, Government of Gujarat ("GoG") vide its letter dated December 06, 2017, communicated that the said project may not be developed and accordingly, the joint venture is intended to be dissolved. Further, as per the said letter, the cost of land would be reimbursed after the disposal of land.

As per the Letter dated January 23, 2024 from Revenue Department, Government of Gujarat, the said land is now to be handed over to the Collector, Amreli and had determined the amount to be paid to GPCL towards the cost incurred for acquisition of aforesaid land. The Collector, Amreli issued letter dated March 28, 2024 for payment to be made towards the cost incurred for acquisition of aforesaid land to GPCL. GPCL will reimburse TPGL its share from the total amount received from Collector, Amreli. Considering the above facts, assets and liabilities are reflected at their net realisable values or cost whichever is lower and the financial results of TPGL for quarter and year ended March 31, 2024 have been prepared on a non - going concern basis.

The management has made an impairment assessment of the amount recoverable from Government of Gujarat and concluded that there is no impairment in the carrying amount of the compensation for acquisition of such land.
