Dear Sir/Madam,

Sub : Intimation of Press Release pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Pursuant to **Regulation 30** of the **SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015**, we wish to inform the Stock Exchanges that the Company, has received a Letter of Intent (LOI) aggregating to **Rs. 1,794 Million** from **BSES Rajdhani Power Limited** (“BRPL”) for design, supply, testing, installation, commissioning, operation and maintenance of BESS with an aggregate contracted capacity of 57.5 MW/115 MWh at four grid station locations of BRPL for on demand basis operation.

We are pleased to enclose herewith the Press Release dated **October 08, 2026**, providing details of the said order, including its scope, value, and strategic significance to the Company’s business operations.

We hereby request you to take note of the same.

Thanking You,

For PACE DIGITEK LIMITED

Press Release

Pace Digitek Secures 115 MWh Utility-Scale BESS Project from BSES Rajdhani Power

Fifth Major BOO/BOOT Storage Win Takes Utility-Scale BOO/BOOT Portfolio to 3.32 GWh; Total Executable Order Book Exceeds Rs.11,500 Crore

Bengaluru, 08 October 2026: Pace Digitek Limited (NSE: PACEDIGITK | BSE: 544550), an integrated Energy and Telecom infrastructure solutions provider, today announced it has received a Letter of Intent (LoI) from BSES Rajdhani Power Limited (BSES) for the development of a 57.5 MW / 115 MWh standalone Battery Energy Storage System (BESS) in Delhi.

The project will be developed under a 12-year Build, Own, Operate and Transfer (BOOT) model, with a project capital outlay of around Rs. 179.4 crore. The project is scheduled to be executed within seven months.

The award marks Pace Digitek's fifth major utility-scale BOO/BOOT storage project, further strengthening its portfolio of long-term contracted energy infrastructure assets. With the addition of the BSES project, the Company's utility-scale BOO/BOOT portfolio has increased to 3.32 GWh.

Under the long-term Battery Energy Storage Service Agreement (BESSA), Pace Digitek will receive a fixed capacity tariff of Rs. 47.05 lakh per MW per year, translating into annual contracted capacity revenue of Rs. 27.1 crore.

The BSES award adds to Pace Digitek Group's recent BESS wins, including the Rs. 488.6 crore order from NTPC GE Power Services Private Limited (NGSL) for supply of standalone BESS along with AMC and warranty services, secured in September 2026.

Strengthening an Integrated Energy Storage Platform

Pace Digitek has been progressively building capabilities across the energy storage value chain, spanning BESS manufacturing, system integration, equipment supply, EPC execution and long-term ownership and operation of storage assets.

The Company's Energy order book comprises a diversified portfolio of BOO, EPC and supply projects, with utility-scale BESS becoming an increasingly important part of the business. Since the end of Q1 FY2027, the Pace Digitek Group has secured Rs. 761 crore of additional orders across products and projects, further strengthening order visibility. The Company continues to expand its participation across BOO/BOOT, EPC and BESS supply models, supported by its manufacturing, technology, localisation and backward integration capabilities, enabling participation across the BESS value chain.

India's growing renewable energy capacity, rising peak-power requirements and increasing need for grid flexibility are driving structural demand for utility-scale energy storage. Pace Digitek intends to build on its manufacturing and execution capabilities and selectively expand its presence across this opportunity.

Commenting on the development, Mr. Venugopalrao Maddisetty, Chairman & Managing Director, Pace Digitek Limited, said: *"The BSES award is another important milestone in the development of our Energy business and marks our fifth utility-scale BOO/BOOT storage project. It reinforces the capabilities we have built across BESS manufacturing, project execution and long-term asset operations."*

Our recent wins also demonstrate the breadth of our participation across the BESS value chain from supplying storage systems and providing lifecycle services to developing and operating long-term contracted storage

assets. We believe this integrated capability provides a strong foundation to participate in the structural growth of India's energy storage market.

We remain focused on disciplined execution, scaling our manufacturing capabilities and selectively building a portfolio of contracted energy infrastructure assets, while continuing to serve the evolving requirements of India's power and renewable energy ecosystem.”

About PACE Digitek Limited

Pace Digitek Limited (NSE: PACEDIGITK | BSE: 544550) is an integrated infrastructure and energy solutions company operating across the Energy and Telecom & ICT business segments. The Company operates across the value chain, spanning Manufacturing, Engineering, Procurement & Construction (EPC) and Operations & Maintenance (O&M) activities, supporting both project execution and product supply.

In the energy segment, the Company undertakes Battery Energy Storage System (BESS) design, manufacturing, system integration and deployment. Through its subsidiary, Lineage Power Private Limited, the Company manufactures energy storage systems and related power infrastructure products.

In the Telecom & ICT segment, the Company manufactures telecom power systems and delivers EPC and O&M services for telecom infrastructure, fibre networks and digital infrastructure projects across India.
