PRESS RELEASE

Pace Digitek's Subsidiary LPPL and MEGMEET Expands Strategic Cooperation to Support AI Data Center Power Infrastructure Capabilities in India

Building on five years collaboration in telecom power solutions, the strategic cooperation expands into AI data center power infrastructure

Bengaluru, India, July 20, 2026 — Pace Digitek Limited (BSE: 544550, NSE: PACEDIGITK), through its subsidiary Lineage Power Private Limited (LPPL), has entered into a strategic cooperation agreement with MEGMEET Electrical India Private Limited. Building on a business relationship spanning over five years in telecom power solutions, the strategic cooperation expands the collaboration to support opportunities in AI data center power infrastructure while continuing to strengthen integrated power infrastructure solutions.

Under the agreement, MEGMEET will serve as a strategic supplier of AI data center power systems and related products to LPPL. The collaboration includes technical support, product upgrades, training, and lifecycle after-sales services, with product supply to be undertaken through mutually agreed purchase orders. The cooperation builds on the companies' existing telecom power relationship while extending collaboration into AI data center power infrastructure.

The partnership builds on LPPL's established Battery Energy Storage System (BESS) manufacturing and system integration capabilities by adding AI data center power systems to its portfolio. Together, these capabilities broaden Pace Digitek's integrated energy infrastructure offering by combining power management, energy storage and system integration expertise for AI data center applications.

The growth of AI computing, hyperscale data centers and digital infrastructure is driving demand for reliable and energy-efficient power infrastructure. Pace Digitek is positioned to address these evolving requirements by leveraging its manufacturing, engineering and execution strengths together with MEGMEET's advanced AI data center power systems.

The collaboration reflects Pace Digitek's strategy to strengthen its technology and product portfolio through a combination of in-house capabilities and strategic partnerships. It builds on the Company's existing manufacturing platform, engineering capabilities, project execution expertise and customer relationships.

Executive Commentary

Mr. Venugopal Rao Maddisetty, Chairman & Managing Director, Pace Digitek Limited, said: *"AI data centers represent a significant growth opportunity within the digital infrastructure ecosystem and our existing BESS manufacturing & system integration capabilities provide a strong foundation for participating in this evolving market. Building on our long-standing relationship with MEGMEET in telecom power solutions, this strategic cooperation extends our collaboration into AI data center power infrastructure. By combining our manufacturing & system integration capabilities with MEGMEET's AI data center power systems, we aim to strengthen our technology portfolio and deliver integrated power infrastructure solutions that address evolving customer requirements."*

Mr. Sam Hong, Sales Executive, MEGMEET Electrical India Private Limited, said: *"We are pleased to enter this strategic cooperation with Pace Digitek and Lineage Power as India's AI and digital infrastructure market continues to expand. By combining MEGMEET's advanced power electronics and system-level AIDC power supply solutions with Lineage Power's manufacturing, system integration, and execution capabilities, we aim to support reliable, efficient, and scalable power infrastructure for next-generation data centers in India."*

About Pace Digitek Limited

Pace Digitek Limited (BSE: 544550, NSE: PACEDIGITK) is an integrated infrastructure and energy solutions company in India, operating across two business segments: Energy and Telecom & ICT. The Company operates across the value chain, spanning manufacturing, engineering, procurement and construction (EPC), and operations and maintenance (O&M), enabling both project execution and product supply.

In the energy segment, the Company undertakes Battery Energy Storage System (BESS) design, manufacturing, product supply, integration, and deployment. Through its subsidiary, Lineage Power Private Limited, the Company manufactures and supplies BESS, telecom power systems, and related energy infrastructure products, supporting both integrated project execution and standalone product supply.

In the telecom segment, the Company undertakes manufacturing of telecom power systems and provides EPC services and O&M for telecom infrastructure and network deployments across multiple circles in India.

About MEGMEET Electrical India Private Limited

MEGMEET Electrical India Private Limited is part of MEGMEET, leading industrial technology group built on power electronics with global operations committed to providing one-stop solutions covering R&D, manufacturing, sales, and services of electrical automation hardware and software for leading customers across various industries worldwide. With global R&D, manufacturing, and operational capabilities across India, Thailand, China, Germany and other countries and regions, MEGMEET delivers advanced power supply solutions to support the future of AI, industrial, and e-mobility markets.
