L&T Wins Offshore Orders (Major*) from ONGC

Mumbai, August 07, 2026: L&T Energy Hydrocarbon Offshore (LTEH Offshore) has secured a batch of orders from the Oil & Natural Gas Corporation (ONGC) for the Pipeline Replacement Project (PRP-X) and Well Head Platforms Project off India's west coast.

PRP-X involves engineering, procurement, construction, installation and commissioning (EPCIC) of multiple subsea pipeline segments, along with associated modification works across ONGC's offshore fields. The Well Head Platforms Project involves EPCIC of four Well Head Platforms.

LTEH Offshore is a leading provider of integrated EPCIC solutions for the offshore oil and gas industry. Supported by robust in-house engineering capabilities, world-class fabrication facilities and a dedicated fleet of marine vessels, it has successfully delivered complex shallow-water and deep-water developments across global markets.

Over the past four decades, the business has executed a wide range of offshore projects, including fixed platforms, subsea pipelines and structures, brownfield upgrades, as well as decommissioning assignments.

Commenting on the order win, **Mr Parthasarathi Chatterjee, Senior Vice President & Head - L&T Energy Hydrocarbon Offshore**, said: “These orders reaffirm LTEH Offshore's position as a trusted partner in the development of India's offshore energy infrastructure. They reflect the confidence customers place in our integrated EPCIC capabilities, extensive project execution experience and unwavering commitment to safety and operational excellence. We look forward to delivering these projects to ONGC and contributing to the nation's energy aspirations”.
