L&T Wins Orders (Significant*) for Power Transmission & Distribution Business

Mumbai, May 13, 2026: The Power Transmission & Distribution (PT&D) business vertical of L&T has secured a batch of EPC orders from prestigious clients in the Middle East for setting up extra-high voltage substations.

The orders pertain to constructing one 380 kV substation and two 132 kV substations. These high-capacity substations will ensure availability of reliable power to large load centres and decongest grids, thereby enabling them to meet the growing demands.

The orders have been awarded to PT&D on turnkey basis and are to be delivered against stringent timelines.

The Power Transmission & Distribution (PT&D) business vertical is a major EPC player, providing technology-driven, end-to-end solutions for enabling access to clean and reliable electricity. It offers integrated EPC services and related digital energy solutions, spanning from the establishment of smart and efficient transmission and distribution (T&D) networks to last-mile electrification. The business serves utilities, renewable energy developers, and industrial and infrastructure customers across 30 countries in the SAARC, ASEAN, Middle East, Africa, North America and CIS regions.

Background

Larsen & Toubro is a USD 32 billion Indian multinational engaged in EPC Projects, Hi-Tech Manufacturing, Products and Services, operating across diverse domains and multiple geographies. With a strong impetus towards AI & technology, customer-focussed approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.

*Order Classification

Classification	Significant	Large	Major	Mega	Ultra-Mega
Value in ₹ Cr	1,000 to 2,500	2,500 to 5,000	5,000 to 10,000	10,000 to 15,000	> 15,000
