L&T Hydrocarbon Consortium Wins another EPCI Order from Saudi Aramco

Mumbai, January 15, 2019: L&T Hydrocarbon Engineering ("LTHE"), a wholly-owned subsidiary of Larsen & Toubro, in consortium with Subsea 7 has won yet another award for two projects from Saudi Aramco.

The award consists of engineering, procurement, construction and installation (EPCI) of three Oil Production Deck Manifolds and Subsea Pipelines in Zuluf and Berri Fields of Saudi Aramco.

This is the fifth award for the consortium and provides for significant project pipeline for the firms. At present, there are four offshore contracts under execution by the consortium for Saudi Aramco under the Long-Term Agreement.

LTHE has three fabrication yards and this project will be built at its flagship facility at Hazira in Gujarat, India, established to "design and build" offshore oil & gas projects.

Through excellent execution performance on the ongoing projects, LTHE has established a strong track record in the Middle East.

Over the past three decades, LTHE has served the offshore oil & gas industry with consistent delivery that brings Oil Majors and National Oil Companies to place repeat orders on LTHE for challenging projects.

Background:

Larsen & Toubro is an Indian multinational engaged in technology, engineering, construction, manufacturing and financial services with over USD 18 billion in revenue. It operates in over 30 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.
