Commenting on the results, Mr. Amit Rambhia, Chairman & Managing Director, Panache Digilife Limited said*:*

"We are pleased to begin FY27 on a strong note, with the Company delivering robust growth across key financial parameters. Total Income for Q1 FY27 stood at ₹5,154 lakhs, registering a strong year-on-year growth of 73.1%. This performance underscores the strength of our execution and the continued traction across our business and our increasing capabilities in design-led and contract-led manufacturing.

During the quarter, EBITDA increased by 173.8% YoY to ₹591 lakhs, while the EBITDA margin expanded by 421 basis points to 11.5%, compared with 7.2% in Q1 FY26. This improvement reflects better operating leverage, an evolving product mix and increasing contribution from value-added manufacturing and design-led engagements.

Profitability witnessed a substantial improvement during the quarter. Profit After Tax stood at ₹381 lakhs, registering a growth of 338.5% year-on-year, while PAT margin expanded by 447 bps to 7.4% from 2.9% in Q1 FY26.

We remain confident about the long-term opportunity in India's Electronic System Design and Manufacturing (ESDM) ecosystem. The structural shift towards domestic electronics manufacturing, increasing localisation, government-led initiatives and the growing adoption of emerging technologies such as AI, IoT, networking and smart devices are creating significant opportunities for Indian ODM and EMS players. Panache is well positioned to participate in this opportunity through its integrated capabilities spanning across product design, engineering, prototyping, manufacturing, quality assurance and lifecycle support.

As we progress through FY27, we remain focused on strengthening our design and engineering capabilities, expanding our customer and product portfolio, and increasing our participation in high-growth segments. Our investments in capabilities and strategic partnerships are aimed at enabling us to address increasingly complex and technology-intensive requirements while enhancing the value we deliver to our customers.

We believe that our strong execution capabilities, expanding addressable market and focus on higher-value opportunities provide a solid foundation for sustainable growth. We remain committed to scaling the business responsibly, improving operating efficiencies and creating long-term value for all our stakeholders."
