Independent Auditor's Review Report on the Quarterly and Year to Date Unaudited Standalone Financial Results of the Company Pursuant to the Regulation 33 and 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

**Review Report to
The Board of Directors
PCBL Chemical Limited**

1. We have reviewed the accompanying statement of unaudited standalone financial results of PCBL Chemical Limited (the "Company") for the quarter ended December 31, 2025 and year to date from April 1, 2025 to December 31, 2025 (the "Statement") attached herewith, being submitted by the Company pursuant to the requirements of Regulation 33 and 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations").
2. The Company's Management is responsible for the preparation of the Statement in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, (Ind AS 34) "Interim Financial Reporting" prescribed under Section 133 of the Companies Act, 2013 as amended, read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 and 52 of the Listing Regulations. The Statement has been approved by the Company's Board of Directors. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standards ('Ind AS') specified under Section 133 of the Companies Act, 2013 as amended, read with relevant rules issued thereunder and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Formula for computation of above ratios are as follows:

Debt Equity Ratio= Non Current Borrowings + Current Borrowings / Total Equity

Debt Service Coverage Ratio= Net profit after tax+ Depreciation and amortisation expense + (Finance costs excluding interest on lease liabilities+net gain on foreign currency transaction+Gain & Loss on disposal of property, plant and equipment) / Debt Service (Interest+ Principal Loan repayment).

Interest Service Coverage Ratio = (Profit Before Tax +Finance costs excluding interest on lease liabilities+net gain on foreign currency transaction)/(Finance costs excluding interest on lease liabilities+net gain on foreign currency transaction)

Net worth = Equity Share Capital excluding money received against share warrant + Securities Premium + General Reserve + Retained Earnings.

Current Ratio = Total Current Assets / Total Current Liabilities

Long term Debt to Working Capital = Non current borrowings including current maturities of long-term debts/ (Current Assets- Current Liabilities excluding current maturities of long term debts)

Bad Debt to Accounts Receivable Ratio = Bad Debt (including allowance for doubtful debts / expected credit loss) / Trade Receivables

Current Liability Ratio= Total Current Liabilities / Total Liabilities

Total Debts to Total Assets= (Non Current Borrowings+ Current Borrowings) / Total Assets

Debtors Turnover Ratio Days = Sales(Sales of Finished Goods and Traded Goods including GST+Sale of Power) / Trade Receivables*.

*The Company's turnover is highly sensitive to the changes in crude prices which may fluctuate widely between quarters. The Company, therefore, believes that the Debtors turnover days computed on the basis of simple average of the turnover days for each of the four quarters of the year will be more appropriate and reflective of company's operations. The turnover days for each quarter is derived by dividing the quarter-end outstanding debtors balance with sales for the respective quarter.

Inventory Turnover= Sales(Sales of Finished Goods and Traded Goods without GST+Sale of Power)/ *Inventories(Raw Materials + Finished Goods + Stores and spares parts (including packing material)).

Operating Margin (%)= Operating Profit (Profit Before Tax +Depreciation and amortisation expenses+Finance Costs+Payment of Lease Liability+Net gain on foreign currency transaction+Loss/ (Profit) on disposal of property, plant and equipment -Other Income) / Revenue from Operations.

Net Profit Margin(%) = Net Profit (Profit after Tax) / Net Sales (Sales of Finished Goods and Traded Goods without GST+Sale of Power)

This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. (8.54) crores and Rs. 14.90 crores, for the quarter ended December 31, 2025 and the period ended on that date respectively, as considered in the Statement which have been reviewed by their respective independent auditors.

The independent auditor's reports on interim financial results of these entities have been furnished to us by the Management and our conclusion on the Statement, in so far as it relates to the amounts and disclosures in respect of these subsidiaries is based solely on the report of such auditors and procedures performed by us as stated in paragraph 3 above.

Certain of these subsidiaries are located outside India whose financial results and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial results of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have reviewed these conversion adjustments made by the Holding Company's management. Our conclusion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and reviewed by us.

Debt:Equity Ratio= Non Current Borrowings + Current Borrowings / Total Equity

Debt Service Coverage Ratio= Net profit after tax+ Depreciation and amortisation expense + (Finance costs excluding interest on lease liabilities+net gain on foreign currency transaction+Gain & Loss on disposal of property, plant and equipment) / Debt Service (Interest+ Principal Loan repayment).

Interest Service Coverage Ratio = (Profit Before Tax +Finance costs excluding interest on lease liabilities+net gain on foreign currency transaction)/(Finance costs excluding interest on lease liabilities+net gain on foreign currency transaction)

Net worth = Equity Share Capital excluding money received against share warrant + Securities Premium + General Reserve + Retained Earnings.

Bad Debt to Accounts Receivable Ratio = Bad Debt (including allowance for doubtful debts / expected credit loss) / Trade Receivables

*The Company's turnover is highly sensitive to the changes in crude prices which may fluctuate widely between quarters. The Company, therefore, believes that the Debtors turnover days computed on the basis of simple average of the turnover days for each of the four quarters of the year will be more appropriate and reflective of company's operations. The turnover days for each quarter is derived by dividing the quarter-end outstanding debtors balance with sales for the respective quarter.

Inventory Turnover= Sales(Sales of Finished Goods and Traded Goods without GST+Sale of Power)/ *Inventories(Raw Materials + Finished Goods + Stores and spares parts (including packing material)).

Operating Margin(%)= Operating Profit (Profit Before Tax +Depreciation and amortisation expenses+Finance Costs+Payment of Lease Liability+Net gain on foreign currency transaction+Loss/ (Profit) on disposal of property, plant and equipment -Other Income) / Revenue from Operations.
