# World Bank's view that India must join RCEP flawed: GTRI

FE BUREAU  
New Delhi, September 4

**THE WORLD BANK'S** suggestion that India should re-consider joining Regional Comprehensive Economic Partnership (RCEP) for potential boosts in trade, investment and growth is a flawed one, according to trade policy think tank Global Trade Research Initiative (GTRI).

It is because other members of the grouping have seen their trade deficits with China zoom after the agreement became operational, it said.

The World Bank made the suggestion in its latest India Development Update released on Tuesday.

The report's assumption that India would gain significantly from joining RCEP, based on the study by Petri and Plummer (2020), is flawed. The study projected income gains of \$60 billion by 2030 but neglected to highlight a crucial detail: the majority of these hypothetical gains would come from a rise in imports rather than exports, GTRI said.

The study acknowledged only modest gains in services, but failed to mention any gains to goods exports or

address the significant imbalances India could face in goods trade, especially against China. The report did not talk about the concerning increase in trade deficit of most RCEP members with China.

According to the analysis by GTRI, ASEAN's trade deficit with China has jumped from \$135.6 billion in 2023 from \$81.7 billion in 2020. Also, the trade deficit of major ASEAN countries Singapore, Thailand, Vietnam, Philippines has steadily increased.

Japan's trade deficit with China has increased to \$41.3 billion in 2023 from \$22.5 billion in 2020. South Korea may face a trade deficit for the first time with China this year.

"This pattern suggests RCEP gains to China over others will

increase as full concessions take place and the economic benefits of RCEP are disproportionately skewed towards China, further validating India's apprehensions about unfair competition," it said.

"The rising trade deficits among RCEP members and the over-reliance on China-centric supply chains underscore the importance of a cautious, well-researched approach."

India's non-participation in RCEP proved insightful when the COVID-19 pandemic exposed the vulnerabilities of over-reliance on China-centric supply chains. The global shift toward "China Plus One" strategies highlights the risk of depending heavily on a single country for critical supply chains. By staying out of RCEP, India positioned itself to diversify its trade partners and reduce the risk of over-dependence on China.

The RCEP members are 10 ASEAN member states: Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, the Philippines, Singapore, Thailand, and Vietnam and their six trading partners China, Japan, South Korea, Australia, and New Zealand. It came into force in 2022.

## Credit scheme mooted for climate-smart agriculture

SANDIP DAS  
New Delhi, September 4

**TO BOOST FLOW** to the farmers adopting climate smart agriculture (CSA), a paper has suggested several steps, including creation of a dedicated credit guarantee scheme, refinancing of intermediaries and creation of a professional pool for classification of farm assets.

Apart from the current limited climate finance flows, disproportionate sectoral flows of current climate finance also present another problem, according to a paper on increasing climate smart agriculture financing in the country.

At present, energy and transport, the two largest emitting sectors, have attracted 44% of the total climate finance from private financing while sectors like agriculture and industry, the next two largest emitters, have obtained less than 4% of the total climate financing.

In terms of long term recommendation for boosting private investment in climate smart agriculture and addressing the financing gaps in climate mitigation and adaptation technologies, the study has stated raising green bond finance over overseas markets and pilot blended finance structures for early and high potential technology adoption.

## Cable TV firms oppose pvt channels on Prasar Bharati OTT

JATIN GROVER  
New Delhi, September 4

**CABLE TV OPERATORS**, including Siti, Hathway, Den, and GTPL, have urged the ministry of information and broadcasting (I&B) to restrict Prasar Bharati on onboarding private TV channels on its forthcoming OTT platform.

In a letter dated September 2 to I&B secretary Sanjay Jaju, the cable TV operators, through All India Digital Cable Federation (AIDCF), urged the ministry to direct Prasar Bharati to withdraw its notice inviting application from broadcasters to offer their linear TV channels for the former's OTT platform.

A copy of the letter was seen by FE. The issue assumes significance as cable TV operators and direct-to-home (DTH) operators are already seeing subscriber

losses from Prasar Bharati's DD Free Dish, and the growth of OTTs. They said that adding TV channels to Prasar Bharati's OTT platform would further impact their market share.

Secondly, cable TV operators say that by using broadcasters' TV channels, Prasar Bharati is leading to a violation of the downlinking guidelines prescribed by the I&B ministry.

As per the guidelines, broadcasters can only provide satellite TV channel signal reception decoders to MSO (multi-system operators), HITS (headend-in-the-sky) operators, IPTV (Internet Protocol television), and DTH operators.

Signal reception decoders are devices that receive and decode radio-frequency signals from satellites, converting them into video and audio signals for display on a television or other devices.

"These guidelines are crucial for maintaining the integrity of broadcasting standards and ensuring that content distributed across various platforms is in line with the policies set by the ministry," Manoj Chhangani, secretary general of AIDCF, said in the letter.

According to Chhangani, non-compliance with downlinking guidelines by Prasar Bharati and the broadcasters happens to be in violation of the established regulations. A section of industry executives said that since Prasar Bharati is governed by the Prasar Bharati Act and is outside the purview of Trai regulations and the Cable TV Amendment Act, broadcast-

ers can provide their satellite TV channels on Prasar Bharati's OTT platform.

AIDCF, however, countered the argument, saying that it is a misconstrued logic used to circumvent the downlinking guidelines by the I&B ministry.

Besides, the action on Prasar Bharati, Cable TV operators also urged the ministry to issue a clear directive stating that OTT platforms are not permitted to broadcast any linear satellite TV channels or any linear content by stitching together linear programmes.
