'CUSTOMS DUTY CUTS TO BOOST MANUFACTURING'

ACROSS THE BOARD, GLOBAL UNCERTAINTY HAS BEEN KEPT IN MIND

DRASTIC
CHANGES IN
FISCAL DEFICIT DO
NOT GO DOWN
WELL AS ONE OR
THE OTHER
SECTOR GETS
HURT. WE WILL
HAVE TO BE
GRADUAL

MUKESH JAGOTA

AFTER THE PRESENTATION OF the Union Budget for 2026-27, Finance Minister Nirmala Sitharaman addressed a press conference along with the secretaries of all six departments in the ministry. They said the securities transaction tax (STT) has been hiked to curb speculative trade by retail investors. The customs duty cuts will boost local manufacturing, and the government has a plan to manage the high gross market borrowing. A national monetisation pipeline is being finalised, which will bring substantial gains in the next financial year.

The reasons for increasing STT on trading of futures and options (F&O) contracts. The primary objective of raising the

STT is that it is felt that if you look at the volume of transactions in F&O, whether you compare with the size of the GDP or the size of the underlying securities market, it is largely in the realm of speculation, which results in losses to small and unsophisticated investors. The government intends to discourage speculative tendencies. The increase in rate essentially is in this direction.

What will be the impact of customs duty cuts? Can it lead to dumping?

There is a logic for these cuts. There is a need to bring these items to India, and existing customs duties add a cost. Cuts on most of these items are meant to enhance manufacturing or value addition, or to help the cause of exporters who are bringing these items and using them to make goods for exports.

Rationale behind changes in taxation on buyback of shares?

It is a relief, not an additional tax. The buyback proceeds will be taxed in the hands of minority shareholders as capital gains tax at 12.5% for long-term gains. The promoters will pay additional buyback tax. The whole objective of making that change was the misuse of tax arbitrage by the promoter.

The fiscal deficit for the next financial year has been estimated at 4.3% from 4.4% in FY26, which is gradual...

Drastic changes in fiscal deficit do not go down well as one or the other sector gets hurt. We will have to be gradual, but keep it well within the band, which gives confidence and shows that we care for prudent fiscal management. There is no point in bringing it down to 4% immediately. It is a responsible and realistic number.

Is the gross market borrowing for the next year on the higher side?

We do not think it is on the higher side because the net borrowing is in the range of ₹11.73 lakh crore, which is around the numbers for the last couple of years. We have a larger gross borrowing number because we have ₹5.5

lakh crore of loans that have to be repaid this year. We have a plan to manage this.

Is a 15% increase in defence budget linked to global uncertainty?

Across that board, we have kept the global uncertainty in mind. Uncertainty globally is impacting many areas, and we are seized of it in everything that we do, not just in one areas is particular.

The Budget has increased estimates of miscellaneous capital receipts to ₹80,000 crore from the revised estimates of ₹37,000 crore. What are the sources of these receipts?

The intent is that we will have a very strong asset monetisation plan in place. The last Budget announced a national monetisation pipeline of ₹10 lakh crore. The pipeline is being prepared, and we hope to reap dividends from it this year.

Will high-level committee on banking for Viksit Bharat also look at mergers of state-run banks to create bigger banks?

The high-level committee is going to look into it. The terms of reference (ToR) of the committee will be prepared. We are looking for the committee to go into the entire expanse of the banking sector so that they come up with recommendations that help us to plan for banking for 2047. By the time we become Viksit Bharat, we need to understand what other steps we need to take in the banking area, and based on those recommendations, we will move forward. There are a large number of aspects related to banking requirements and expansion of the banking network and procedures that are impeding deposits as well as credit. All these aspects will be looked at by the committee.

On mandating trade settlement and discounting system (TReDS) as settlement platform for all purchases from central public sector enterprises (CPSEs).

All discounted and non-discounted bills by CPSEs have to be settled on TReDS so that MSMEs (micro, small, and medium enterprises) can get their payments for their supplies within 45 days. This is possible by CPSEs, and it has been tested. We want CPSEs to be pioneers, and corporates will also follow.

and that the money meant for people has been left "unused".

THE BUDGET CONTAINS THE THINKING OF THE YOUTH, THE DREAMS OF THE YOUTH, THE RESOLVE OF THE YOUTH, AND ALSO THE SPEED OF THE YOUTH

corridor, he said. The Budget also paid special attention to the development of Tier-2 and Tier-3 cities. Referring to Finance Minister Nirmala Sitharaman calling it "a Youth Power Budget", Modi said, "The Budget contains the thinking of the youth, the dreams of the youth, the resolve of the youth, and also the speed of the youth." Its provisions will create leaders, innovators, and creators in different sectors, he added.

'Reform Express' to get new energy, speed: PM

FE BUREAU

PRIME MINISTER NARENDRA Modi said on Sunday that the Budget for 2026-27 "realises the vision of trust-based governance and human-centric economy", and will infuse new energy and speed into "the Reform Express that India is riding today".

This is such a unique Budget in which there is a focus on reducing the fiscal deficit and controlling inflation, and along with this, there is a coordination of high capex and high growth, he said. Hailing the Budget as "ambitious" and "futuristic", Modi said it addresses the aspirations of the country, and ensures the welfare of villages, the poor, and farmers.

"In this Budget, an ambitious road map has been presented for Make in India and the Atmanirbhar Bharat Abhiyan to gain new momentum," he said. The support to micro, small and medium enterprises (MSMEs) as well as small and cottage industries will give them new strength to become local to global. This Budget re-empowers India's global role. The 1.4 billion citizens of India are not satisfied just by becoming the fastest-growing economy. "We want to become the world's third-largest economy as soon as possible... India's role as a 'trusted democratic partner' and 'trusted quality supplier' of the world is continuously increasing," Modi said.

It has taken many big steps to strengthen infrastructure — dedicated freight corridor, expansion of waterways, and high-speed rail

Budget blind to India's real crises, says Rahul

FE BUREAU

LEADER OF OPPOSITION Rahul Gandhi said on Sunday that the Union Budget for 2026-27 was "blind to India's real crises" such as unemployment, farm distress and falling manufacturing.

"Youth without jobs. Falling manufacturing. Investors pulling out capital. Household savings plummeting. Farmers in distress. Looming global shocks -- all ignored," Gandhi said a post on X, adding, "A Budget that refuses course correction, blind to India's real crises." His Congress party said the government "neglected" social sectors such as education and healthcare

and that the money meant for people has been left "unused".

Congress President Mallikarjun Kharge said the Narendra Modi government has run out of ideas. The Budget "does not provide a single solution to India's many economic, social, and political challenges." "Mission Mode" is now "Challenge Route." "Reform Express" rarely stops at any "Reform Junction." Net result: NO policy vision, NO political will," he said. Flagging what was "missing" in the Budget for sectors such as manufacturing and job creation, Kharge said, "This Budget offers no solutions, NOT even slogans to hide the absence of policy!"
