DGCA to Audit Charter Operators

New Delhi: The Directorate General of Civil Aviation (DGCA) has ordered a safety audit of non-scheduled flight operators in the country. Honda Warns of Slowdown in EV Growth

Honda Motor added to a chorus of global automakers warning of the costly fallout from slowing demand for electric vehicles, as well as persistent pressures from US President Donald Trump's tariffs.

The Japanese carmaker said one-time EV-related expenses, including losses and impairments on vehicles sold in the US and write-offs of development assets, cost it ₹267.1 billion in the nine months ended Dec. 31. On top of that, it saw a ₹279.5 billion hit from US import duties.

The carmaker faces a litany of challenges that "make it necessary to fundamentally reassess our strategy and rebuild our competitiveness," it said Tuesday. Headwinds include slowing EV growth, protectionist trade policies, heightened supply chain risks and intensifying global competition, it said.

Major automakers are warning of an EV winter as major markets like the US roll back supportive policies, leaving the industry struggling to pivot their lineups to gas-electric hybrid models that are increasingly popular with consumers.

Stellantis this month said it's taking more than €22 billion (\$26 billion) in charges mainly linked to reversing course in its EV strategy and Ford has announced \$19.5 billion in charges from its overhaul.—Bloomberg
