Press Release – For Immediate Release

Premier Energies Secures New Orders Worth ₹ 4,001 Crore in Q2 FY 2027

Hyderabad, 9 October 2026

Premier Energies Limited (NSE: PREMIERENE, BSE: 544238) has received orders aggregating to ₹4,001 crores in the July–September quarter. These orders, coming from a mix of major power producers, module manufacturers, EPC companies and other customers, are for a mix of solar cell and module supplies (total 2,308 MW) and EPC project execution. The orders exclude orders received from the retail market segment.

The strong order inflow supports the company's growth as it continues to expand its manufacturing capabilities – total module manufacturing capacity has nearly doubled recently to 11.1 GW, while the solar cell manufacturing capacity has increased from 3.6 GW to 10.6 GW following the commissioning of a 7 GW TOPCon solar cell manufacturing facility last month at Naidupeta, Andhra Pradesh.

Commenting on the development, Mr. Chiranjeev Saluja, Managing Director, Premier Energies, said: “Our growing order book is a strong validation of our growth strategy and execution ability. The Indian solar market is extremely demanding with customers looking for scale, bankability and latest technology. As India's largest integrated solar manufacturer, we are ready to serve needs of customers across market segments.”

About Premier Energies Limited

Premier Energies Limited is a publicly listed company and one of India's leading integrated solar manufacturers. With more than 30 years of solar manufacturing expertise, the company is known for its focus on technology innovation, sustainability and an employee-centric culture.

Premier Energies manufactures high-efficiency solar cells and modules as well as a full range of power transformers. It is now setting up 10 GW ingot-wafer manufacturing capacity for backward integration and 12 GWh battery container manufacturing capacity for diversifying its product portfolio.
