Dear Sir/Ma'am,

This is in reference to the queries raised by you regarding the Integrated Results of Premier Energies Limited submitted to the Exchange on 17th May 2025.

Please find below our response to the discrepancies and deficiencies observed:

a) XBRL filled in incorrect modules:

Response: There was an inadvertent error in selecting the appropriate module during the XBRL filing process in compliance with the given timelines.

b) Mismatch in P&L figures of XBRL and PDF (Consolidated):

Response: The primary difference stems from a classification issue in the XBRL filing. While the XBRL taxonomy provides a distinct line item for "Share of Profit from Associates," this amount was inadvertently reported under "Other Income." For reference, the share of profit from associates is ₹1.28 million for Q4 and ₹7.16 million for the full year FY 2024–25.

Additionally, minor discrepancies of ₹0.01 million each in "Purchases of Stock-in-Trade" and "Depreciation and Amortisation Expenses" are attributable to rounding differences in the XBRL form. These small variances collectively result in a net difference of ₹0.02 million in the reported net profit.

We confirm that these differences arise from this presentation approach and rounding adjustments and do not affect the overall accuracy of the financial statements

We trust the above clarifies the matter. Please let us know in case any further information or clarification is required.

Thanking you, Yours faithfully,

For Premier Energies Limited

Ravella Sreenivasa Rao Company Secretary and Compliance Officer
