Dear Sir/Madam,

Sub: Intimation of Change in the Logo of the Company

We are proud to announce the launch of our new logo as a part of the ongoing evolution of the brand. The new logo depicts a combination of innovation and precision thus reflecting the company's core values and also its vision for future growth. The logo is a contemporary rendition of the original Pennar Group logo.

Drawing inspiration from a leaf, the negative space in 'P' in the logo tending towards a single upward point denotes precision and also has a deeper sub-connotation: the vein of a leaf that distributes water and nutrients to every part of the leaf - both the leaf and the vein are not mutually exclusive - one can't function without the other. This is representative of the people at Pennar Industries and its mission to be the pioneer in Precision Engineering. The single-point perspective represents all verticals under a unified Pennar Industries brand moving toward a common vision & objective, hence, progressing together.

This is for your kind information and record.

Thanking you,

Yours faithfully,

for Pennar Industries Limited
