Pennar Engineered Building Systems Limited

Won Prestigious Award from INSDAG in National Competition for Professionals on Structural Steel Design & Construction 2012-13

Pennar Engineered Building Systems Limited (PEBS Pennar), a subsidiary of Pennar Industries Limited, announces with pleasure that it has ***won a Prestigious Award from INSDAG in National Competition for Professionals on Structural Steel Design & Construction 2012-13***

INSDAG (Institute for Steel Development and Growth) is **jointly promoted by Ministry of Steel and Steel Producers in India.**

PEBS Pennar has been chosen by an eminent jury consisting of Professors from IIT Roorkee and IIT Madras for this award for the large span building (99 feet) designed and executed by Pennar for Ultratech Cements, Kotputli, Rajasthan. PEBS Pennar is the first PEB company in India to design and construct the largest clear span building in India.

The award was received by **Mr. PV Rao, MD, PEBS Pennar** from **Mr Sajjan Jindal, Chairman and Managing Director of JSW Steel and President of INSDAG** at Mumbai on 9th December.

Commenting on this occasion, **Mr. P.V. Rao, MD** told, **"**We are extremely happy to receive this prestigious award from INSDAG which proves our superior capabilities of our team in designing and constructing the largest PEB clear span structure in India".

The **Vice Chairman, Mr. Aditya Rao** said "INSDAG award validates our faith in our talented team and in our design and execution capabilities. We are thankful to the jury for this recognition and I am confident that in the future years, we will win further accolades".
