NOTES

1. **AGM through VC or OAVM:** In accordance with the provisions of the Companies Act, 2013 read with the **General Circular No. 14/2020 dated April 8, 2020, General Circular No. 17/2020 dated April 13, 2020 and General Circular No. 20/2020 dated May 5, 2020, and subsequent circulars issued in this regard,** issued by the Ministry of Corporate Affairs ("MCA"), and **General Circular No. 03/2025 dated September 22, 2025**, whereby the MCA has permitted companies to continue to hold Annual General Meetings ("AGMs") and Extraordinary General Meetings ("EGMs") through Video Conferencing ("VC") or Other Audio Visual Means ("OAVM") until further orders, without the physical presence of Members at a common venue, and in accordance with the **Circulars** (as amended from time to time) issued by the Securities and Exchange Board of India ("SEBI") read with the applicable provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations"), the **27th Annual General Meeting ("AGM")** of the Company is being convened through VC/OAVM. The aforesaid MCA Circulars and SEBI Circulars, inter alia, permit the dispatch of the Notice of the AGM and the Annual Report only by electronic mode to those Members whose e-mail addresses are registered with the Company/Registrar and Share Transfer Agent/Depositories and dispense with the requirement of physical attendance of Members and appointment of proxies at such AGM. Accordingly, Members can attend and participate in the AGM only through VC/OAVM.

In compliance with the provisions of the Companies Act, 2013 ("the Act"), SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations") and MCA Circulars and SEBI Circulars, the 27th Annual General Meeting ("Meeting" or "AGM") of the Company is being held through VC/OAVM on **Wednesday, September 30, 2026 at 11:30 A.M. (IST)**.

The proceedings of AGM deemed to be conducted at the Registered Office of the Company situated at NBCC Plaza, Tower-II, 4th Floor, Pushp Vihar, Sector-V, Saket, New Delhi-110017.

The detailed procedure for participation in the meeting through VC/OAVM is as per note no. 19 and available at the Company's website www.pncinfratech.com.

2. **Explanatory Statement:** The Explanatory Statement pursuant to Section 102 of the Companies Act, 2013, setting out the material facts concerning item no. 5 to 13 to be transacted at the Meeting is annexed hereto and forms part of the Notice.
3. **Instruction for Members regarding Proxy(s):** Pursuant to the provisions of the Companies Act, 2013, a Member entitled to attend and vote at the Annual General Meeting is entitled to appoint a proxy to attend and vote on his/her behalf and the proxy need not be a Member of the Company. Since this AGM is being held pursuant to the MCA Circulars through VC/OAVM, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by the Members will not be available for the Annual General Meeting and hence the Proxy Form, Attendance Slip and Route Map are not annexed to the Notice.

Notice (Contd.)

- 4. Dispatch of Annual Report through Electronic Mode & Participation in AGM:** In compliance with aforesaid MCA Circulars and SEBI circular, Notice of the Annual General Meeting along with the Annual Report for the financial year 2025-26 is being sent by electronic mode to those Members whose email addresses are registered with the Company/Depositories and also a letter providing the web link including the exact path, where complete details of the Annual Report is available is being sent to those shareholders who have not registered their e-mail address. Members may note that the Notice of Annual General Meeting and Annual Report for the financial year 2025-26 will also be available on the Company's website www.pncinfotech.com; websites of the Stock Exchanges i.e. National Stock Exchange of India Ltd and BSE Limited at www.nseindia.com and www.bseindia.com respectively. Members can attend and participate in the Annual General Meeting through VC/OAVM facility only.
- 5. Instruction for Authorized Representative:** Institutional/Corporate Shareholders (i.e. other than individuals/HUF, NRI, etc.) are required to send a scanned copy (PDF/JPEG Format) of its Board Resolution or governing body Resolution/Authorisation etc., authorising its representative to attend the Annual General Meeting through VC/OAVM on its behalf and to vote through remote e-voting. The said Resolution/Authorization shall be sent to the Scrutinizer by email through their registered email address to deepak@drassociates.org with copies marked to the Company at complianceofficer@pncinfotech.com and to its RTA at enotices@in.mpms.mufig.com.
- 6. Quorum:** Members attending the meeting through VC/OAVM shall be counted for the purposes of reckoning the quorum under Section 103 of the Companies Act, 2013.
- 7. Registrar & Share Transfer Agents and Depository Participant:**

Members holding Shares in electronic mode are requested to send the intimation for change of address, bank details, ECS mandate, nomination, power of attorney, change in name/ address etc. to their respective Depository Participants, any such changes effected by the Depository Participants will automatically reflect in the Company's subsequent records.
- 8. Nomination Facility:** In respect of shares held in electronic / demat form, the Members may please contact their respective depository participant.
- 9. BROADENING PERSPECTIVES. UNLOCKING NEW POTENTIAL.

India's infrastructure requirements and equally opportunities are widening. Roads and Highways sector remains as one of the core and central sectors to the country's infrastructure development and economic growth. PNC Infratech will continue to pursue more business prospects in this sector.

With sustained Government focus across other core infrastructure sectors including high-growth areas like railways, metro rail, water-resource initiatives like Jal Jeevan Mission 2.0, power transmission, renewable energy and battery storage etc., provide robust long-term opportunities for financially credible developers and construction companies like PNC Infratech Limited.

While the Company has actively been involved for the past four years in the water resources development space including irrigation and drinking water supply projects, in FY 2025-26 it has entered into coal mining and renewable energy with integrated battery storage segments; each of these draws on proven capabilities, core competencies, and financial

discipline the Company already holds, having consistently nurtured them over the past three decades.

In FY 2025-26, the Company divested twelve fund-based road assets, utilizing the proceeds to significantly strengthen its balance sheet and reduce overall leverage to pursue accretive growth opportunities going forward.

Broadening Perspectives -

Unlocking New Potential reflects the Company's current approach as it has widened the range of sectors it operates in, diligently looking for new avenues for sustainable growth while harnessing its execution strength, enhanced investment capabilities gained through capital recycling and financial prudence.

LEVERAGING STRENGTH. WIDENING THE PLATFORM.

FY 2025-26 was the year PNC Infratech turned operational road assets into re-deployable capital. The divestment of 12 road assets strengthened the balance sheet, while entry into coal mining and into solar power with battery storage opened growth avenues beyond highways. Execution discipline held through a slower awarding year, leaving the Company with a broader base to build from.

BUILDING ACROSS SECTORS. DELIVERING AT SCALE.

PNC Infratech Limited ('PNC Infratech', 'PNC Infra', 'PNC' or 'The Company') is an integrated infrastructure investment, development, construction and management company. Over more than 25 years of incorporation, it has built roads and highways, water supply, canals and irrigation systems, railways, airport infrastructure, industrial areas and power transmission networks, and has recently entered renewable energy and coal mining. The Company operated across 16 states and holds road assets on PPP modes through their operating life, post construction.

The Company delivers complex infrastructure projects across India through in-house design and engineering, its own construction teams, project management expertise and an equipment base of over ₹1,450 Cr. That execution strength is what allows it to enter new infrastructure segments without loosening its hold on the core businesses.

- > Received Letters of Award for seven HAM projects with a combined value exceeding ₹8,400 Cr
- > Achieved provisional completion and Commercial Operation Date (COD) for multiple HAM and EPC projects
- > Entered the Asia Book of Records for the longest continuous bituminous mix laying operation completed in 100 hours on the Delhi-Vadodara Expressway

2024

Delivering at Scale

- > Received PCOD for three HAM projects and completion certificates for two EPC projects
- > Secured one EPC and one HAM projects worth over ₹18,000 million
- > Executed the Master Securities Purchase Agreement for the divestment of 11 HAM assets and one toll road asset

2025

Strengthening Value Creation

- > Received ₹515.75 Cr under the Settlement Agreement with NHAI against the arbitration awards published in favour of the Company
- > Earned an early completion bonus of ₹56.39 Cr for the MSRDC (Nagpur Mumbai Expressway Package 4) project
- > Secured two EPC road projects from MSRDC, and strengthened its presence in Maharashtra
- > Achieved PCODs for four HAM projects namely Hardoi Bypass, Kanpur Lucknow Expressway Package 2, Mathura 1B and Mathura 1C HAM Projects

2026

Broadening Perspectives and Strengthening Foundations

- > Completed the divestment of 12 road assets to Vertis Infrastructure Trust
- > Expanded into coal mining and renewable energy, the latter through solar power and integrated battery storage
- > Achieved PCOD for Prayagraj-Kaushambi (Package 3) and Kanpur Lucknow Package 1
- > Established PNC Renewable Energy Private Limited to scale its renewable energy portfolio
- > Closed the year with an order book exceeding ₹18,000 Cr

Presence

EXPANDING GEOGRAPHIES. DEEPENING EXECUTION REACH.

PNC Infratech operates across 11 states, from Delhi and Haryana in the north to Andhra Pradesh and Karnataka in the south, eastward through Bihar and westward through Gujarat. That spread has taken the Company from a base concentrated in Uttar Pradesh and the surrounding region to a national platform capable of executing in varied terrain, climates and client environments.

Clients

EARNING TRUST. SUSTAINING LONG-TERM PARTNERSHIPS.

PNC Infratech works almost entirely for the public sector, with the National Highways Authority of India, the Airports Authority of India, state road development corporations and central public sector enterprises among its major clients. Several have awarded the Company repeat contracts across more than two decades, which is the clearest measure of the consistency and reliability Company brings to large-scale execution.

Business Segments

BROADENING SEGMENTS. EXTENDING PROVEN CAPABILITIES.

PNC Infratech operates across seven infrastructure segments, from road EPC and airport pavements to water supply, railways, industrial areas development and operation and coal mining, and it holds road assets under BOT, HAM and Conventional Annuity concessions as well as constructing them. Construction carries the bulk of revenue, while the concession portfolio adds toll and annuity income that continues long after a project is delivered.

Chairman & Managing Director's Message

REALIZING VALUE. REDEFINING HORIZONS.

In FY 2025-26, we strategically unlocked capital from select operational assets to fund our next phase of calibrated diversification and expansion.

Pradeep Kumar Jain

Chairman and Managing Director

DEAR STAKEHOLDERS,

I am honored to present Annual Report for FY 2025-26 for our Company, a year marked by transformative developments particularly in terms of strategic divestment and calibrated diversification.

While our Company's core strength remains rooted in project execution, from concept to commissioning with demonstrated competency in execution of roads, highways, bridges, flyovers and airport pavements. Over the years, our Company has steadily entered into other sectors like industrial area development, power transmission, irrigation and drinking water supply and successfully delivered nearly 100 major projects across sectors and geographies.

With proven capabilities and deep expertise in construction, the Company expanded into the development space nearly two decades ago in 2007. It began investing in public-private partnership (PPP) projects across a variety of delivery formats including Build-Operate-Transfer (BOT)-Toll, BOT-Annuity, and Hybrid Annuity Mode (HAM), focusing primarily on the highway sector.

As part of the strategy for calibrated diversification, in FY 2025-26, the Company successfully entered the coal mining and solar power with battery energy storage sectors. These new sectors create new avenues for growth while leveraging the deep operational capabilities we have developed over more than three decades.

In FY 2025-26, our Company undertook a key transformative move and achieved a defining milestone and executed through successful divestment of twelve operational, fund-based highway assets. This portfolio comprised 11 HAM national highway projects and 1 BOT-Toll state highway project. The capital unlocked from these monetized assets substantially strengthened our balance sheet through deleveraging while equipping the Company with enhanced financial agility to pursue a higher volume of larger-scale opportunities in the fund-based segment.

Macro-Economic Scenario

India's economic momentum remains exceptionally strong, demonstrating remarkable resilience amid mounting geopolitical tensions and headwinds. Despite intensifying rivalries among major powers, ongoing conflicts in Ukraine and the Middle East, trade disputes, and sanctions-driven supply chain disruptions, the nation continues to navigate global volatility effectively. Even as climate change and resource scarcity compound these pressures, India has achieved impressive GDP growth, underscoring its underlying macroeconomic stability.

The Union Budget for FY 2027 underscores the Government's commitment to accelerating infrastructure growth, allocating approximately ₹2.9 trillion to the roads and highway sector, an 8% year-on-year increase as the roads and highways sector continues to be one of the focused infrastructure sectors.

Industry Landscape

The roads and highways sector experienced a subdued awarding environment during FY 2025-26 also, with project awards by the National Highways Authority of India (NHAI) remaining below the annual target. NHAI awarded 3,124 km of projects, a shortfall of more than 30%, against the annual target of 4,500 km. Delays in land acquisition and project approvals also held back the commencement of several projects. The persistent slowdown in project awarding, combined with delays in declaring appointed dates for already awarded contracts, adversely impacted project execution schedules and overall operational revenues throughout the year under review. Navigating these challenging dynamics reinforced the importance of maintaining strict execution discipline while simultaneously developing new avenues for long-term and sustainable growth.

India's fundamental infrastructure landscape remains exceptionally robust, driven by sustained central and state initiatives and investments across transport, water, energy,

and urban development. Beyond highways, emerging PPP and HAM-led frameworks in railways promise new synergies for experienced developers. A planned ₹6.0 lakh Cr capital expenditure in power transmission over the next five financial years will facilitate power evacuation toward targeted non-fossil capacities of 500 GW by 2030 and 900 GW by FY36, catalysing vast opportunities in transmission, energy storage, and renewable infrastructure. Concurrently, major momentum in railways, airport development, and water projects, evidenced by the Jal Jeevan Mission reaching 82% rural tap coverage by July 2026 underscores a multi-sector expansion phase. Supported by this robust, long-term project pipeline, well-capitalized companies possessing proven execution expertise, financial credibility, and cross-sector agility like our Company are uniquely positioned to capture this next wave of national growth.

Standalone Performance and Strategic Milestones

Against this backdrop, our standalone performance reflected the acute constraints faced by the Company in project commencement. Standalone revenue for FY 2025-26 stood at ₹4,633 Cr, down from the previous year largely due to delay in receiving appointed dates. Standalone EBITDA was ₹583 Cr with an EBITDA margin of 12.58%. Standalone PAT for FY26 was ₹344 Cr with a PAT margin of 7.43%. Lower execution volumes weighed on EBITDA and profitability to certain extent, and our response was to hold cost discipline and strengthen the platform for the next phase of growth.

The Company received ₹235 Cr under the Vivad Se Vishwas III scheme in settlement of the Agra Bypass arbitration matter with NHAI. Together, these developments strengthened our liquidity and financial flexibility, giving us greater capacity to pursue opportunities while maintaining the financial discipline that has always been central to our approach.

Our established capabilities in project planning, engineering, raw material sourcing, equipment deployment and construction continue to support the delivery of complex projects across geographies.

Operational Excellence and Execution Prowess

While our Company broadens its business landscape, efficient and timely execution will remain at the centre of our strategy. Our established capabilities in project planning, engineering, raw material sourcing, equipment deployment and construction continue to support the delivery of complex projects across geographies. During the year, we achieved PCOD for the Mathura 1B and Prayagraj-Kaushambi Package 3 HAM projects, alongside other execution milestones.

Our order book provides a strong base for the next phase of growth, while our integrated resources, including our equipment fleet and access to key construction materials, support timely mobilization and execution. The Company's unexecuted order book stands at over ₹18,000 Cr as on March 31, 2026. We will continue to strengthen the order book as the scale and diversity of our project portfolio increase.

Strategy for the Future: FY 2026-27 and Beyond

Building on FY 2025-26, our strategy rests on three priorities, which are consolidation, calibrated sectoral diversification and international expansion. Together they will convert our project pipeline, financial strength and execution capabilities into consistent performance and sustained growth.

First, our Company will consolidate its existing platform by converting our project pipeline into revenue through timely execution, supported by the commencement of projects by securing appointed dates expeditiously as we are targeting revenue growth of around 30% in FY 2026-27 and 25% in FY 2027-28.

Second, the Company will continue to pursue calibrated diversification into new segments where we find synergies. With stronger financial position following capital recycling, the Company will evaluate larger fund-based opportunities while holding to prudent capital allocation and risk management.

Third, our Company has begun evaluating opportunities outside India. Our initial bids in Uzbekistan mark an initial step in this direction. We will explore international opportunities selectively and diligently, with the same emphasis on execution capability, commercial viability and financial discipline that guides our domestic operations.

Closing Thoughts

FY 2025-26 has fortified the foundation for our Company's next growth phase, driven by the strategic recycling of capital from operational assets and targeted entry into new infrastructure sectors, all while maintaining an uncompromising focus on timely, efficient execution. Our clear imperative now is to translate this strong foundation into long-term, sustainable growth.

While the opportunities ahead are vast, PNC Infra will approach them with the same prudence and diligence that have always guided our journey. Moving forward, we remain steadfast in our commitment to timely execution, disciplined capital allocation, and proactive risk management, while continuously enhancing our capabilities to generate enduring value for all stakeholders and collaborators.

I would like to express my sincere appreciation to our employees and workers across all project sites and offices for their relentless commitment and hard work. My gratitude extends to our Board of Directors for their invaluable guidance, as well as to our clients, partners, vendors, and other stakeholders for their continued trust.

Above all, I extend my heartfelt thanks to our shareholders for their confidence in our Company and for walking alongside us as we redefine our horizons and prepare for our next phase of growth. Your unflinching faith in our ability to deliver sustainable expansion while safeguarding your trust remains our greatest inspiration at every step of our journey.

With best regards,

Pradeep Kumar Jain

Business Model

ONE INTEGRATED MODEL. GREATER EXECUTION CONTROL.

PNC Infratech owns the inputs that most contractors rent or buy. It designs and engineers in house, quarries its own aggregate, runs an equipment fleet of over ₹1,450 Cr and builds with its own construction teams rather than subcontracting the critical work. That ownership is what holds costs and schedules where the Company sets them, across projects in eleven states.

The Company has built this capability at each stage of project delivery, from the drawing board through the site till commissioning. In case of fund based projects through operation and maintenance till vesting back the assets.

In-House Planning, Design and Engineering

PNC converts project requirements into detailed execution plans in house, which keep technical decisions, design optimization and project timelines under its own control rather than a consultant's.

Own Quarries and Raw Material Sourcing

PNC owns or leases quarries at key project locations, securing a steady supply of aggregate and other raw materials. That independence is what keeps a project on budget when material prices move and supply tightens.

Equipment Bank

The Company operates a machinery and equipment base of over ₹1,450 Cr, allowing it to mobilize critical resources between projects at short notice. This in-house capacity reduces reliance on external equipment providers and supports execution across project locations and project types alike.

Financial and Resource Strength

A strong credit profile, established banking relationships, and a sizeable asset base give the Company the financial capacity to mobilize resources and take on projects at scale.

In-House Construction

The Company builds its own construction teams, which keep execution quality, resource deployment and project schedules under direct control. This reduces dependence on external contractors for critical activities and supports consistent delivery across project sites.

Growth Strategies

BROADENING GROWTH. STRENGTHENING EXECUTION.

PNC Infratech is widening its base without losing the discipline and reliability that built it. The Company is developing capability in mining, bidding selectively in the established road and water businesses, and recycling capital out of eligible operational assets into new investment projects that can carry growth over the longer term. Five strategies set out below take that approach into practice.

Diversification

To broaden its base for the longer term, the Company will:

- ▶ Draw on established execution capabilities and core competencies to expand selectively into new infrastructure segments with long-term growth potential
- ▶ Build capabilities in renewable energy, battery storage and coal mining, while expanding its presence in water, railways, power transmission and other infrastructure segments
- ▶ Evaluate international opportunities selectively, building on its project execution experience

Strong Relationships

To extend its capabilities through collaboration, the Company will:

- ▶ Build strategic partnerships where complementary capabilities, resources and expertise strengthen project winning and execution
- ▶ Use project-specific joint ventures and partnerships to leverage credentials and access specialized capabilities and pursue opportunities in new segments
- ▶ Maintain long-standing relationships with government agencies, clients, banks, business partners and other stakeholders that support sustainable business growth

Challakere-Hiriyur

Focused Approach

To strengthen its core competencies while expanding its business and operational horizons, the Company aims to:

- ▶ Maintain EPC as a core growth engine, supported by established technical, engineering and execution capabilities
- ▶ Selectively pursue HAM, BOT-Toll and other fund based opportunities where the Company can leverage its financial position in terms of investible funds
- ▶ Prioritize projects based on execution visibility, commercial viability and risk-adjusted returns

Competitiveness

To reinforce its competitive position, the Company will:

- ▶ Invest in modern equipment, technology and skilled talent to strengthen execution efficiency and competitiveness
- ▶ Harness in-house engineering, construction capabilities, equipment and access to key resources to further improve project delivery
- ▶ Continue strengthening operational capabilities as the scale and diversity of the project portfolio increase

Capital Recycling

To release capital from mature road assets and redeploy it, the Company will:

- ▶ Monetize eligible operational road assets to release capital and strengthen financial position
- ▶ Redeploy capital towards new infrastructure opportunities while maintaining prudent leverage and disciplined capital allocation
- ▶ Balance asset ownership with execution-led opportunities to optimize capital deployment

Board of Directors

GUIDING VISION. DRIVING PROGRESS.

PNC Infratech's Board is composed of ten directors, five of them independent, drawn from infrastructure execution, banking, public administration and corporate governance. Five have led the Company's projects and operations directly, while the independent directors bring the outside perspective of the RBI-regulated banking sector, the Indian Administrative Service and the corporate secretarial profession to the Board's oversight of strategy and growth.

MANAGEMENT DISCUSSION AND ANALYSIS

Company Overview

Incorporated in 1999, PNC Infratech Limited has been a key contributor to India's infrastructure development, with a strong focus on roads and highways. The Company provides end-to-end infrastructure execution capabilities, essentially offering Engineering, Procurement, and Construction (EPC) services under Design-Build turnkey contracts. It also undertakes projects through various public-private partnership (PPP) models, including on Design-Build-Finance-Operate-Transfer (DBFOT), Annuity & Hybrid Annuity Mode (HAM) and Operate-Maintain-Transfer (OMT) formats. PNC Infratech is among the few players in the sector with established expertise spanning investment, project development, construction and long-term asset management.

Leading Infrastructure Player Driven by Integrated In-House Competencies

The Company has built a strong reputation through the successful execution of a diverse project portfolio, including bridges, flyovers, airport pavements, roads, highways, expressways, industrial area development, and rural drinking water supply systems.

Backed by strong technical expertise and financial strength, the Company is well-positioned to independently undertake large-scale EPC projects. Its commitment to infrastructure development is reflected in its investments over the past five years, including significant deployment of capital in the highway sector through a mix of equity and debt.

With a substantial gross block and an extensive fleet of construction equipment, PNC Infratech has the capacity to execute large-scale projects annually, demonstrating significant operational scalability. The Company also drives cost efficiency through the ownership and leasing of quarries, ensuring a reliable and uninterrupted supply of key raw materials such as stone aggregates.

Further strengthening its execution capabilities is a highly skilled workforce, spanning design, planning, engineering, construction, operation, maintenance, traffic, environmental engineering, viability assessment, and project development and management. These teams are supported by strong functions in accounts, taxation, finance, procurement, human resources, stores, safety and security and administration, enabling the consistent and efficient delivery of high-quality infrastructure solutions.

Expanding Sectoral Boundaries Through Focused Diversification

With over two decades of technical and operational expertise, the Company is well-positioned to sustain its growth trajectory through robust risk mitigation and working capital optimization strategies. Its strategic roadmap emphasizes measured expansion into high-potential sectors such as railways, water supply and irrigation and coal mining.

While roads and highways remain the core focus, the Company is actively diversifying its project portfolio to maintain growth momentum and reduce segment concentration. The goal is to achieve a balanced mix where highways contribute approximately 60% and other sectors the remaining 40%. In recent years, this diversification has already taken shape through strategic foraying into mining, railways, metro rail, water infrastructure, transmission lines, and renewable energy with active participation in bids floated by authorities in these sectors. Notably, the Company won a Coal Mining project and a Solar Energy cum Battery Energy Storage System (BESS) project, further broadening its footprint.

Water infrastructure is expected to be a significant near-to-medium-term growth driver, with increasing participation in government-led initiatives such as the Jal Jeevan Mission, Water Resource Development (Irrigation etc.) likely to enhance the order book substantially. Concurrently, efforts are underway to deepen the Company's presence in railway infrastructure.

Today, PNC Infra's operations span a comprehensive range of infrastructure development, including BOT-Toll, HAM and conventional Annuity road projects, irrigation and water supply systems, industrial area development, and airport runway construction, and management/maintenance of completed projects reflecting a well-diversified and strategically expanding portfolio.

→ Ganga Bridge, Prayagraj

Cluster-Based Regional Focus with a Pan-India Footprint

The Company is headquartered in North India and has built an exceptional execution track record in the region, which continues to command a substantial share of its order book. While maintaining strong regional expertise, it has successfully expanded its pan-Indian footprint across multiple states, including Delhi-NCR, Uttarakhand, Karnataka, Maharashtra, Andhra Pradesh, Bihar, Uttar Pradesh, Haryana, Madhya Pradesh, Gujarat, and Chhattisgarh.

To date, the Company has executed over 100 major infrastructure projects across 16 states. These span a diverse mix with 74 road EPC projects, 23 airport runway works, 1 railway track construction, 2 power transmission projects, 1 industrial area redevelopment, and 1 water supply project.

On the asset-ownership front, PNC Infratech is currently managing 1 project under BOT-Toll, 2 under BOT-Annuity, and Fourteen HAM projects. 14 HAM projects are having an aggregate bid project cost of over ₹17,000 Cr

As of March 31, 2026, 5 HAM projects have achieved PCOD/COD, 6 are under construction, 1 project has achieved financial closure, and for 2 projects in which Company has signed Concession Agreements with NHAI. In addition, the Company entered two new segments during FY 2025-26 viz. coal mining and a Solar Power cum BESS transmission project further diversifying its portfolio.

Uttar Pradesh has emerged as one of India's fastest-growing states in both urban and rural infrastructure, and PNC Infratech is strategically placed to capitalize on this accelerated development agenda. Its long-standing presence, deep understanding of the regional landscape, and cluster-based project execution model enable efficient resource allocation, stronger operational

synergies, and stable margins. This focused regional strategy allows the Company to remain cost-competitive while sustaining profitability. As a dominant participant in recent project awards across North India particularly in Uttar Pradesh, PNC is well-positioned for sustainable growth and value creation in the years ahead.

Established Pre-Qualification Credentials and Enduring Government Client Relationships

With an operational legacy spanning over two decades, PNC Infratech has built deep domain expertise through sustained collaboration with both central and state government agencies. The Company has long-standing partnerships with key infrastructure authorities, including the National Highways Authority of India (NHAI), the Ministry of Road Transport and Highways (MoRTH), the Airports Authority of India, Military Engineering Services, various State Roads Development Authorities, South-Eastern Coalfields, National Hydroelectric Power Corporation and Public Works Departments.

During FY 2025-26, PNC Infratech continued to demonstrate its execution resilience by strategically managing multiple projects across diverse geographies, effectively mitigating risks while optimizing working capital management. The Company's consistent track record and proven delivery capabilities have firmly established its pre-qualification credentials for large-scale infrastructure projects. Notably, PNC Infratech possesses the financial and technical strength to independently bid for projects valued up to ₹10,000 Cr underscoring its ability to pursue large-size mandates without relying on consortium partnerships.

This effective combination of proven experience, healthy financials, trusted government relationships, and independent bidding capacity reinforces PNC Infratech's standing as a formidable player in India's evolving infrastructure landscape.

Focused Financial Strategy Backed by a Growing Order Book

PNC Infratech's financial strategy is rooted in prudent cost control, balanced value offering, and a progressively stronger balance sheet creating a solid foundation to capture emerging growth opportunities in fund-based projects.

The Company's financial standing remains robust, with a standalone debt-to-equity ratio of 0.13x as of FY 2025-26, and consolidated ratio of 0.76x. To fund future HAM projects, the focus remains on internal accruals and the calibrated monetization of operational assets, ensuring growth is achieved without over leveraging the balance sheet.

This financial discipline is further supported by a healthy order book position, with the unexecuted order book standing over ₹18,000 Cr as of March 31, 2026.

Asset Monetization

In January 2024, the Company entered into definitive agreements with Vertis Infrastructure Trust (formerly Highways Infrastructure Trust), an Infrastructure Investment Trust (InvIT) sponsored by affiliates of KKR & Co. Inc. to divest 12 road assets comprising 11 National Highway HAM assets and 1 State Highway BOT Toll asset, spanning an aggregate length of approximately 3,800 lane-km.

The transaction was structured in two tranches. Under Tranche I, completed in May 2025, the Company, along with its Wholly Owned Subsidiary PNC Infra Holdings Limited, divested 10 HAM assets for an equity consideration of ₹1,827.6 Cr, subject to adjustments for certain descoped works. Additionally, around ₹200 Cr of other receivables since realized/to be realized over time from the respective SPVs, in accordance with the terms of the agreements.

Subsequently, in July/August 2025, the Company and PNC Infra Holdings Limited completed the divestment

of their entire stake in the 11th asset BOT-Toll, PNC Bareilly Nainital Highways Private Limited, for an equity consideration of ₹153 Cr. The total equity investment across these 11 assets stood at ₹1,446 Cr.

In March 2026, the Company completed the sale of its remaining asset (HAM), PNC Challakere (Karnataka) Highways Private Limited. The transaction was concluded at an enterprise value of ₹683.84 Cr, including ₹80.48 Cr received towards equity and ₹134.94 Cr towards unsecured loans on March 27, 2026.

The successful completion of this transaction marks a key milestone in the Company's asset monetization journey, enabling it to unlock value from its operational portfolio, strengthen its balance sheet, and enhance financial flexibility to pursue future growth opportunities.

Financial overview

PNC is one of the few companies in the infrastructure and construction space in India which has posted consistent operating cash flow/free cash flow (OCF/FCF) post-interest expense over FY 2013-14 to FY 2025-26. The Company has negligible net interest expense as a percentage of EBITDA, thus having significant distributable cash flow. It has avoided unrelated diversification as well as aggressive growth campaigns.

The Standalone Revenue for FY26 stood at ₹4,633 Cr.

The EBITDA for FY 2025-26 is ₹583 Cr and the Profit After Tax for FY 2025-26 is Rs. ₹344 Cr.

The Company's Net Worth as on March 31, 2026, on a Standalone basis is ₹5,811 Cr, whereas the total debt is ₹741 Cr. The Company has a net cash surplus of ₹327 Cr. The debt-to-equity ratio for FY 2025-26 is 0.13x.

The current ratio, which indicates the Company's ability to pay short-term obligations, has remained strong at 2.68x for FY 2025-26, as compared to 2.36x for FY 2024-25.

Risks and Mitigation Mechanism

Competition Risk

The Company faces competition from a wide range of local, national, and international players across its operating segments, with intensity varying by geography and project type. Competitive pressures remained elevated in FY 2025-26, driven by multiple government initiatives being smaller in size, including relaxed bidding norms. This heightened competition may result in aggressive bidding, potentially exerting pressure on contract pricing and operating margins.

Mitigation

Backed by over three decades of experience in construction and engineering, the Company has built a strong execution track record. It strategically focuses on large-sized projects (even over ₹5,000 Cr value), where competitive intensity is relatively lower. Supported by a robust balance sheet and deep domain expertise, the Company delivers integrated solutions spanning design, engineering, planning, and execution. This enables efficient delivery of complex projects with an emphasis on safety, timeliness, and cost optimization. Additionally, PNC aims to accelerate project completion timelines to benefit from early completion incentives, where applicable.

Geographical Concentration Risk

The Company's operations are largely concentrated in North India, with a significant exposure to Uttar Pradesh. Such geographic concentration exposes it to region-specific regulatory and political risks, which could impact project execution and overall business performance.

Mitigation

To mitigate this risk, the Company is proactively diversifying its presence across geographies and sectors. It is expanding into new states while also venturing into emerging segments such as irrigation, railways, metros, transmission lines, and renewable energy. With a proven track record of successful engagements with multiple state governments, the Company is well-placed to scale its operations in new regions. Additionally, it optimizes the use of its extensive construction equipment fleet by deploying resources efficiently across nearby project sites, enhancing operational flexibility and execution efficiency.

Cyber Risk

With increasing digitalisation of operations, exposure to cyber threats such as ransomware, phishing, and other malicious activities has risen significantly across industries. As IT systems play a critical role in project execution and the deployment of technology-driven solutions, any disruption could adversely affect operational efficiency and business continuity.

Mitigation

While the Company has not encountered any cyber incidents so far, it adopts a proactive and vigilant approach to cybersecurity. It has implemented comprehensive safeguards and systems to strengthen its cyber resilience and continuously monitors evolving threat landscapes. This ongoing assessment helps ensure robust protection of its digital infrastructure and minimizes potential vulnerabilities.

Inflation Risk

The macroeconomic environment and infrastructure sector have been facing sustained inflationary pressures, primarily driven by rising input costs. Critical materials such as structural steel, cement, bitumen, fuel, concrete, metal plates, cables, and other electrical and mechanical components have witnessed notable price increases, which may adversely impact the Company's cost structure and margins.

Mitigation

The Company follows a proactive and structured approach to manage input cost volatility, which is critical for efficient project execution. It retains control over key cost components through ownership of strategic assets and long-term procurement arrangements, including its own stone aggregate mines and crushers, which are major contributors to optimize overall project costs.

Additionally, the Company sources essential raw materials such as cement, steel and bitumen from established manufacturers with whom it has long-standing relationships, ensuring reliability in quality, timely availability, and competitive pricing.

To further mitigate the impact of cost fluctuations, the Company incorporates price-escalation clauses in contracts with government clients. These provisions enable adjustments linked to changes in input costs, thereby helping protect margins throughout the project lifecycle.

Liquidity/Cash Flow Risk

The risk that the Company may be unable to meet its short-term and long-term financial obligations due to potential mismatches in cash flows.

Mitigation

The Company maintains a strong financial position with adequate liquidity buffers to service its debt obligations. It follows a disciplined approach to budgeting and closely tracks project-level cash flows, costs, and funding requirements. In addition, it actively monitors both micro and macroeconomic trends, enabling timely and informed financial decision-making.

Commodity Price Volatility Risk

Volatility in the prices of key construction inputs, particularly bitumen, fuel, steel and other petroleum-based materials, may increase project costs and create pressure on project margins. Global geopolitical developments and fluctuations in crude oil prices may further amplify input-cost volatility, potentially impacting cost management and execution profitability.

Mitigation

The Company leverages contractual price-escalation mechanisms to provide protection against fluctuations in key input costs. For applicable HAM/EPC projects, any price escalation received by the SPV is passed through to the EPC contractor on a back-to-back basis, thereby limiting the Company's exposure to commodity price inflation. In addition, the Company closely monitors input prices and procurement requirements to facilitate timely sourcing and support effective project cost management.

Human Resource Management

PNC Infratech places strong emphasis on continuous skill development and capability enhancement across its teams. The senior management is largely homegrown, bringing deep, grassroots-level expertise in engineering, procurement, project management, and execution. The Company also fosters a culture of accountability by supporting its employees through both motivational initiatives and performance-linked incentives.

Internal Control Systems

The Company has established robust internal control systems aligned with the scale and complexity of its operations. These systems ensure that assets are procured efficiently, safeguarded against unauthorized use or loss, and that all transactions are duly authorized, accurately recorded, and properly reported. The internal audit function strengthens these controls through well-defined policies, procedures, and periodic reviews. Audits are conducted across functions as per an annual audit plan, with findings regularly reported to management and the Audit Committee. The effectiveness of internal controls is further validated through inputs from statutory and ISO auditors. Additionally, project sites are secured through advanced CCTV surveillance, and operations are supported by an integrated SAP ERP system, enabling continuous monitoring and improvement by management.

Cautionary Statement

The Company has included forward-looking statements and information in this Annual Report to help investors understand its growth potential and make informed investment decisions. This Report, as well as other written and oral comments made by the Company on a regular basis, contains forward-looking statements that outline expected outcomes based on management's plans and assumptions. Forward-looking statements are predictions of future events based on certain assumptions. Risks, uncertainties and assumptions all play a role in achieving such outcomes. The quality, reliability and completeness of market data and information acquired from numerous published and unpublished reports and sources cannot be guaranteed. PNC Infratech does not undertake to make any announcements or amend any developments or forward-looking statements made by or on behalf of the Company if any of the economic scenarios, industry developments or forward-looking statements become materially inaccurate in the future.

vi. other laws as are specifically applicable to the Company.

I have also examined compliance with the applicable clauses of Secretarial Standards issued by The Institute of Company Secretaries of India i.e. SS-1 on Board Meeting and SS-2 on General Meeting.

During the period under review, the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I have not examined compliance by the company with applicable financial laws, like direct and indirect tax laws, since the same have been subject to review by the statutory auditors and other designated professionals.

During the period under review, I have checked the compliance management system of the Company to obtain reasonable assurance about the adequacy of systems in place to ensure compliance of specifically applicable laws and this verification was done on test basis. I believe that the Audit evidence which I have obtained is sufficient and

appropriate to provide a basis for my audit opinion. In my opinion and to the best of the information and according to explanations given to me, I believe that the compliance management system of the Company is adequate to ensure compliance of laws, rules, regulations and guidelines etc specifically applicable to the Company.

I further report that:

1. The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Director, Woman Director and Independent Director. Further, there are no changes in the composition of the Board of Directors.
2. Adequate notices are given to all directors to schedule the Board Meeting, for the Board Meetings and accordingly, agenda and detailed notes on agenda are sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.
3. Majority decisions are carried through while the dissenting members' views, if any, are captured and recorded as part of the minutes.

I further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, Rules, Regulations and Guidelines.

I further report that during the audit period, the Company had the following event which had a bearing on the Company's affairs in pursuance of the above-referred laws, rules, regulations, guidelines, standards etc.

26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

Sr. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1.	Climate change	R	The pressing issue of climate change has underscored the necessity to enhance the resilience of urban regions. Many infrastructures and public areas weren't planned to cope with the environmental challenges we currently face, including severe weather conditions, air pollution, energy deficits, and water scarcity. Tackling climate change demands the expansion of innovative solutions in areas such as energy, efficiency, material use, and beyond. Government policies are catalyzing a shift towards eco-friendly construction. The climate action agenda presents commercial opportunities that empower us to aid in climate change adaptation and reduction. Potential alterations brought on by climate change, such as regulatory modifications, shifts in consumer preferences, and other substantial changes in the Company's operational context, could also significantly affect the business and poses a risk.	As an organization, we recognize the imperative to address carbon emissions as a risk. We are committed to adopting proactive measures, including investing in clean technologies, optimizing energy efficiency, and promoting sustainable practices. By taking decisive action, we aim to mitigate our carbon footprint and contribute to a greener, low-carbon future.	Negative
2.	Circularity, including materials and resources efficiency	R	The Company is in construction business and the disruption in operations could have the risk of creating an adverse economic impact. The link between circular flows and climate emissions is clear, and	The Company may adopt measures that promote circular practices, such as utilizing recycled materials, implementing efficient waste management, and prioritizing	Negative

			increasing circular material flows could help reduce climate impact. Circularity and resource efficiency are linked to operational efficiency and reduced environmental impact	resource conservation. By embracing circularity, we aim to minimize environmental impact and contribute to a sustainable construction industry	
3.	Occupational health and safety	R	The Group is engaged in executing potentially hazardous projects that necessitate ongoing supervision and administration of health and safety risks. Neglecting to handle these risks could lead to serious consequences, such as causing fatal or life-altering injuries to our employees, subcontractors, external individuals, or the general public. Additionally, it could expose us to the possibility of legal action, substantial penalties, disqualification from tender participation, and damage to our reputation.	We have implemented comprehensive risk mitigation measures to ensure occupational health and safety. These include regular safety training programs, strict adherence to safety protocols, regular inspections. We prioritize the use of personal protective equipment (PPE), conduct risk assessments, and promote a culture of proactive reporting and continuous improvement.	Negative
4.	Corporate Governance and Business Ethics	R	Failure to adhere to the Code of Ethics may result from a lack of adherence to a risk compliance approach; an absence of a suitable corporate culture; a deficient training program and compliance monitoring; lack of a robust testing and monitoring regime; inadequate whistleblowing procedures and a lack of awareness about these channels across the organization; or deliberate or negligent noncompliance. Non-compliance with the Code of Ethics can leave the Group vulnerable to incidents of bribery and corruption, fraud, deception, false declarations or falsified accounting, unfair competitive practices, and violations of human rights such as child labor, illegal labor, etc. Such failures could trigger legal investigations or disputes, causing business disruptions, financial losses, hefty fines and penalties, reputational harm, and exclusion from future opportunities.	At our organization, we have robust policies and procedures in place to ensure effective risk mitigation and promote sound governance and business ethics. We adhere to strict regulatory standards, conduct regular audits, and maintain a strong compliance framework. Our employees are educated on ethical practices, and we foster a culture of transparency, accountability, and integrity across all levels of our organization.	Negative

Sr. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
5.	Human Rights & Labor Conditions	R	Companies need to ensure that they are not indirectly involved in human rights abuses. Violations like poor working conditions, modern slavery, child labor, or environmental infractions at work locations/sites or by subcontractors or suppliers in our supply chain can inflict harm on individuals and the environment. Such transgressions can lead to reputational damage, a loss of trust in the Company's responsibility, and can result in fines, penalties, civil litigation, and criminal prosecution. It is essential for businesses to respect and support the principles of freedom of association and the effective recognition of the right to collective bargaining. Furthermore, businesses must actively work towards eliminating all forms of forced and compulsory labor.	We prioritize human rights and labor conditions by implementing comprehensive policies and practices that mitigate risks. Our organization strictly adheres to regulatory compliances and labor standards. We promote fair treatment, non-discrimination, safe working conditions, and provide appropriate training and support to our employees, ensuring their rights and wellbeing are upheld.	Negative
6.	Supply chain management	R	As a responsible business, it entails conducting operations in a fair and ethical manner, prioritizing integrity in decision making, and establishing trust as a reliable partner within the supply chain. Sustainable supply chains are crucial in ensuring safe and equitable conditions for all stakeholders. Any disruptions or shortages of materials and labor can lead to both financial and nonfinancial repercussions, such as environmental or safety incidents, violations of human rights within the supply chain, compromised ability to meet customer expectations and project commitments, damage to reputation due to suppliers and subcontractors acting contrary to the Company's values, and potential fines, penalties, and lawsuits.	We have implemented various risk mitigation measures in our supply chain management to ensure operational efficiency. This includes establishing reliable supplier networks, and maintaining strong relationships. We have streamlined processes for timely supplies and inventory management, ensuring interrupted operations.	Negative

Sr. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
7.	Waste & Hazardous Materials Management	R	One of the key areas of focus is the advancement of a circular model that emphasizes the reduction and optimization of material usage, as well as effective waste management. By optimizing resources, businesses can enhance operational and financial efficiency while simultaneously minimizing waste generation. Neglecting proper waste management practices can lead to inefficient utilization of raw materials and an escalation in production costs.	We prioritize proper waste management practices to mitigate risks associated with waste and materials management. Our organization has implemented protocols for the storage, handling, and disposal of waste. We ensure compliance with all applicable regulations and industry best practices.	Negative
8.	Water usage and management	R/O	Risk: Water plays a vital role in construction activities and has significant implications for the environment throughout its extraction, usage, and discharge processes. Given the growing strain on water resources and the imperative to protect the natural environment, effective control and management of water resources have become crucial. Thus, it is essential to encourage the responsible and efficient use of water, along with the development of infrastructure that promotes its conservation in a sustainable and environmentally-friendly manner. Identifying and mitigating water related risks, as well as implementing responsible management procedures, are necessary steps towards achieving these goals. Opportunity: Implementing effective water usage and management practices not only reduces costs but also mitigates the adverse effects of groundwater depletion and water pollution. By optimizing water utilization, businesses can achieve cost savings while simultaneously minimizing their contribution to the depletion of groundwater sources and pollution of water bodies.	We understand the importance of water management and subsequently, the Company shall put in efforts for efficient water conservation techniques, monitor water consumption and to identify areas for improvement. Additionally, ensure compliance with environmental standards and minimizing water-related risks.	Negative/Positive

Sr. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
9.	Quality of Products and Project delivery	O	Quality serves as a crucial competitive advantage in the construction sector, which requires high levels of technical sophistication. Organizations must adhere to quality standards to effectively identify and fulfill customer needs and priorities. Failure to meet quality expectations or encountering issues related to customer health and safety can pose potential risks, including a decline in sales and damage to reputation.	N.A.	Positive
10.	Customer Experience & Satisfaction	R	Establishing collaborative and enduring relationships with customers is the cornerstone of achieving success. The presence of customers and their acceptance of a business proposition are vital for its survival and sustainability. Any decline or cessation in customer demand can negatively impact the Company's revenue and profitability. Aligning delivery objectives with those of the customer is essential in ensuring favorable outcomes and maintaining customer satisfaction.	We prioritize risk mitigation in customer experience and satisfaction by ensuring the quality of our services. We closely align our processes and deliverables with customer expectations, striving for excellence in every aspect. We take proactive measures to address any issues promptly, provide timely and transparent communication, and make efforts towards early project delivery, all with the aim of exceeding customer satisfaction and building long lasting relationships.	Negative
11.	Employee Engagement	O	Maintaining employee satisfaction is critical and a key aspect within a company's sphere of influence to sustain its capabilities. A team of talented and engaged employees, dedicated to upholding the Company's values, plays a crucial role in delivering on long-term strategies, achieving success, and effectively executing exciting projects while cultivating a positive work environment.	N.A.	Positive

12.	Community Engagement	O	The individuals directly or indirectly associated with the Company are valuable stakeholders. To foster a sustainable and mutually beneficial relationship with the community, organizations must adopt a collaborative approach guided by a clear vision. By actively listening to the needs of the community and leveraging the core business, companies can develop solutions that generate positive social impact.	N.A	Positive
13.	Environmental management and protection of biodiversity	R	Companies share a reciprocal relationship with the natural environment, relying on its resources while also having an impact on it. Consequently, it is imperative for companies to prioritize the mitigation of biodiversity and natural resource impacts throughout their projects and operations. Assessing ecosystem services that directly affect the Company is essential. Protecting and conserving biodiversity has emerged as a significant environmental challenge for businesses.	We shall adopt the following measures for environmental management and protection of biodiversity. Mitigation measures will encompass sustainable land use practices, Conservation efforts, pollution reduction, and the adoption of renewable energy sources.	Negative
14	Energy Security and Fuel Price Volatility	R	The Company's operations require HSD and other fuels. Geopolitical tensions, regional conflicts, crude oil price volatility and changes in energy markets may affect the availability and cost of fuel, potentially increasing the Company's operating expenses and affecting operational continuity. This issue is distinct from broader supply chain management and specifically addresses the Company's exposure to energy and fuel-related risks.	Monitor geopolitical developments and fuel-price trends; maintain appropriate fuel inventory levels; optimize fuel consumption through operational efficiency, evaluate alternative/less fuel-intensive technologies and energy sources and periodically assess opportunities to increase the use of renewable/alternative energy.	Negative

PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders.

(This principle highlights the importance of stakeholder engagement. Companies should consider the interests and perspectives of all stakeholders, including shareholders, employees, customers, suppliers, and the communities in which they operate. They should also be responsive to stakeholder concerns and feedback.)

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity.

PNC Infratech identifies its stakeholders as individuals or groups that can influence the Company's ability to achieve its objectives or are affected by its operations and activities. These stakeholders play an important role in shaping, and are in turn impacted by, the Company's strategic decisions and business operations. The stakeholder identification process is undertaken by senior management in consultation with the Board of Directors and relevant internal departments. Stakeholders are identified and prioritised based on their relevance to the Company and the nature and extent of their potential impact on, or interaction with, its operations. The process encompasses both internal and external stakeholder groups, many of whom engage with the Company regularly through formal and informal channels, including day-to-day interactions. Key stakeholder groups include employees, workers, investors, customers, suppliers, contractors, government and regulatory authorities, and local communities, among others that are integral to PNC Infratech's business ecosystem.

i) Confirmation from Board regarding fulfilment of the independence criteria by IDs

In the opinion of the Board, the Board confirms that the Independent Directors of the Company fulfil the conditions specified in SEBI (LODR) Regulations, 2015 and are independent of the management. The Board is also in opinion that there needs to be continuous assessment of the independence criteria. Regulatory requirements for testing the independence of Directors are currently based on factual information or checklists. However, true independence is a function of behaviour, and an objectiveness being brought to board deliberations and overall decision making. This is already discussed in sub point c of this report.

Meeting of Independent Directors

Regulation 25 of Listing Regulations and Schedule IV of the Act, read with the Rules thereunder mandate that the Independent Directors of the Company shall hold at least one meeting in a financial year, without the presence of Non-Independent Directors and members of the Management.

At such meeting the Independent Directors discuss, among other matters, the performance of the Company and risk faced by it, the flow of information to the Board, competition, strategy, leadership strengths and weaknesses,

governance, compliance, Board movements and performance of the executive members of the Board, including the Chairman.

The Committees and the Board are updated by the Independent Directors about the outcome of the meetings and actions, if any, required to be taken by the Company.

During FY 2025-26, the Independent Directors met without the presence of management on 06 February, 2026 and March 30, 2026 chaired by Mr. Gauri Shankar.

Independent Auditor's Report

To
the Members of
PNC INFRATECH LIMITED

Report on the Audit of the Standalone Financial Statements

OPINION

We have audited the accompanying Standalone Financial Statements of **PNC Infratech Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and notes to the Standalone Financial Statements including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Standalone Financial Statements"), which includes 3 Joint Operations accounted on proportionate basis as stated in Annexure-1.

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial statements of the Joint Operations referred to in the Other Matter section below, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013, ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Act and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026 and its profit and other comprehensive income, changes in equity and its cash outflows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing ("SAs") specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Auditor's Response
(1) Revenue Recognition for Construction contracts The Company generates significant revenue from construction contracts and long-term operating and maintenance agreements. Revenue from these contracts is recognized over the period of time in accordance with the requirements of Ind AS 115, Revenue from Contracts with Customers. For majority of its contracts, the Company recognizes revenue and profit on the stage of completion based on the proportion of contract costs incurred for the work performed to the balance sheet date, relative to the estimated costs on the contract at completion. This method requires the Company to perform an initial assessment of total estimated cost and reassess the total construction cost at each reporting period end to determine the appropriate percentage of completion.	Our procedures included the following: - Understood and evaluated the design and tested the operating effectiveness of key internal financial controls, including those related to review and approval of estimated project cost and review of provision for estimated loss by the authorized representatives. - Obtained an understanding of Company's revenue recognition policies and reviewed compliance in terms of provisions of Ind-AS 115. - Performed assessment that the revenue recognition method applied was appropriate based on the terms of the arrangement and contract; - For a sample of contracts, we obtained the percentage of completion calculations, agreed key contractual terms to the signed contracts, tested the mathematical accuracy of the cost to complete calculations and re-performed the calculation of revenue recognized during the year based on the percentage of completion.

Independent Auditor's Report (Contd.)

Key Audit Matter	Auditor's Response
The recognition of revenue and profit / loss therefore are based on estimates in relation to the estimated total costs of each contract, which involves significant judgments, identification of contractual obligations and the Company's rights to receive payments for performance completed, scope amendments and price escalations resulting in revised contract price. Refer note 2.9 and note 32 of the Standalone Financial Statements.	- Obtained an understanding of the revenue recognition processes including documentation maintained and tested key internal controls impacting revenue, on sample basis; - Assessed the reliability of management's estimates by comparing the actual outcome of completed projects with previous estimated timelines.
(2) Litigations Matters & Contingent liabilities (as described in note 42.1 of the Standalone Financial Statements) The Company is subject to claims and litigations. Major risks identified by the Company in that area relate to claims against the Company and taxation matters. The amounts of claims and litigations may be significant and estimates of the amounts of provisions or contingent liabilities are subject to significant management judgment. Due to complexity involved in these litigation matters, management's judgment regarding recognition and measurement of provisions for these legal proceedings is inherently uncertain and might change over time as the outcomes of the legal cases are determined and it has been considered as a key audit matter.	Our procedures included the following: - Assessing the procedures implemented by the Company to identify the risks it is exposed to. - Discussion with the management on the development in these litigations during the year ended March 31, 2026. - Obtaining an understanding of the risk analysis performed by the Company, with the relating supporting documentation and studying written statements from internal/ external legal experts, when applicable. - Verification that the accounting and/ or disclosures as the case may be in the Standalone Financial Statements is in accordance with the assessment of legal counsel/ management. - Obtaining representation letter from the management on the assessment of those matters as per SA 580 (revised)-written representations.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility & Sustainability Report and Report on Corporate Governance and Shareholder's information, but does not include the Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. There is no material misstatement observed during the audit by us, therefore we have nothing to report in this matter.

RESPONSIBILITIES OF THE MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of

Independent Auditor's Report (Contd.)

the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken based on these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to the standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the Company and its Joint Operations to express an opinion on the Standalone Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the Standalone Financial Statements of which we are the independent auditors. For the other entities or business activities included in the Standalone Financial Statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent Auditor's Report (Contd.)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTER

We did not audit the financial information of 3 Joint Operations by 2 Joint Ventures namely PNC-SPSCPL Joint Venture and PNC-SPML Joint Venture, included in the Standalone Financial Statements of the Company, whose financial information reflect total assets of ₹ 102,588.98 Lakhs as at March 31, 2026, total revenue of ₹ 54,508.77 Lakhs and net cash outflows of ₹ 581.43 Lakhs for the year ended March 31, 2026 as considered in the Standalone Financial Statements. The financial information of these Joint Operations has been audited by the other auditors whose reports have been furnished to us by the Management of the Company, and our opinion insofar as it relates to the amounts and disclosures included in respect of these Joint Operations and our report in terms of Section 143(3) of the Act, insofar as it relates to the aforesaid Joint Operations, is based solely on the reports of such other auditors and the procedures performed by us as stated under Auditor's Responsibilities section above.

Our opinion on the Standalone Financial Statements and our report on other legal and regulatory requirement below, are not modified in respect of above matter with respect to our reliance on the work done and the reports of the other auditors.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

2. As required by Section 143(3) of the Act, based on our audit and based on the consideration of the reports of other auditors on the separate financial information of the Joint Operations referred to in Other Matter section above we report that:

viii. The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.

- ix. (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.
- (b) The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
- (c) Term loans were applied for the purpose for which the loans were obtained.
- (d) On an overall examination of the Standalone Financial Statements of the Company, no funds raised on short-term basis have been used for long-term purposes by the Company.

(e) According to the information and explanation given to us and on an overall examination of the Standalone Financial Statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary as defined under the Act. The Company does not hold any investment in any associate or joint venture (as defined under the Act) during the year ended March 31, 2026.

(f) According to the information and explanation given to us and procedure performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiary (as defined under the Act). The Company does not hold any investment in any associate or joint venture (as defined under the Act) during the year ended March 31, 2026.

Annexure "A" to the Independent Auditor's Report (Contd.)

- x. (a) The Company has not raised any money during the year by way of initial public offer / further public offer (including debt instruments) hence, the requirement to report on clause 3(x)(a) of the Order is not applicable to the Company.
- (b) The Company has not made any preferential allotment or private placement of shares /fully or partially or optionally convertible debentures during the year under audit and hence, the requirement to report on clause 3(x)(b) of the Order is not applicable to the Company.
- xi. (a) No fraud by the Company or no material fraud on the Company has been noticed or reported during the year.
- (b) During the year, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed by cost auditor/ secretarial auditor or by us in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.
- xii. The Company is not a Nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(a), 3(xii)(b) and 3(xii)(c) of the Order is not applicable to the Company.
- xiii. Transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the Standalone Financial Statements, as required by the applicable accounting standards.
- xiv. (a) The Company has an internal audit system commensurate with the size and nature of its business.

Annexure “B” to the Independent Auditor’s Report

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of PNC Infratech Limited of even date)

We have audited the internal financial controls with reference to the standalone financial statements of **PNC Infratech Limited** (“the Company”) as of March 31, 2026 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company’s Management is responsible for establishing and maintaining internal financial controls with reference to the standalone financial statements based on the internal control over financial reporting criteria, established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR’S RESPONSIBILITY

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to the standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to the standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to the standalone financial statements included obtaining an understanding of internal financial controls with reference to the standalone financial statements, assessing the risk that a material

weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to the standalone financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE STANDALONE FINANCIAL STATEMENTS

A Company’s internal financial control with reference to the standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control with reference to the standalone financial statements includes those policies and procedures that (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of the Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the Standalone Financial Statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE STANDALONE FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the standalone financial statements to future periods are subject to the risk that the internal financial control with reference to the standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Annexure "B" to the Independent Auditor's Report (Contd.)

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to the standalone financial statements and such internal financial controls with reference to the

standalone financial statements were operating effectively as at March 31, 2026, based on the criteria for internal financial control with reference to the standalone financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes to the Standalone Financial Statements

For the year ended March 31, 2026

NOTE 1 CORPORATE INFORMATION

PNC Infratech Limited was incorporated on August 09, 1999 as PNC Construction Company Private Limited. The Company was converted into a limited company in 2001 and was renamed PNC Infratech limited in 2007. The Company is listed with National Stock Exchange and Bombay Stock Exchange.

The Company is engaged in India's infrastructure development through the construction of highways including BOT (built, operate and transfer projects), HAM (Hybrid Annuity Model), Airport Runways, Bridges, Flyovers, Power Transmission projects, Water supply and Coal Mining project among others.

In case of BOT and HAM, the Company bid as a sponsor either alone or in the joint venture with other venturer and once the project is awarded then it is executed by incorporating a company (special purpose vehicle).

The Company's registered office is located in New Delhi, corporate office in Agra and operations are spread across Haryana, Karnataka, Madhya Pradesh, Maharashtra, Andhra Pradesh, Rajasthan, Uttar Pradesh, Uttarakhand, Gujarat, Delhi, Chhattisgarh and Bihar among others.

The Company is ISO 9001:2008-certified, awarded 'SS' (Super Special) class from the Military Engineering Services as well as appreciation from NHAI and the Military Engineer Services, Ministry of Defence.

The Standalone financial statements were authorized for issue in accordance with the resolution of the directors on May 19, 2026.

NOTE 2 SUMMARY OF MATERIAL ACCOUNTING POLICIES

2.1. Basis of Preparation

The Standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015.

In accordance with the notification issued by the Ministry of Corporate Affairs, the Company, with effect from April 01, 2016, has adopted Indian Accounting Standards (the 'Ind AS') notified under the Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and amendments thereto.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The Standalone financial statements are presented in Indian rupees (₹) and all values are rounded to the nearest Lakhs and two decimals thereof, except if otherwise stated.

These Standalone financial statements have been prepared under the historical cost convention on the accrual basis, except for certain financial instruments & provisions which are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

2.2 Interest in Joint Operations

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities, relating to the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. When a company undertakes its activities under joint operations, the Company as a joint operator recognizes in relation to its interest in a joint operation:

1. its assets, including its share of any assets held jointly,
2. its liabilities, including its share of any liabilities incurred jointly,
3. its revenue from the sale of its share arising from the joint operation,
4. its share of the revenue from the joint operations, and
5. its expenses, including its share of any expenses incurred jointly.

The Company accounts for the assets, liabilities, revenues, and expenses relating to its interest in a joint operation in accordance with the Ind AS applicable to the particular assets, liabilities, revenues, and expenses.

2.3 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle

Notes to the Standalone Financial Statements For the year ended March 31, 2026 (Contd.)

- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when it is:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle for the business activities of the Company covers the duration of the project/ contract/ service including the defect liability period, wherever applicable and extends up to the realization of receivables (including retention monies) within the credit period normally applicable to the respective project.

2.4 Property Plant & Equipment

The Company has elected to continue with the carrying value of all its property, plant and equipment as recognized in the financial statement at the date of transition i.e. at April 01, 2015, measured as per the previous GAAP and used that as its deemed cost as at the transition date.

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

Cost includes cost of acquisitions or construction including incidental expenses thereto and other attributable cost of bringing the assets to its working condition for the intended use and is net of recoverable duty /tax credits.

2.5 Intangible Asset

The Company recognizes the intangible asset according to Ind AS-38 which are stated at cost of acquisition net

of accumulated amortization and impairment losses, if any.

In accordance with Ind AS 38, Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. Other intangible assets are amortized on straight line basis over the period in which it is expected to be available for use by the Company.

2.6 Intangible Asset under development

Expenditure related to and incurred during development of Assets are included under "Intangible assets under development". The same will be transferred to the respective assets on its completion.

2.7 Depreciation and Amortization

Depreciation and amortization on fixed assets and intangible assets is provided on straight line method (other than specified Plant & Machinery which are depreciated on written down value basis) based on useful life which is estimated by the management as equivalent to the useful life stated in schedule II to the Companies Act 2013 and is on pro-rata basis for addition and deletions. The useful life is reviewed at the end of each financial year. In case of Plant & Machinery as per technical estimate (excluding Cranes & Earth Moving equipment), the useful life is more than as stated in schedule II. The estimated useful life of Property, Plant & Equipment and Intangible assets as mentioned below:

Particulars	Useful life
Buildings	30 Years
Plant & Machinery

2.8 Cash & Cash Equivalent

Cash & cash equivalents comprise of cash at bank and cash-in-hand. The Company consider all highly liquid investments which must be readily convertible to a known amount of cash and are subject to an insignificant risk of change in value with an original maturity of three months or less from date of purchase to be cash equivalent.

2.9 Revenue recognition

Construction Contracts

The Company recognized revenue when the Company satisfies a performance obligation by transferring a promised good or service (i.e., assets) to a customer at an amount that reflects the consideration entitled in exchange for those goods or services. Revenue is measured at the amount of consideration which the Company expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognized when it becomes unconditional.

Construction Contract: Performance obligation under the construction contracts satisfied over a period of time, since the Company creates an asset that the customer controls as the asset is created and the Company has an enforceable right to payment for performance completed to date if it meets the agreed specifications. With respect to the method for recognising revenue over time (i.e. the method for measuring progress towards complete satisfaction of a performance obligation), the Company has established certain criteria that are applied consistently for similar performance obligations. In this regard, the method chosen by the Company to measure the value of goods or services for which control is transferred to the customer over time is the output method based on surveys of performance completed to date as acknowledged by the client according to which revenue is recognized corresponding to the work performed and on the basis of the price allocated thereto. In cases where the work performed till the reporting date has not reached the milestone specified in the contract, the Company recognizes revenue only to the extent that it is highly probable that the customer will acknowledge the same.

This method is applied as the progress of the work performed can be measured during its performance

on the basis of the contract. Under this method, on a regular basis, the work completed under each contract is measured and the corresponding output is recognized as revenue.

Contract modifications are accounted for when additions, deletions or changes are approved either to the scope or price or both. Goods/services added that are not distinct are accounted for on a cumulative catch up basis. Goods / services those that are distinct are accounted for prospectively as a separate contract, if the additional goods/services are priced at the standalone selling price else as a termination of the existing contract and creation of a new contract. In cases where the additional work has been approved but the corresponding change in price has not been determined, the recognition of revenue is made for an amount with respect to which it is highly probable that a significant reversal will not occur.

If the consideration promised in a contract includes a variable amount, this amount is recognized only to the extent that it is highly probable that a significant reversal in the amount recognized will not occur.

Revenue related Claims/Bonus are accounted in the year in which awarded/settled or accepted by customer or there is a tangible evidence of acceptance received.

Other sales are accounted on dispatch of material and exclude applicable tax including Goods and Service tax and are net of discount.

Sale of Services (Operation and Maintenance contracts)

Revenue from providing operating and maintenance services is recognized in the accounting period in which the services are rendered. Invoices are issued according to contractual terms and are usually payable as per the credit period agreed with the customer.

Provision for future losses

Provision for future losses are recognized as soon as it becomes evident that the total costs expected to be incurred in a contract exceed the total expected revenue from that contract.

Contract balances

(i) Contract assets

A contract asset is recognized for amount of work done but pending billing/acknowledgement by customer or amounts billed but payment is due on completion of future performance obligation, since it is conditionally receivable. The provision for Expected Credit Loss on contract assets is made on the same basis as financial assets.

Notes to the Standalone Financial Statements For the year ended March 31, 2026 (Contd.)

(ii) Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section financial instruments.

(iii) Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received advance payments from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the consideration received.

2.10 Other Income

Interest Income

Interest income is generally recognized on a time proportion basis by considering the outstanding amount and effective interest rate.

In the absence of ascertainment with reasonable certainty the quantum of accruals in respect of claims recoverable, the same is accounted for on receipt basis. Income from investments is accounted for on accrual basis when the right to receive income is established.

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument. Income from dividend is recognized when the right to received is established.

Dividend

Dividends are recognized in profit or loss only when:

- (i) The Company's right to receive payment of the dividend is established;
- (ii) It is probable that the economic benefits associated with the dividend will flow to the entity; and
- (iii) The amount of dividend can be measured reliably.

Other Income

Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefit will flow to the Company and the amount of income can be measured reliably.

2.11 Inventories

The stock of raw material, stores, spares and embedded goods and fuel is valued at lower of cost or net realizable value. Cost is computed on weighted average basis.

Work-In-Progress is calculated taking into accounts for the work done not qualify to be billed to the customer.

2.12 Leases

Where the Company is the lessee

The Company's lease asset classes primarily consist of leases buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over

Notes to the Standalone Financial Statements For the year ended March 31, 2026 (Contd.)

the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases.

Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

Effective from April 01, 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 01, 2019 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application.

Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use

asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the Company's incremental borrowing rate at the date of initial application. Comparatives as at and for the year ended March 31, 2019 have not been retrospectively adjusted and therefore will continue to be reported under the accounting policies included as part of our Annual Report for year ended March 31, 2019.

2.13 Employee benefits

Short Term

All employee benefits payable wholly within twelve months rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives etc., and the expected cost of bonus, ex-gratia are recognized during the period in which the employee renders related service.

Payments to defined contribution retirement benefit plans are recognized as an expense when employees have rendered the service entitling them to the contribution.

Long Term

Provident Fund: The contribution to provident fund is in the nature of defined contribution plan. The Company makes contribution to statutory provident fund in accordance with the Employees Provident Fund and Miscellaneous Provisions Act, 1952. The contribution paid or payable is recognized as an expense in the period in which services are rendered.

Gratuity: The cost is determined using the projected unit credit method with actuarial valuation being carried at cash at each Balance Sheet date by an independent actuary. The retirement benefits obligation recognized in the Balance Sheet represent the present value of defined benefit obligation as adjusted for recognized past service cost.

Actuarial gains and losses are recognized in full in the other comprehensive income for the period in which they occur.

Other long term employee benefits

The cost of long term employee benefits is determined using project unit credit method and is present value of related obligation, determined by actuarial valuation done on Balance Sheet date by an independent actuary. The past service cost and actuarial gain & losses are recognized immediately in the Statement of Profit & Loss in which they occur.

Notes to the Standalone Financial Statements For the year ended March 31, 2026 (Contd.)

2.14 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

2.15 Segment reporting

The Company's operations consist of infrastructure development and construction/project activities, Water supply projects in India, which in the context of Ind AS 108 "Operating Segments" is considered as identifiable segments. All the activities of the Company revolve around these business.

2.16 Earnings per share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period.

Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The Weighted average number of equity shares outstanding during the period is adjusted for events of bonus issue, buy back of shares, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

2.17 Taxation

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company operates and generates taxable income. Current income tax is charged at the end of reporting period to profit & loss.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss

(either in other comprehensive income or in equity). Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and tax liabilities are offset where the Company has a legal enforceable right to offset and intends either to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Deferred Tax

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at reporting date.

Deferred tax assets and liabilities are offset when there is legal enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authorities.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity."

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Unrecognized Deferred Tax Assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the Deferred Tax Asset to be recovered.

2.18 Impairment of Financial Assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL.

For all other financial assets, expected credit losses are measured at an amount equal to the 12-month

Notes to the Standalone Financial Statements For the year ended March 31, 2026 (Contd.)

ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

2.19 Impairment of Non-Financial Assets

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost of disposal and the value-in-use) is determined on an Individual asset basis unless the asset does not generate cash flows that are largely Independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset.

An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

2.20 Claims & Counter Claims

Claims and counter claims including under arbitrations are accounted for on their final settlement/ Award. Contract related claims are recognized when there is a reasonable certainty.

2.21 Provisions, Contingent liabilities and Contingent assets

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The expense relating to a provision is presented in the statement of profit and loss.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. Provisions are reviewed at each balance sheet date.

Contingent liabilities and assets

Contingent liabilities are disclosed in respect of possible obligation that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimates of the obligation cannot be made.

A contingent assets are disclosed where an inflow of economic benefit is probable. An entity shall not recognize the contingent assets unless the recovery is virtually certain.

2.22 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are classified not at fair value through profit or loss are added to or deducted from, the fair value on initial recognition.

Subsequent measurement

A. Financial Assets

For the purpose of subsequent measurement, financial assets are classified in three broad categories:

(i) Financial Assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset

Notes to the Standalone Financial Statements For the year ended March 31, 2026 (Contd.)

give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) **Financial assets at fair value through other comprehensive income**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iii) **Financial assets at fair value through profit or loss**

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

Investment in Subsidiaries, Associates and Joint ventures

On initial recognition, these investments are recognized at fair value plus any directly attributable transaction cost. Subsequently, they are measured at cost in accordance with Ind AS 27 - 'Separate Financial Statements'.

Equity investments (other than investments in subsidiaries, associates and joint venture)

All equity investments falling within the scope of Ind-AS 109 are mandatorily measured at Fair Value through Profit and Loss (FVTPL) with all fair value changes recognized in the Statement of Profit and Loss. The Company has an irrevocable option of designating certain equity instruments as FVOCI. Option of designating instruments as FVOCI is done on an instrument-by-instrument basis. The classification made on initial recognition is irrevocable. If the Company decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument are recognized in Other Comprehensive Income (OCI). Amounts from OCI are not subsequently transferred to profit and loss, even on sale of investment.

B. Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition

A. Financial Assets

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognized when:

- (i) The contractual right to receive cash flows from the assets have expired, or
- (ii) The Company has transferred its right to receive cash flow from the financial assets and substantially all the risks and rewards of ownership of the asset to another party.

B. Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Reclassification of financial assets and financial liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities.

2.23 Discontinued operations and non-current assets held for sale

Discontinued operation is a component of the Company that has been disposed of or classified as held for sale and represents a major line of business.

Non-current assets and disposal groups are classified as held for sale if their carrying amount is intended to be recovered principally through a sale (rather than

Notes to the Standalone Financial Statements For the year ended March 31, 2026 (Contd.)

through continuing use) when the assets (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such assets (or disposal group) and the sale is highly probable and is expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets and disposal groups classified as held for sale are measured at lower of their carrying amount and fair value less costs to sell.

2.24 Foreign currencies

i. Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

ii. Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date.

iii. Exchange differences

The Company accounts for exchange differences arising on translation/ settlement of foreign currency monetary items by recognizing the exchange differences as income or as expenses in the period in which they arise.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

2.25 Fair Value Measurement

The Company measures certain financial instruments at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and

best use or by selling it to another market participant that would use the asset in its highest and best use.

The Entity uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Standalone financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Company has determined classes of assets & liabilities on the basis of the nature, characteristics and the risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.26 Cash Flow Statement

Cash flow are reported using indirect method whereby a profit before tax is adjusted for the effect for the effects of transaction of non-cash nature. The cash flow from operating, investing and financing activities of the Company are segregated.

2.27 Recent Pronouncements

On May 09, 2025, MCA notified the amendments to Ind AS 21- Effects of changes in Foreign Exchange Rates. These amendments aim to provide clearer guidance on assessing currency exchangeability and estimating exchange rates when currencies are not readily exchangeable. The amendments are effective for annual periods beginning on or after April 01, 2025. The Company has evaluated the said amendment and concluded that the same doesn't have any material impact on its financial statement.

On August 13, 2025, MCA notified the following amendments to :

- 1) Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instruments- Disclosures, applicable w.e.f April 01, 2025 - The amendment in Ind AS

Notes to the Standalone Financial Statements For the year ended March 31, 2026 (Contd.)

7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

- 2) Amendment to Ind AS 1 'Presentation of Financial Statements'- Classification of Liabilities as current or non-current and non-current liabilities with covenants. The amendment includes specific provisions that will take effect for reporting periods beginning on or after April 01, 2026, retrospectively, as outlined below:

- a) Breach of material covenant for long-term loan arrangement on or before end of reporting period with effect that liability becomes payable on demand as on reporting date, then it shall be classified as current liability, if lender agreed after reporting period and before approval of financial statements to not demand payment as a consequence of breach.
- b) Classify as non-current liability, if lender agreed by end of reporting period to provide grace period ending at least 12 months after reporting period within which entity can rectify the breach provided lender does not demand immediate repayment.
- c) Disclose information about the timing of settlement to understand the impact of the liability on the financial statements.

The Company does not expect this amendment to have an impact on its operations or financial statements.

- 3) Amendments to Ind AS 12 Income Taxes in response to the OECD's BEPS Pillar Two rules and include:
 - a) A mandatory temporary exception to the recognition and disclosure of deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules; and
 - b) Disclosure requirements for affected entities to help users of the financial statements better understand an entity's exposure to

Pillar Two income taxes arising from that legislation, particularly before its effective date.

The mandatory temporary exception – the use of which is required to be disclosed – applies immediately. The remaining disclosure requirements apply for annual reporting periods beginning on or after April 01, 2025, but not for any interim periods ending on or before March 31, 2026.

The amendments had no impact on the Company's financial statements as the Company is not in scope of the Pillar Two model rules.

NOTE 3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of Standalone financial statements in conformity with Indian Accounting Standards (Ind AS) requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosure of contingent liabilities at the date of Standalone financial statements and results of operations during the reporting period. The Management believes that the estimates used in preparation of Standalone financial statements are prudent and reasonable. Differences between actual results and estimates are recognized in the year in which the results are shown /materialized.

i. Estimated useful life of intangible asset and property, plant and equipment

The Company assesses the remaining useful lives of Intangible assets and property, plant and equipment on the basis of internal technical estimates. Management believes that assigned useful lives are reasonable.

ii. Income taxes

Deferred tax assets are recognized for the unused tax credit to the extent that it is probable that taxable profits will be available against which the losses will be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits.

iii. Defined benefit plans and Other Long Term Benefits

The cost of the defined benefit plan and other long term benefit and their present value are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a

Notes to the Standalone Financial Statements For the year ended March 31, 2026 (Contd.)

defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The most sensitive is discount rate. Future salary increases and gratuity increases are based on expected future inflation rates.

iv. Contingent liabilities

Management judgment is required for estimating the possible outflow of resources, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy. The management believes the estimates are reasonable and prudent.

v. Revenue Recognition

The Company uses the stage of completion method using survey method and /or on completion of physical proportion of the contract work to measure progress towards completion in respect of construction contracts. This method is followed when reasonably dependable estimates of costs applicable to various elements of the contract can be made. Key factors that are reviewed in estimating the future costs to

complete include estimates of future labour costs and productivity efficiencies.

Because the financial reporting of these contracts depends on estimates that are assessed continually during the term of these contracts, recognized revenue and profit are subject to revisions as the contract progresses to completion. When estimates indicate that a loss will be incurred, the loss is provided for in the period in which the loss becomes probable.

vi. Provision for doubtful receivables and contract assets

In assessing the recoverability of the trade receivables and contracts assets, management's judgement involves consideration of aging status, evaluation of litigations and the likelihood of collection based on the terms of the contract.

vii. Estimation of net realizable value of inventories

Inventories are stated at the lower of cost and Fair value. In estimating the net realizable value / Fair value of Inventories the Company makes an estimate of future selling prices and costs necessary to make the sale.

42.5 FINANCIAL RISK MANAGEMENT

The Company's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to manage finances for the Company's operations. The Company principal financial asset includes loan, trade and other receivables, and cash and short-term deposits that arise directly from its operations.

The Company's activities are exposed to market risk, credit risk and liquidity risk.

I. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity price risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments, and derivative financial instruments.

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks.

(a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regard to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of the fixed rate and floating rate financial instruments in its total portfolio.

Therefore no sensitivity is provided.

Notes to the Standalone Financial Statements For the year ended March 31, 2026 (Contd.)

II. Credit risk

Credit risk arises from the possibility that the counterparty will default on its contractual obligations resulting in financial loss to the Company. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable.

The Company considers the probability of default upon initial recognition of assets and whether there has been a significant increase in credit risk on an on going basis through each reporting period. To assess whether there is significant increase in credit risk, it considers reasonable and supportive forward looking information such as:

- (i) Actual or expected significant adverse changes in business.
- (ii) Actual or expected significant changes in the operating results of the counterparty.
- (iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligation
- (iv) Significant increase in credit risk on other financial instruments of the same counterparty
- (v) Significant changes in the value of collateral supporting the obligation or in the quality of third party guarantees or credit enhancements

The Company major exposure is from trade receivables, which are unsecured and derived from external customers. Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in deposit with Bank for specified time period.

The history of Trade Receivable shows a negligible allowance for bad & doubtful debts.

The Company uses a provision matrix to determine impairment loss on portfolio of its trade receivable. The provision matrix is based on its historically observed default data over the expected life of the trade receivable and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in forward-looking estimates are analyzed. In case of probability of non collection, default rate is 100%.

III. Liquidity Risk

Liquidity risk refers to the risk of financial distress or extraordinary high financing costs arising due to shortage of liquid funds in a situation where business conditions unexpectedly deteriorate and requiring financing. The Company requires funds both for short term operational needs as well as for long term capital expenditure growth project. The Company generates sufficient cash flow for operations, which together with the available cash and cash equivalents and short term investments provide liquidity in the short-term and long-term. The Company has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and by matching the maturity profiles of financial assets and liabilities.

(i) Fair Value Hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (A) recognized and measured at fair value and (B) measured at amortized cost and for which fair values are disclosed in financial statements. To provide an indication about the reliability of inputs used in determining fair values, the group has classified its financial instruments into three levels prescribed under the accounting standards.

The following table provides the fair value measurement hierarchy of company's asset and liabilities, grouped into Level 1 to Level 3 as described below :-

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

(ii) Valuation techniques used to determine Fair value

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Specific valuation technique used to value financial instrument includes:

- > the use of quoted market prices or dealer quotes for similar financial instruments.
- > the fair value of financial assets and liabilities at amortized cost is determined using discounted cash flow analysis.

The following method and assumptions are used to estimate fair values:

The carrying amounts of trade receivables, trade payables, capital creditors, cash and cash equivalents, short term deposits etc. are considered to be their fair value, due to their short term nature.

Long-term fixed-rate and variable-rate receivables / borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, credit risk and other risk characteristics. For borrowing fair value is determined by using the discounted cash flow (DCF) method using discount rate that reflects the issuer's borrowings rate. Risk of non-performance for the Company is considered to be insignificant in valuation.

In case of Investment in equity shares of company other than subsidiary, associates & joint ventures is measured at cost on the basis of assessment by management and the cost represent the best estimate of fair value within that range.

Financial assets and liabilities measured at fair value and the carrying amount is the fair value.

Independent Auditor's Report

To
the Members of

PNC INFRATECH LIMITED

Report on the Audit of the Consolidated Financial Statements

OPINION

We have audited the accompanying Consolidated Financial Statements of **PNC Infratech Limited** ("hereinafter referred to as "the Holding Company") and its Subsidiary Companies (including step down subsidiary companies) (Holding Company and its Subsidiary Companies (including step down subsidiary companies) together referred to as "the Group") which includes 3 Joint Operations of the group accounted on a proportionate basis as stated in Annexure-1 which comprise the Consolidated Balance Sheet as at March 31, 2026, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and notes to the Consolidated Financial Statements including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial statements of the Subsidiary Companies (including step down subsidiary companies) and Joint Operations referred to in the Other Matters section below, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013, ("the Act"), in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Act, and other accounting principles generally accepted in India, of the

state of affairs of the Group as at March 31, 2026, and their consolidated profit and consolidated other comprehensive income, their consolidated changes in equity and their consolidated cash outflows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing ("SAs"), specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us, and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Auditor's Response
(1) Revenue Recognition for Construction contracts The Group generates significant revenue from construction contracts and long-term operating and maintenance agreements. Revenue from these contracts is recognized over the period of time in accordance with the requirements of Ind AS 115, Revenue from Contracts with Customers. For majority of its contracts, the Group recognizes revenue and profit on the stage of completion based on the proportion of contract costs incurred for the work performed to the balance sheet date, relative to the estimated costs on the contract at completion.	Our audit procedures included the following: • Understood and evaluated the design and tested the operating effectiveness of key internal financial controls, including those related to review and approval of estimated project cost and review of provision for estimated loss by the authorised representatives. • Obtained an understanding of Group's revenue recognition policies and reviewed compliance in terms of provisions of Ind-AS 115. • Performed assessment that the revenue recognition method applied was appropriate based on the terms of the arrangement and contract;

Independent Auditor's Report (Contd.)

Key Audit Matter	Auditor's Response
This method requires the Group to perform an initial assessment of total estimated cost and reassess the total construction cost at each reporting period end to determine the appropriate percentage of completion. The recognition of revenue and profit / loss therefore are based on estimates in relation to the estimated total costs of each contract, which involves significant judgments, identification of contractual obligations and the Group's rights to receive payments for performance completed, scope amendments and price escalations resulting in revised contract price. Refer note 2.12 and note 32 of the Consolidated Financial Statements.	- For a sample of contracts, we obtained the percentage of completion calculations, agreed key contractual terms to the signed contracts, tested the mathematical accuracy of the cost to complete calculations and re-performed the calculation of revenue recognized during the year based on the percentage of completion. - Obtained an understanding of the revenue recognition processes including documentation maintained and tested key internal controls impacting revenue, on sample basis; - Assessed the reliability of management's estimates by comparing the actual outcome of completed projects with previous estimated timelines;
(2) Litigations Matters & Contingent liabilities (as described in note 42.1 of the Consolidated Financial Statements) The Group is subject to claims and litigations. Major risks identified by the Group in that area relate to claims against the Group and taxation matters. The amounts of claims and litigations may be significant and estimates of the amounts of provisions or contingent liabilities are subject to significant management judgment. Due to complexity involved in these litigation matters, management's judgment regarding recognition and measurement of provisions for these legal proceedings is inherently uncertain and might change over time as the outcomes of the legal cases are determined and it has been considered as a key audit matter.	Our procedures included the following: - Assessing the procedures implemented by the Group to identify the risks it is exposed to. - Discussion with the management on the development in these litigations during the year ended March 31, 2026. - Obtaining an understanding of the risk analysis performed by the Group, with the relating supporting documentation and studying written statements from internal/ external legal experts, when applicable. - Verification that the accounting and/ or disclosures as the case may be in the Consolidated Financial Statements is in accordance with the assessment of legal counsel/ management. - Obtaining representation letter from the management on the assessment of those matters as per SA 580 (revised)-written representations.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility & Sustainability Report and Report on Corporate Governance and Shareholder's information, but does not include the Financial Statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information, compare with the financial statements of the Subsidiary

Companies (including step down subsidiary companies) and Joint Operations audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the Subsidiary Companies (including step down subsidiary companies) and Joint Operations is traced from their financial statements audited by the other auditors.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. There is no material misstatement observed during the audit by us, therefore we have nothing to report in this matter.

Independent Auditor's Report (Contd.)

RESPONSIBILITIES OF THE MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including Ind AS specified under Section 133 of the Act.

The respective Board of Directors of the entities included the Group are responsible for the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Consolidated Financial Statements, the respective Management and Board of Directors of the Companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the Companies included in the Group are also responsible for overseeing the financial reporting process of each Company.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic

decisions of users taken based on these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Group has adequate internal financial controls with reference to the consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements.

Independent Auditor's Report (Contd.)

We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Group internal financial controls with reference to the consolidated financial statements.
 - g) With respect to the Other Matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended in our opinion and to the best of our information and according to the explanation given to us and based on the auditors reports of Subsidiary Companies (including step down subsidiary companies), the remuneration paid / payable by the Holding Company to its directors is in accordance with the provisions of Section 197 of the Act.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

Independent Auditor's Report (Contd.)

- i. The Consolidated Financial Statements disclose the impact of pending litigations as at March 31, 2026 on its consolidated financial position of the Group, in its Consolidated Financial Statements - Refer note 42.1 to the Consolidated Financial Statements.
- ii. The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its Subsidiary Companies (including step down subsidiary companies), incorporated in India during the year ended March 31, 2026.
- iv. (a) The respective Managements of the Holding Company and its Subsidiary Companies (including subsidiary companies) which are Companies incorporated in India whose financial statements have been audited under the Act have represented to us and to the other auditors of such Subsidiary Companies (including step down subsidiary companies) that, to the best of their knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such Subsidiary Companies (including step down subsidiary companies) to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such Subsidiary Companies (including step down subsidiary companies) ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (b) The respective Managements of the Holding Company and its Subsidiary Companies (including subsidiary companies) which are companies incorporated in India whose financial statements have been audited under the Act have represented to us that, to the best of their knowledge and belief, no funds have been received by the Holding Company and its Subsidiary Companies (including subsidiary companies) from any person(s) or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company and its Subsidiary Companies (including subsidiary companies) shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on our audit procedures conducted that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11 (e), as provided under (a) & (b) above, contain any material misstatement.
- (v) As stated in note 19 to the Consolidated Financial Statements:
 - (a) The final dividend proposed in the previous year, declared and paid by the Holding Company during the year is in accordance with Section 123, as applicable.
 - (b) The Holding Company has not declared or paid any interim dividend during the year and until the date of this report.
 - (c) The Board of Director of the Holding Company have proposed final dividend for the year, which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with Section 123 of the Act, as applicable.

The Subsidiary Companies (including step down subsidiary companies) which are incorporated in India have neither declared dividend nor paid any dividend during the year.

Independent Auditor's Report (Contd.)

- (vi) Based on our examination, which included test checks, the Holding Company and its Subsidiary Companies (including step down subsidiary companies) incorporated in India have used accounting software for maintaining their respective books of account for the financial year ended March 31, 2026 which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all

transactions recorded in the respective accounting software.

Further, for the period where audit trail (edit log) facility was enabled and operated throughout the year for the accounting software, we did not come across any instances of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

Annexure "A" to the Independent Auditor's Report

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of PNC Infratech Limited of even date)

In conjunction with our audit of the Consolidated Financial Statements of the Holding Company as of and for the year ended March 31, 2026, we have audited the internal financial controls with reference to the consolidated financial statements of **PNC Infratech Limited** (hereinafter referred to as "the Holding Company") and its Subsidiary Companies (including step down subsidiary companies) which are companies incorporated in India (the Holding Company and its Subsidiary Company together referred to as "the Group"), as of that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Management of the Holding Company and its Subsidiary Companies (including step down subsidiary companies) which are Companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to the respective financial statements based on the internal controls over financial reporting criteria, established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to group's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under Act.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial control with reference to the consolidated financial statements of the Holding Company and its Subsidiary Companies (including step down subsidiary companies) which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Control Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI") and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to the consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the consolidated financial statements was established

and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to the consolidated financial statements included obtaining an understanding of such internal financial controls with reference to the consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by other auditors of the Subsidiary Companies (including step down subsidiary companies) which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to the consolidated financial statements of the Company and its Subsidiary Companies (including step down subsidiary companies), which are Company incorporated in India.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE CONSOLIDATED FINANCIAL STATEMENTS

A Company's internal financial control with reference to the consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Consolidated Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to the consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the Consolidated Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Consolidated Financial Statements.

Annexure "A" to the Independent Auditor's Report (Contd.)**INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE CONSOLIDATED FINANCIAL STATEMENTS**

Because of the inherent limitations of internal financial controls with reference to the consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to the consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion and to the best of our information and according to the explanation given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph below, the Holding Company, its Subsidiary Companies (including step down subsidiary companies), its Joint Operation, which are companies incorporated in India, have in all material respects, an

adequate internal financial controls system with reference to the consolidated financial statements and such internal financial controls with reference to the consolidated financial statements were operating effectively as at March 31, 2026, based on the criteria for internal financial control with reference to the consolidated financial statement established by the Holding Company and its Subsidiary Companies (including step down subsidiary companies), which are Companies incorporated in India considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

OTHER MATTERS

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to Consolidated Financial Statements in so far as it relates to 30 Subsidiary Companies (including step down subsidiary companies), which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matters.

Notes to the Consolidated Financial Statements

For the year ended March 31, 2026

NOTE 1 | GROUP OVERVIEW

The Consolidated Financial Statements comprise financial statements of "PNC Infratech Limited" ("PNC", the "Parent Company" or the "Company") and its subsidiaries (collectively referred to as "the Group") for the year ended March 31, 2026.

The Group was incorporated on August 09, 1999 as PNC Construction Company Private Limited. The Company was converted into a limited company in 2001 and was renamed PNC Infratech limited in 2007. The Company is listed with National Stock Exchange and Bombay Stock Exchange on May 26, 2015.

The Group is engaged in India's infrastructure development through the construction of highways including BOT (built, operate and transfer projects), HAM (Hybrid Annuity Model), Airport Runways, Bridges, Flyovers, Power Transmission projects and Water supply and Coal Mining project among others.

In case of BOT and HAM, the Group bids as a sponsor either alone or in the joint venture with other venture(s) and once the project is awarded then it is executed by incorporating a Group (Special Purpose Vehicle).

The Group's registered office is located in New Delhi, corporate office in Agra and operations of the group are spread across Haryana, Karnataka, Madhya Pradesh, Maharashtra, Andhra Pradesh, Rajasthan, Uttar Pradesh, Uttarakhand, Gujarat, Delhi Chhattisgarh and Bihar among others.

The Group is ISO 9001:2008-certified, awarded 'SS' (Super Special) class from the Military Engineering Services as well as appreciation from NHAI and the Military Engineer Services, Ministry of Defence.

The Consolidated financial statements were authorised for issue in accordance with the resolution of the directors on May 19, 2026.

NOTE 2 | SUMMARY OF MATERIAL ACCOUNTING POLICIES

2.1 Basis of Preparation

The Consolidated financial statements of the company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015.

In accordance with the notification issued by the Ministry of Corporate Affairs, the Group, with effect from April 01, 2016, has adopted Indian Accounting Standards (the 'Ind AS') notified under the Rule 3 of the

Companies (Indian Accounting Standards) Rules, 2015 and amendments thereto.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The Consolidated financial statements are presented in Indian rupees (₹) and all values are rounded to the nearest lakhs and two decimals thereof, except if otherwise stated.

These Consolidated financial statements have been prepared under the historical cost convention on the accrual basis, except for certain financial instruments & Provisions which are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

2.2 Interest in Joint Operations

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities, relating to the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. When a company undertakes its activities under joint operations, the company as a joint operator recognises in relation to its interest in a joint operation:

1. Its assets, including its share of any assets held jointly,
2. Its liabilities, including its share of any liabilities incurred jointly,
3. Its revenue from the sale of its share arising from the joint operation,
4. Its share of the revenue from the joint operations, and
5. Its expenses, including its share of any expenses incurred jointly.

The Company accounts for the assets, liabilities, revenues, and expenses relating to its interest in a joint operation in accordance with the Ind AS applicable to the particular assets, liabilities, revenues, and expenses.

Notes to the Consolidated Financial Statements For the year ended March 31, 2026 (Contd.)

2.3 Principles of consolidation and equity accounting

The consolidated financial statements comprise the financial statements of the Group, its Subsidiaries and associates as at March 31, 2026.

In case of subsidiaries, control is achieved when the group is exposed, or has right, to variable return from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Associates are all entities over which the group has significant influence but not control or joint control. Investment in associate is accounted for using the equity method of accounting (see note (d) of consolidation procedures mentioned below).

The group re-assesses whether or not it controls as an investee if facts and circumstances indicates that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group possesses control over the subsidiary and ceases when the Group loses control over the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed-off during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statement in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent Group, i.e. financial year ended on March 31, 2026.

Profit or loss, each component of other comprehensive income (OCI) is attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if the results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the group are eliminated in full on consolidation.

Consolidation procedure:

- (a) The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- (b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combination policy explains how to account for any related goodwill.
- (c) Eliminate in full intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full).
- (d) The build, operate and transfer (BOT) contracts are governed by concession agreement with government authorities (grantor). Under these agreements, the operator does not own the road, but gets "Toll collection rights" against the construction services rendered. Since the construction revenue earned by the operator is considered as exchange with the grantor against the toll collection rights, profit from such contracts is considered as realised.

Accordingly, BOT contracts awarded to group companies (operator), where work is subcontracted to fellow group companies or "the Group", the intra group transactions on BOT contacts under Intangible Assets Method and the profits arising thereon are taken as realised and hence not eliminated.

- (e) Under the equity method of accounting, the investments are initially recognised at cost and

Notes to the Consolidated Financial Statements For the year ended March 31, 2026 (Contd.)

adjusted thereafter to recognise the group's share of post-acquisition profit or losses of the investee in profit or loss and the group's share of the other comprehensive income of the investee in other comprehensive income.

- (f) Figures pertaining to the subsidiaries, associates and joint ventures have been reclassified wherever necessary to bring them in line with the parent's Group financial statements.

2.4 Business combination/Goodwill on consolidation

The Group accounts for its business combinations under acquisition method of accounting. Acquisition related costs are recognised in the statement of profit and loss as incurred. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognised at their fair values at the acquisition date.

The excess of the:

- Consideration transferred;
- Amount of any non-controlling interest in the acquired business, and
- Acquisition-date fair value of any previous equity interest in the acquired business over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognized in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase is recognized directly in equity as capital reserve.

Goodwill arising on consolidation is not amortised, however, it is tested for impairment annually. In the event of cessation of operations of a subsidiary, the unimpaired goodwill is written off fully. Business combinations arising from transfers of interests in entities that are under common control are accounted at historical cost. The difference between any consideration given and the aggregate historical carrying amounts of assets and liabilities of the acquired entity are recorded in shareholders' equity.

2.5 Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle

- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle for the business activities of the Group covers the duration of the project/ contract/ service including the defect liability period, wherever applicable and extends up to the realization of receivables (including retention monies) within the credit period normally applicable to the respective project.

2.6 Property, Plant & Equipment

The group has elected to continue with the carrying value of all its property, plant and equipment as recognized in the financial statement at the date of transition i.e. at 1st April, 2015, measured as per the previous GAAP and used that as its deemed cost as at the transition date.

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

Cost includes cost of acquisitions or construction including incidental expenses thereto and other attributable cost of bringing the assets to its working condition for the intended use and is net of recoverable duty /tax credits.

2.7 Intangible Assets

The group recognises the intangible assets according to Ind AS-38 which are stated at cost of acquisition net of accumulated amortization and impairment losses, if any.

Notes to the Consolidated Financial Statements For the year ended March 31, 2026 (Contd.)

In accordance with Ind AS-38, Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. Other intangible assets are amortised on straight line basis over the period in which it is expected to be available for use by the Group.

2.8 Intangible Assets under Development

Expenditure related to and incurred during development of Assets are included under "Intangible assets under development". The same will be transferred to the respective assets on its completion.

2.9 Depreciation and amortization

Depreciation & Amortisation on fixed assets and intangible assets is provided on straight line method (other than specified Plant & Machinery which are depreciated on written down value basis) based on useful life which is estimated by the management as equivalent to the useful life stated in schedule II to the Companies Act 2013 and is on pro-rata basis for addition and deletions. The useful life is reviewed at the end of each financial year. In case of Plant & Machinery, as per technical estimate (excluding Cranes & Earth Moving equipment), the useful life is more than as stated in schedule II. The estimated useful life of Property, Plant & Equipment and Intangible assets as mentioned below:

Particulars	Useful life
Buildings	30
Plant & Machinery	
- Earth Moving Equipment	15
- Piling Equipment	15
- Others	15
Office Equipment	05
Furniture & Fixtures	10
Vehicles	
- Two Wheelers	10
- Four Wheelers	08
Computers	03
Temporary Construction	03
Computer Software	06
Mine & Mineral	10

2.10 Cash & Cash Equivalents

Cash & cash equivalents comprise of cash at bank and cash-in-hand. The Group consider all highly liquid investments which must be readily convertible

to a known amount of cash and are subject to an insignificant risk of change in value with an original maturity of three months or less from date of purchase to be cash equivalent.

2.11 Service concession arrangements:

The group constructs or upgrades infrastructure (construction or up-gradation services) used to provide a public service and operates and also maintains that infrastructure (operation services) for the specified period of time.

Under Appendix C to Ind AS-115 – Service Concession Arrangements, these arrangements are accounted for based on the nature of the consideration.

The intangible asset model is used to the extent that the group receives a right (i.e. a franchisee) to charge users of the public service. The financial asset model is used when the group has an unconditional contractual right to receive cash or another financial asset from or at the direction of the grantor for the construction service. When the unconditional right to receive cash covers only part of the service, the two models are combined to account separately for each component.

The group manages concession arrangements which include constructing road, redevelopment and maintenance of industrial estate etc. for public use. These concession arrangements set out rights and obligations related to the infrastructure and the services to be provided.

The right consideration gives rise to an intangible asset and financial receivable and accordingly, both the intangible assets and financial receivable models are applied. Income from the concession arrangements earned under the intangible asset model consists of the (i) fair value of contract revenue, which is deemed to be fair value of consideration transferred to acquire the asset; and (ii) payments actually received from the users. The intangible assets is amortized over its expected useful life in a way that reflects the pattern in which the asset's economic benefits are consumed by the Group, starting from the date when the right to operate starts to be used. Based on these principles, the intangible asset is amortized in line with the actual usage of the specific public facility, with a maximum of the duration of the concession.

Financial receivable is recorded at a fair value of guaranteed residual value to be received at the end of the concession period. This receivable is subsequently measured at amortised cost.

Notes to the Consolidated Financial Statements For the year ended March 31, 2026 (Contd.)

Any assets carried under concession arrangements are derecognised on disposal or when no future economic benefits are expected from its future use or disposal or when the contractual rights to the financial assets expire.

In the case of Operation and Maintenance arrangements, Intangible asset is recognized at fair value of the concession fee payable over the arrangement period.

2.12 Revenue recognition

Construction Contracts

The Company recognised revenue when the company satisfies a performance obligation by transferring a promised good or service (i.e., assets) to a customer at an amount that reflects the consideration entitled in exchange for those goods or services. Revenue is measured at the amount of consideration which the company expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognized when it becomes unconditional.

Construction Contract: Performance obligation under the construction contracts satisfied over a period of time, since the Company creates an asset that the customer controls as the asset is created and the Company has an enforceable right to payment for performance completed to date if it meets the agreed specifications. With respect to the method for recognising revenue over time (i.e. the method for measuring progress towards complete satisfaction of a performance obligation), the Company has established certain criteria that are applied consistently for similar performance obligations. In this regard, the method chosen by the Company to measure the value of goods or services for which control is transferred to the customer over time is the output method based on surveys of performance completed to date as acknowledged by the client according to which revenue is recognised corresponding to the work performed and on the basis of the price allocated thereto. In cases where the work performed till the reporting date has not reached the milestone specified in the contract, the Company recognises revenue only to the extent that it is highly probable that the customer will acknowledge the same. This method is applied as the progress of the work performed can be measured during its performance on the basis of the contract. Under this

method, on a regular basis, the work completed under each contract is measured and the corresponding output is recognised as revenue.

Contract modifications are accounted for when additions, deletions or changes are approved either to the scope or price or both. Goods/services added that are not distinct are accounted for on a cumulative catch up basis. Goods / services those that are distinct are accounted for prospectively as a separate contract, if the additional goods/services are priced at the standalone selling price else as a termination of the existing contract and creation of a new contract. In cases where the additional work has been approved but the corresponding change in price has not been determined, the recognition of revenue is made for an amount with respect to which it is highly probable that a significant reversal will not occur.

If the consideration promised in a contract includes a variable amount, this amount is recognised only to the extent that it is highly probable that a significant reversal in the amount recognised will not occur.

Revenue related Claims/Bonus are accounted in the year in which awarded/settled or accepted by customer or there is a tangible evidence of acceptance received.

Other sales are accounted on dispatch of material and exclude applicable tax including Goods and Service tax and are net of discount.

Sale of Services (Operation and Maintenance contracts)

Revenue from providing operating and maintenance services is recognised in the accounting period in which the services are rendered. Invoices are issued according to contractual terms and are usually payable as per the credit period agreed with the customer.

Provision for future losses

Provision for future losses are recognised as soon as it becomes evident that the total costs expected to be incurred in a contract exceed the total expected revenue from that contract.

Contract balances

i) Contract assets

A contract asset is recognised for amount of work done but pending billing/acknowledgement by customer or amounts billed but payment is due on completion of future performance obligation, since it is conditionally receivable. The provision for Expected Credit Loss on contract assets is made on the same basis as financial assets.

Notes to the Consolidated Financial Statements For the year ended March 31, 2026 (Contd.)

ii) Trade receivables

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section financial instruments.

iii) Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received advance payments from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the consideration received.

2.13 Other Income

Interest Income

Interest income is generally recognized on a time proportion basis by considering the outstanding amount and effective interest rate.

In the absence of ascertainment with reasonable certainty the quantum of accruals in respect of claims recoverable, the same is accounted for on receipt basis. Income from investments is accounted for on accrual basis when the right to receive income is established.

For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument. Income from dividend is recognized when the right to received is established.

Dividend

Dividends are recognised in profit or loss only when:

- (i) The company's right to receive payment of the dividend is established;
- (ii) It is probable that the economic benefits associated with the dividend will flow to the entity; and
- (ii) The amount of dividend can be measured reliably.

Other Income

Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefit will flow to the group and the amount of income can be measured reliably.

2.14 Inventories

The stock of raw material, stores, spares and embedded goods and fuel is valued at lower of cost or net realizable value. Cost is computed on weighted average basis.

Work-In-Progress is calculated taking into accounts for the work done not qualify to be billed to the customer.

2.15 Leases

Where the group as a lessee

The Group's lease asset classes primarily consist of leases buildings. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (i) the contract involves the use of an identified asset (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Group has the right to direct the use of the asset. At the date of commencement of the lease, the Group recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the

Notes to the Consolidated Financial Statements For the year ended March 31, 2026 (Contd.)

commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Where the group as a lessor

Leases for which the Group is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

Effective from April 01, 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 01, 2019 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use asset at its carrying amount as if the

standard had been applied since the commencement date of the lease, but discounted at the Company's incremental borrowing rate at the date of initial application. Comparatives as at and for the year ended March 31, 2019 have not been retrospectively adjusted and therefore will continue to be reported under the accounting policies included as part of our Annual Report for year ended March 31, 2019.

2.16 Employee benefits

Short term:

All employee benefits payable wholly within twelve months rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives etc., and the expected cost of bonus, ex-gratia are recognised during the period in which the employee renders related service.

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered the service entitling them to the contribution.

Long term:

Provident fund: The contribution to provident fund is in the nature of defined contribution plan. The Group makes contribution to statutory provident fund in accordance with the Employees Provident Fund and Miscellaneous Provisions Act, 1952. The contribution paid or payable is recognized as an expense in the period in which services are rendered.

Gratuity: The cost is determined using the projected unit credit method with actuarial valuation being carried at cash at each Balance Sheet date by an independent actuary. The retirement benefits obligation recognized in the Balance Sheet represent the present value of defined benefit obligation as adjusted for recognized past service cost

Actuarial gains and losses are recognized in full in the other comprehensive income for the period in which they occur.

Other long term employee benefits:

The cost of long term employee benefits is determined using project unit credit method and is present value of related obligation, determined by actuarial valuation done on Balance Sheet date by an independent actuary. The past service cost and actuarial gain & losses are recognised immediately in the Statement of Profit & Loss in which they occur.

Notes to the Consolidated Financial Statements For the year ended March 31, 2026 (Contd.)

2.17 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

2.18 Segment reporting

The Chief Operational Decision maker monitors the operating results of its business segments separately for the purpose of decision-making about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements.

The operating segments have been identified on the basis of the nature of products / services.

1. Segment revenue includes sales and other income directly identifiable with / allocable to the segment including inter-segment revenue.
2. Expenses which are directly identifiable with / allocable to segment are considered for determining the segment result. Expenses which relate to the Group as a whole and not allocable to any segment are included under un-allocable expenditure.
3. Income which relates to the group as a whole and not allocable to segments is included in un-allocable income.
4. Segment results include margins on inter-segment and sales which are reduced in arriving at the profit before tax of the Group.
5. Segment assets and liabilities include those directly identifiable with the respective segments. Un-allocable assets and liabilities represent the assets and liabilities that relate to the Group as a whole and not allocable to any segment.

2.19 Earnings per share:

Basic earnings per equity share are computed by dividing the net profit attributable to the equity shareholders of the Group by the weighted average number of equity shares outstanding during the period.

Diluted earnings per equity share are computed by dividing the net profit attributable to the equity shareholders of the Group by the weighted average

number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The weighted average number of equity shares outstanding during the period is adjusted for events of bonus issue, buy back of shares, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

2.20 Taxation

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company operates and generates taxable income. Current income tax is charged at the end of reporting period to profit & loss.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and tax liabilities are offset where the company has a legal enforceable right to offset and intends either to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Deferred Tax

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at reporting date.

Deferred tax assets and liabilities are offset when there is legal enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authorities.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to

Notes to the Consolidated Financial Statements For the year ended March 31, 2026 (Contd.)

be recovered or settled. Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity."

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Unrecognized Deferred Tax Assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the Deferred Tax Asset to be recovered.

Minimum Alternate Tax (MAT) paid as per Indian Income Tax Act 1961, is in the nature of unused tax credit which can be carried forward and utilized when the company will pay tax under Normal provision of act during the specified period. The Company reviews the same at each Balance Sheet date and writes down the amount of MAT Credit Entitlement to the extent there is no convincing evidence to the effect that the company will pay Income tax higher than MAT during the specified year.

2.21 Impairment of financial assets

The group recognizes loss allowances using the Expected Credit Loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL.

For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in the statement of profit or loss.

2.22 Impairment of non-financial assets

Intangible assets and property, plant and equipments are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost of disposal and the

value-in-use) is determined on an Individual asset basis unless the asset does not generate cash flows that are largely Independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset.

An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

2.23 Claims & counter claims

Claims and counter claims including under arbitrations are accounted for on their final Settlement/ award. Contract related claims are recognized when there is a reasonable certainty.

2.24 Provisions, contingent liabilities and assets

Provisions

Provisions are recognised when the Group has present obligations (legal or constructive) as a result of a past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made for the amount of the obligation.

The expense relating to a provision is presented in the statement of profit and loss.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, wherever appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. Provisions are reviewed at each balance sheet date.

Contingent liabilities and assets

Contingent liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events, not wholly within the control of the Group or

Notes to the Consolidated Financial Statements For the year ended March 31, 2026 (Contd.)

where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimates of the obligation cannot be made.

Contingent assets are disclosed where an inflow of economic benefit is probable. An entity shall not recognise the contingent assets unless the recovery is virtually certain.

2.25 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition

The group recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are classified not at fair value through profit or loss are added to or deducted from the fair value on initial recognition.

Subsequent measurement

A. Financial assets

For the purpose of subsequent measurement, financial assets are classified in three broad categories:

(i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

Investment in subsidiaries, associates and joint ventures

On initial recognition, these investments are recognised at fair value plus any directly attributable transaction cost. Subsequently, they are measured at cost in accordance with Ind AS 27 - 'Separate Financial Statements'.

B. Equity investments (other than investments in subsidiaries, associates and joint venture)

All equity investments falling within the scope of Ind-AS 109 are mandatorily measured at Fair Value through Profit and Loss (FVTPL) with all fair value changes recognized in the Statement of Profit and Loss. The Group has an irrevocable option of designating certain equity instruments as FVOCI. Option of designating instruments as FVOCI is done on an instrument-by-instrument basis. The classification made on initial recognition is irrevocable. If the Group decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument are recognized in Statement of Other Comprehensive Income (SOI). Amounts from SOI are not subsequently transferred to profit and loss, even on sale of investment.

C. Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest rate method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition:-

A. Financial assets

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognized when:

- (i) The contractual right to receive cash from the assets have expired, or
- (ii) The Group has transferred its right to receive cash from the financial assets and substantially all the risks and rewards of ownership of the asset to another party.

Notes to the Consolidated Financial Statements For the year ended March 31, 2026 (Contd.)

B. Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Reclassification of financial assets and financial liabilities

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities.

2.26 Discontinued operations and non-current assets held for sale:

Discontinued operation is a component of the Company that has been disposed of or classified as held for sale and represents a major line of business.

Non-current assets and disposal groups are classified as held for sale if their carrying amount is intended to be recovered principally through a sale (rather than through continuing use) when the assets (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such assets (or disposal group) and the sale is highly probable and is expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets and disposal groups classified as held for sale are measured at lower of their carrying amount and fair value less costs to sell.

2.27 Foreign currencies

i. Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount, the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

ii. Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date.

iii. Exchange differences:

The Group accounts for exchange differences arising on translation/ settlement of foreign currency monetary items by recognizing the exchange differences as an income or expenses in the period in which they arise.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

2.28 Fair value measurement

The group measures certain financial instruments at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Entity uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Notes to the Consolidated Financial Statements For the year ended March 31, 2026 (Contd.)

For the purpose of fair value disclosures, the Group has determined classes of assets & liabilities on the basis of the nature, characteristics and the risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.29 Cash flow statement

Cash flow are reported using indirect method whereby a profit before tax is adjusted for the effect for the effects of transaction of non-cash nature. The cash flow from operating, investing and financing activities of the Company are segregated.

2.30 Recent Pronouncements

On May 09, 2025, Ministry of Corporate Affairs (MCA) notified the amendments to Ind AS 21- Effects of changes in Foreign Exchange Rates. These amendments aim to provide clearer guidance on assessing currency exchangeability and estimating exchange rates when currencies are not readily exchangeable. The amendments are effective for annual periods beginning on or after April 01, 2025. The company has evaluated the said amendment and concluded that the same doesn't have any material impact on its financial statement.

On August 13, 2025, MCA notified the following amendments to :

- 1) Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instruments- Disclosures, applicable w.e.f April 1, 2025 - The amendment in Ind AS 7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.
- 2) Amendment to Ind AS 1 'Presentation of Financial Statements'- Classification of Liabilities as current or non-current and non-current liabilities with covenants. The amendment includes specific provisions that will take effect for reporting periods beginning on or after 1 April 2026, retrospectively, as outlined below:
 - a) Breach of material covenant for long-term loan arrangement on or before end of reporting period with effect that liability becomes payable on demand as on reporting date, then it shall be classified as current liability, if lender agreed after reporting period

and before approval of financial statements to not demand payment as a consequence of breach.

- b) Classify as non-current liability, if lender agreed by end of reporting period to provide grace period ending at least 12 months after reporting period within which entity can rectify the breach provided lender does not demand immediate repayment.
- c) Disclose information about the timing of settlement to understand the impact of the liability on the financial statements.

The Company does not expect this amendment to have an impact on its operations or financial statements.

- 3) Amendments to Ind AS 12 Income Taxes in response to the OECD's BEPS Pillar Two rules and include:
 - a) A mandatory temporary exception to the recognition and disclosure of deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules; and
 - b) Disclosure requirements for affected entities to help users of the financial statements better understand an entity's exposure to Pillar Two income taxes arising from that legislation, particularly before its effective date.

The mandatory temporary exception – the use of which is required to be disclosed – applies immediately. The remaining disclosure requirements apply for annual reporting periods beginning on or after April 01, 2025, but not for any interim periods ending on or before March 31, 2026.

The amendments had no impact on the Company's financial statements as the Company is not in scope of the Pillar Two model rules.

NOTE 3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of consolidated financial statements in conformity with Indian Accounting Standards (Ind AS) requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosure of contingent liabilities at the date of financial statements and results of operations during the reporting period. The Management believes that the estimates used in preparation of financial statements are prudent and reasonable. Differences between actual results and estimates are recognized in the year in which the results are shown /materialized.

Notes to the Consolidated Financial Statements For the year ended March 31, 2026 (Contd.)

i) **Estimated useful life of intangible assets and property, plant and equipment**

The group assesses the remaining useful lives of Intangible assets and property, plant and equipment on the basis of internal technical estimates. Management believes that assigned useful lives are reasonable.

ii) **Income taxes:**

Deferred tax assets are recognised for the unused tax credit to the extent that it is probable that taxable profits will be available against which the losses will be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits.

iii) **Defined benefit plans and other long term benefits:**

The cost of the defined benefit plan and other long term benefit and their present value are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discounting rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The most sensitive is discount rate. Future salary increases and gratuity increases are based on expected future inflation rates.

iv) **Contingent liabilities:**

Management judgment is required for estimating the possible outflow of resources, in respect of contingencies/claim/litigations against the Group as

it is not possible to predict the outcome of pending matters with accuracy. The management believes the estimates are reasonable and prudent.

v) **Revenue recognition:**

The Group uses the stage of completion method using survey method and /or on completion of physical proportion of the contract work to measure progress towards completion in respect of construction contracts. This method is followed when reasonably dependable estimates of costs applicable to various elements of the contract can be made. Key factors that are reviewed in estimating the future costs to complete include estimates of future labour costs and productivity efficiencies. Because the financial reporting of these contracts depends on estimates that are assessed continually during the term of these contracts, recognized revenue and profit are subject to revisions as the contract progresses to completion. When estimates indicate that a loss will be incurred, the loss is provided for in the period in which the loss becomes probable.

vi) **Provision for doubtful receivables and contract assets:**

In assessing the recoverability of the trade receivables and contracts assets, management's judgement involves consideration of aging status, evaluation of litigations and the likelihood of collection based on the terms of the contract.

vii) **Estimation of net realisable value of inventories:**

Inventories are stated at the lower of cost and Fair value. In estimating the net realisable value / Fair value of Inventories the Group makes an estimate of future selling prices and costs necessary to make the sale.

42.8 Operating Segment Information

Segments have been identified in accordance with Ind AS-108 on operating segments considering the risk or return profile of the business. As required under Ind AS 108, the Chairman and Managing directors of the Company have been identified as The Chief Operating Decision Maker (CODM). The Chief Operating Decision Maker also monitors the operating results as three segments for the purpose of making decisions about resource allocation and performance assessment and hence, there are no additional disclosures to be provided other than those already provided in the financial statements.

The Company's operations consist of three reportable segments under Ind AS-108 'Segment Reporting', which are as follows:

- i "Construction & Contract related activity", includes engineering, procurement and construction activity of the infra projects;
- ii "Water EPC", includes supply of water under water agreement
- iii "Toll & Annuity", includes BOT projects/OMT/ Maintenance of narela industrial park.

The Group mainly operates within India, so there is no requirement of disclosing the secondary segment i.e. geographical segment.

The expenses and Income which are not directly allocated between the segment are shown as unallocated expenses or Income.

Details of business segment information is given below:

Notes on segment information :-

Business segments

Based on the "management approach" as defined in Ind AS-108 - Operating Segments, the Management evaluates the Group's performance and allocates resources based on analysis of various performance indicators by business segments. Accordingly, information has been presented along with these business segments. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments.

(i) Fair Value Hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (A) recognised and measured at fair value and (B) measured at amortised cost and for which fair values are disclosed in financial statements. To provide an indication about the reliability of inputs used in determining fair values, the group has classified its financial instruments into three levels prescribed under the accounting standards.

The following table provides the fair value measurement hierarchy of Group's asset and liabilities, grouped into Level 1 to Level 3 as described below :-

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

(ii) Valuation techniques used to determine Fair value

The Group maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Specific valuation technique used to value financial instrument includes:

- > the use of quoted market prices or dealer quotes for similar financial instruments.
- > the fair value of financial assets and liabilities at amortised cost is determined using discounted cash flow analysis.

The following method and assumptions are used to estimate fair values:

The Carrying amounts of trade receivables, trade payables, capital creditors, cash and cash equivalents, short term deposits etc. are considered to be their fair value, due to their short term nature.

Long-term fixed-rate and variable-rate receivables / borrowings are evaluated by the Group based on parameters such as interest rates, specific country risk factors, credit risk and other risk characteristics. For borrowing fair value is determined by using the discounted cash flow (DCF) method using discount rate that reflects the issuer's borrowings rate. Risk of non-performance for the Group is considered to be insignificant in valuation.

Financial assets and liabilities measured at fair value and the carrying amount is the fair value.

Notes to the Consolidated Financial Statements For the year ended March 31, 2026 (Contd.)

42.10 Financial Risk Management

The Group's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to manage finances for the Group's operations. The Group principal financial asset includes loan, trade and other receivables, and cash and short-term deposits that arise directly from its operations.

The Group's activities are exposed to market risk, credit risk and liquidity risk.

I. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity price risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments, and derivative financial instruments.

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks.

(a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. In order to optimize the Group's position with regard to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of the fixed rate and floating rate financial instruments in its total portfolio.

(i) The exposure of group borrowings to interest rate changes at the end of the year are as follows:

(₹ In Lakhs)

₹	- 50	- 50	2,447.58	4,541.94

(b) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group does not operates internationally and as the Group has not obtained any foreign currency loans but import certain machineries and have foreign currency trade payables outstanding and is therefore, exchange to foreign exchange risk.

The Group does not hedges its exposure of foreign currency risk.

	5% increase	5% decrease	5% increase	5% decrease
Euros (in ₹)	-	-	-	-
Dollars (In ₹)	-	-	-	-

(c) Price Risk

The Group exposure to equity securities price risk arises from the investments held by Group and classified in the balance sheet at fair value through profit and loss. The Group does not have any investments whose value will be based on the market observable input at the current year end and previous year which are held for trading. Therefore no sensitivity is provided.

II. Credit risk

Credit risk arises from the possibility that the counterparty will default on its contractual obligations resulting in financial loss to the Group. To manage this, the Group periodically assesses the financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable.

The Group considers the probability of default upon initial recognition of assets and whether there has been a significant increase in credit risk on an on going basis through each reporting period. To assess whether there is significant increase in credit risk, it considers reasonable and supportive forward looking information such as:

- Actual or expected significant adverse changes in business.
- Actual or expected significant changes in the operating results of the counterparty.
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligation
- Significant increase in credit risk an other financial instruments of the same counterparty
- significant changes in the value of collateral supporting the obligation or in the quality of third party guarantees or credit enhancements

The Group major exposure is from trade receivables, which are unsecured and derived from external customer Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units, quoted securities and certificates of deposit which are funds deposited at a bank for a specified time period.

The Group uses a provisional matrix to determine impairment loss on portfolio of its trade receivable. The provision matrix is based on its historically observed default data over the expected life of the trade receivable and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in forward-looking estimates are analysed. In case of probability of non collection, default rate is 100%.

III. Liquidity Risk

Liquidity risk is defined as the risk that Group will not be able to settle or meet its obligation on time or at a reasonable price. The Group's objective is to at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group's management is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risk are overseen by senior management. Management monitors the Group's net liquidity position through rolling, forecast on the basis of expected cash flows.

42.11 Capital Management

(a) Risk Management

The primary objective of the Group's Capital Management is to maximize the shareholder value and also maintain an optimal capital structure to reduce cost of capital. The principle source of funding of the group has been and is expected to continue to be, cash generated from its operation supplemented by funding from bank borrowing and the capital market. The group is not subject to any externally imposed capital requirements.

The group regularly considers other financing opportunities to diversify its debt profile, reduce interest cost.

The group monitors capital on the basis of following gearing ratio, which is net debt divided by total capital.

(₹ In Lakhs Except Ratio)

Particulars	As at March 31, 2026	As at March 31, 2025
