Big relief package soon for 45-GW stalled RE projects

SAURAV ANAND
New Delhi, May 27

THE CENTRE IS considering a one-time relief package for nearly 45 gigawatts (GW) of renewable energy (RE) projects awaiting power purchase agreements (PPAs), with the Ministry of New and Renewable Energy (MNRE) proposing transmission charge waivers, battery storage support, regulatory relaxations and flexible connectivity norms to revive the stalled green energy capacity.

One of the key proposals is a one-time, 100% waiver of interstate transmission system (ISTS) charges for all pending projects if Power Supply Agreements (PSAs) or PPAs are signed within three months of the package's notification. A second option under consideration is waiving of interstate transmission charges as per regulations, plus an additional 25% waiver.

The package also mandates deemed Renewable Purchase Obligation (RPO) and Renewable Consumption Obligation (RCO) compliance for discoms from the date of signing of PPAs if agreements are executed within three months. To reduce regulatory delays, deemed tariff adoption will be facilitated within 45 days if state regulators take no action.

The move is aimed at salvaging these green energy projects for which Letters of Award (LoAs) have been issued but PPAs

REVIVING GREEN INITIATIVES

Among key proposals is one-time 100% waiver of ISTS charges for all pending projects if PSAs or PPAs are signed within three months of the package's notification

Waiving inter-state transmission charges as per regulations, plus an additional 25% waiver also proposed

Projects delayed due to non-readiness of transmission infra may continue to remain eligible for ISTS waiver benefits

are yet to be signed.

Power developers enter into PPAs with procurers, who turn sign power supply agreements (PSAs) with electricity distribution companies (discoms).

The proposed package was prepared after a meeting with renewable energy developers held on May 6 under the chairmanship of the Adviser to the Prime Minister and attended by the Secretaries of the Ministries of Power and MNRE.

"Adviser to PM suggested that MNRE may prepare a one-time relief package specific to such stranded renewable energy projects," the ministry said in a note reviewed by FE.

The draft package groups

the proposed measures into two broad categories.

"Demand-side facilitation measures aimed at making PSA execution more attractive to discoms and end-procurers" and "supply-side resolution options providing developers with clearly defined pathways to resolve their LoAs status." All measures are proposed without direct fiscal or subsidy support from the Central Government," the note stated.

The ministry also proposed that projects delayed because of non-readiness of transmission infrastructure may continue to remain eligible for ISTS waiver benefits based on the original scheduled commissioning date

(SCD). Another proposal allows projects tendered under ISTS-connected frameworks to connect to state transmission utility (STU) networks, where power is intended to be consumed within the same state.

To address discom concerns regarding grid balancing and non-solar hour supply, the package proposes allowing stand-alone solar projects to integrate two-hour Battery Energy Storage Systems (BESS) under Section 62 tariffs.

"Discoms' reluctance to sign PSAs stems from concerns about the ability of vanilla solar projects to fulfil their system requirements," the proposal noted. "Enabling 2 hours BESS with the Section 62 tariff can address such operational concerns without any change in the renewable energy project configuration or tariff."

In several cases, discoms are reluctant to procure power through the ISTS route due to additional transmission charges and system costs," the proposal said, adding that STU connectivity could "reduce landed power cost, improve transmission utilisation efficiency, and make pending renewable energy procurement more commercially attractive for states."

"Regulatory delay/denial in SERC tariff approval is a frequently reported source of dependency in PSA execution," the note stated. "Deemed tariff adoption will directly reduce regulatory processing time."

Govt approves extension of SARTHAK PDS with outlay of ₹25,530 crore

THE GOVERNMENT ON Wednesday approved the continuation of the Scheme for Assistance in Ration Transport and Handling of Foodgrains in PDS (SARTHAK PDS) with a total outlay of ₹25,530 crore.

The Cabinet Committee on Economic Affairs (CCEA), chaired by Prime Minister Narendra Modi, cleared the extension of the scheme for the next five years, aligned with the 16th Finance Commission award period.

The CCEA also approved revised norms for Central assistance to states and Union Territories for intra-state movement and handling of foodgrains, along with FPS dealers' margins, while continuing the existing funding pattern.

SARTHAK PDS is conceived as an umbrella scheme that integrates two ongoing initiatives — assistance to states for intra-state movement of foodgrains and FPS dealers' margin under the National Food Security Act (NFSA), and the Scheme for Modernisation and Reforms through Technology in Public Distribution System (SMART PDS).

The scheme aims to provide assured financial support for intra-state transportation, handling of foodgrains and dealer margins, while establishing a unified, citizen-centric, intelligent and interoperable Public Distribution System architecture.

It seeks to ensure effective last-mile delivery, minimise leakages and strengthen the implementation of the National Food Security Act, 2013.

Coal gasification roadshow today

PRESS TRUST OF INDIA
New Delhi, May 27

THE GOVERNMENT WILL hold a roadshow on Thursday to promote its newly launched ₹37,500 crore incentive scheme to promote surface coal and lignite gasification projects.

The Ministry of Coal is gearing up to organise a roadshow tomorrow to promote the scheme for promotion of surface coal/lignite gasification projects, launched with a financial outlay of ₹37,500 crore, an official statement said.

The initiative marks a significant step towards promoting coal gasification as a cleaner and value-added pathway for the efficient utilisation of the country's vast coal and lignite resources.
