**NOTICE CONVENING THE MEETING OF THE SECURED CREDITORS OF
POLYCAB INDIA LIMITED**

To,

All the Secured Creditors of Polycab India Limited ('Applicant Company / Transferee Company'):

NOTICE is hereby given that by an order dated February 8, 2023 ("**Order**"), the Hon'ble National Company Law Tribunal Bench, at Ahmedabad ("**NCLT**") has, *inter alia*, directed a meeting to be held of the secured creditors of Polycab India Limited (hereinafter referred to as the "**Applicant Company 1**" or the "**Transferee Company**", as the context may admit) for the purpose of considering, and if thought fit, approving with or without modification(s), the arrangement embodied in the Scheme of Amalgamation of Silvan Innovation Labs Private Limited (hereinafter referred to as the "**Applicant Company 2**" or the "**Transferor Company**" as the context may admit) with the **Transferee Company** ("**Scheme**") pursuant to the provisions of Sections 230-232 of the Companies Act, 2013 and the other applicable provisions thereof and applicable rules thereunder.

In pursuance of the Order and as directed therein further, this Notice is hereby given that a meeting of the Secured Creditors of the Transferee Company will be held on March 17, 2023 at 11:00 a.m. IST (1100 hours) through Video Conferencing ("**VC**")/Other Audio-Visual Means ("**OAVM**") ("**Meeting**") in compliance with the applicable provisions of the Companies Act, 2013 ("**Companies Act**"); and General Circulars No. 14/2020 dated April 8, 2020; No. 17/2020 dated April 13, 2020; No. 20/2020 dated May 5, 2020; No. 22/2020 dated June 15, 2020; No. 33/2020 dated September 28, 2020; No. 39/2020 dated December 31, 2020; No. 10/2021 dated June 23, 2021; No. 20/2021 dated December 8, 2021; No.21/2021 dated December 14, 2021; No. 2/2022 dated May 5, 2022 and No. 11/2022 dated December 28, 2022 issued by the Ministry of Corporate Affairs, Government of India (collectively referred to as the "**MCA Circulars**"), and the said Secured Creditors are requested to attend the Meeting. At the Meeting, the following resolution will be considered and if thought fit, be passed, with or without modification(s):

"RESOLVED THAT pursuant to the provisions of Sections 230 - 232 and other applicable provisions of the Companies Act, 2013, the Companies (Compromises, Arrangements and Amalgamations) Rules, 2016 and any other rules, circulars and notifications made thereunder (including any statutory modification or re-enactment thereof) as may be applicable, Sections 2(1B) of the Income-tax Act, 1961, the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (including any statutory modification(s) or re-enactment thereof, for the time being in force), the Securities and Exchange Board of India Master Circular No. SEBI/HO/CFD/DIL/1/CIR/P/2021/0000000665 dated 23 November 2021 and duly amended from time to time, and subject to the provisions of the memorandum of association and articles of association of Polycab India Limited ("**Company**") and

subject to the approval of Hon'ble National Company Law Tribunal, Ahmedabad Bench ("NCLT") and subject to such other approvals, permissions and sanctions of regulatory and other authorities or tribunals, as may be necessary, and subject to such conditions and modifications as may be prescribed or imposed by the NCLT or by any regulatory or other authorities, while granting such consents, approvals and permissions, which may be agreed to by the Board of Directors of the Company (hereinafter referred to as the "Board", which term shall be deemed to mean and include one or more committee(s) constituted/to be constituted by the Board or any person(s) which the Board may nominate to exercise its powers including the powers conferred by this resolution), the arrangement embodied in the Scheme of Amalgamation of Silvan Innovation Labs Private Limited with Polycab India Limited ("Scheme") as per the draft enclosed to this Notice, be and is hereby approved.

RESOLVED FURTHER THAT *the Board be and is hereby authorized to do all such acts, deeds, matters and things, as it may, in its absolute discretion deem requisite, desirable, appropriate or necessary to give effect to the above resolution and effectively implement the arrangement embodied in the Scheme and to accept such modifications, amendments, limitations and/or conditions, if any, which may be required and/or imposed by the NCLT or tribunals while sanctioning the arrangement embodied in the Scheme or by any authorities under law, or as may be required for the purpose of resolving any questions or doubts or difficulties that may arise or meaning or interpretation of the Scheme or implementation thereof or in any matter whatsoever connected therewith, including passing of such accounting entries and /or making such adjustments in the books of accounts as considered necessary in giving effect to the Scheme, as the Board may deem fit and proper."*

Rationale for the Scheme

15. The rationale for the Scheme is as under:
1. The nature of business carried on by the Transferor Company is complimentary to the business carried on by the Transferee Company.
 2. The Transferor Company is a wholly owned subsidiary of the Transferee Company and it was acquired with the purpose of building capabilities in the area of Internet of Things (IoT) based home solutions and setting up an integrated platform for appliances to talk with each other.
 3. The proposed Amalgamation would ensure transformation of the Transferee Company from inter alia an electrical manufacturing company to a technology focused solutions provider with inhouse research and

development for IoT based products and will boost the FMEG business of the Transferee Company.

4. The proposed Amalgamation will result in the following benefits to the Companies:

- 4.1 **Consolidation of Internet of Things (IoT) based home and office automation Products:** The proposed Amalgamation will enable the technology of the Transferor Company to be consolidated with the product range of the Transferee Company.

- 4.2 **Synergised Operations:** The proposed Amalgamation will result in synergy benefits arising out of product and technology consolidation thereby reducing costs and increasing operational efficiencies.

- 4.3 **Technology and R&D integration:** The proposed Amalgamation will likely result in optimized technology transfer, reduced R&D costs, sharing of best practices and cross-functional learning and development. IoT Automation can be achieved across varied product categories plants of the Transferor Company, by using the Transferee Company's information technology applications and systems.

- 4.4 **Optimisation of resource utilisation:** The proposed Amalgamation will result in greater economies of scale, reduction in overheads and other expenses and improvement in various operating parameters. The proposed Amalgamation will result in utilisation of research and development expertise across various FMEG products of the Transferee Company.

- 4.5 **Consolidation of compliances:** The proposed Amalgamation will lead to reduction in the multiplicities and duplicities of statutory, legal and regulatory compliances. The time and efforts for consolidation of financials at group level would stand reduced.

- 4.6 **Improved customer interaction, service and satisfaction:** The proposed Amalgamation will provide easier accessibility to customers of all products of both companies and would make it easier to improve customer satisfaction and service.

- 4.7 **Rationalization of apportioning:** The proposed Amalgamation will ensure rationalizing apportioning of various costs relating to management, administrative and compliance.

- 4.8 **Simplifying corporate structure:** The proposed Amalgamation will help in streamlining and simplifying the operating and corporate structure of the Transferee Company.

- 4.9 **Proposed Amalgamation not prejudicial to shareholders:** The Transferor Company is wholly owned subsidiary of the Transferee Company and all the shares of the Transferor Company are held by the Transferee Company jointly nominee holder. The Scheme envisages transfer of the Undertaking of the Transferor Company to the Transferee Company. Accordingly, the Scheme is not prejudicial to the interest of the shareholders of the Transferor Company.

- 4.10 **Scheme is in best interest of shareholders and creditors:** The Scheme is in the best interests of the shareholders, employees and the creditors of the Companies.
- 4.11 **Scheme to benefit stakeholders:** The Scheme does not have any adverse effect on either the shareholders, the employees or the creditors of the companies. The Boards of Directors of the companies believe that the Scheme would ensure benefit to all the stakeholders and will enhance the value for all shareholders / promoters.

Relationship among Companies who are parties to the Scheme

16. The Transferor Company is the wholly owned subsidiary of the Transferee Company. The entire paid-up equity share capital of each of the Transferor company is held by the Transferee Company and its nominees.

Corporate Approvals and action taken in relation to the Scheme

17. The Scheme was placed before the Board of Directors of the Transferor Company at its meeting held on October 12, 2022. The Board of Directors of the Transferor Company approved the Scheme at its meeting held on October 12, 2022. The meeting of the Board of Directors of the Transferor Company, held on October 12, 2022, was attended by the 2 (Two) directors (namely, Mr. Bindinavile Seshadri Praveen and Mr. Ajay Gupta, in person.) None of the directors of the Transferor Company who attended the meeting voted against the Scheme. Thus, the Scheme was approved unanimously by the directors who attended and voted at the meeting.
18. The Board of Directors of the Transferee Company approved the Scheme at its meeting held on October 18, 2022. B. PREAMBLE

1. This Scheme of Amalgamation (hereinafter referred to as the “Scheme”) is presented under Sections 230 to 232 of the Companies Act, 2013 and other applicable provisions of the Companies Act, 2013 (including any statutory modifications and re-enactments thereof) and the rules and regulations made thereunder, as may be applicable, and in compliance with Section 2(1B) of the Income-tax Act, 1961 for Amalgamation of Transferor Company and Transferee Company on a going concern basis.

2. The Scheme also provides for various other matters consequential to Amalgamation or otherwise integrally connected herewith.

C. RATIONALE OF THE SCHEME

1. The nature of business carried on by the Transferor Company is complimentary to the business carried on by the Transferee Company.
2. The Transferor Company is a wholly owned subsidiary of the Transferee Company and it was acquired with the purpose of building capabilities in the area of Internet of Things (IoT) based home solutions and setting up an integrated platform for appliances to talk with each other.
3. The proposed Amalgamation would ensure transformation of the Transferee Company from inter alia an electrical manufacturing company to a technology focused solutions provider with inhouse research and development for IoT based products and will boost the FMEG business of the Transferee Company.
4. The proposed Amalgamation will result in the following benefits to the Companies:
 - 4.1 **Consolidation of Internet of Things (IoT) based home and office automation Products:** The proposed Amalgamation will enable the technology of the Transferor Company to be consolidated with the product range of the Transferee Company.
 - 4.2 **Synergised Operations:** The proposed Amalgamation will result in synergy benefits arising out of product and technology consolidation thereby reducing costs and increasing operational efficiencies.
 - 4.3 **Technology and R&D integration:** The proposed Amalgamation will likely result in optimized technology transfer, reduced R&D costs, sharing of best practices and cross-functional learning and development. IoT Automation can be achieved across varied product categories plants of the Transferor Company, by using the Transferee Company's information technology applications and systems.

- 4.4 **Optimisation of resource utilisation:** The proposed Amalgamation will result in greater economies of scale, reduction in overheads and other expenses and improvement in various operating parameters. The proposed Amalgamation will result in utilisation of research and development expertise across various FMEG products of the Transferee Company.
- 4.5 **Consolidation of compliances:** The proposed Amalgamation will lead to reduction in the multiplicities and duplicities of statutory, legal and regulatory compliances. The time and efforts for consolidation of financials at group level would stand reduced.
- 4.6 **Improved customer interaction, service and satisfaction:** The proposed Amalgamation will provide easier accessibility to customers of all products of both companies and would make it easier to improve customer satisfaction and service.
- 4.7 **Rationalization of apportioning:** The proposed Amalgamation will ensure rationalizing apportioning of various costs relating to management, administrative and compliance.
- 4.8 **Simplifying corporate structure:** The proposed Amalgamation will help in streamlining and simplifying the operating and corporate structure of the Transferee Company.
- 4.9 **Proposed Amalgamation not prejudicial to shareholders:** The Transferor Company is wholly owned subsidiary of the Transferee Company and all the shares of the Transferor Company are held by the Transferee Company jointly nominee holder. The Scheme envisages transfer of the Undertaking of the Transferor Company to the Transferee Company. Accordingly, the Scheme is not prejudicial to the interest of the shareholders of the Transferor Company.
- 4.10 **Scheme is in best interest of shareholders and creditors:** The Scheme is in the best interests of the shareholders, employees and the creditors of the Companies.

4.11 **Scheme to benefit stakeholders:** The Scheme does not have any adverse effect on either the shareholders, the employees or the creditors of the companies. The Boards of Directors of the companies believe that the Scheme would ensure benefit to all the stakeholders and will enhance the value for all shareholders / promoters.

PART II

AMALGAMATION OF THE TRANSFEROR COMPANY WITH THE TRANSFEREE COMPANY AND OTHER RELATED MATTERS

5. TRANSFER AMALGAMATION AND VESTING OF ASSETS AND LIABILITIES AND ENTIRE BUSINESS OF THE TRANSFEROR COMPANY

5.1 With effect from the Appointed Date, and subject to the provisions of this Scheme and pursuant to Section 232 of the Act, the Transferor Company shall stand amalgamated with the Transferee Company as a going concern and all assets, liabilities, contracts, arrangements, employees, Permits, licences, records, approvals, privileges, easements, advantages, benefits, intellectual property rights, etc. of the Transferor Company shall, without any further act, instrument or deed, stand transferred to and vested in or be deemed to have been transferred to and vested in the Transferee Company, so as to become as and from the Appointed Date, the assets, liabilities, contracts, arrangements, employees, Permits, licences, records, approvals, etc. of the Transferee Company by virtue of, and in the manner provided in this Scheme.

5.2 Without prejudice to the generality of the above and to the extent applicable, unless otherwise stated herein, with effect from the Appointed Date:

5.2.1 all the assets of the Transferor Company that are movable in nature or are otherwise capable of being transferred by physical or manual delivery or by paying over or endorsement and/ or delivery, shall be so transferred and deemed to have been so transferred by the Transferor Company by operation of law and shall be deemed to have been handed over by physical delivery or endorsement or presentment with the intent of vesting such assets with the Transferee Company as on the Appointed Date without the need for any further act or execution of a separate instrument;

5.2.2 the assets of the Transferor Company, other than those referred

to in Clause 5.2.1 above, including all rights, title and interests in the agreements (including agreements for lease or license of the properties), investment in shares of any body corporate, fixed deposits, mutual funds, bonds and any other securities, actionable claims, sundry debtors, outstanding loans and advances, if any, recoverable in cash or in kind or for value to be received, cash and bank balances, earnest moneys and deposits, if any, with government, semi-government, local and other authorities and bodies, customers or other persons or companies, whether or not the same is held in the name of the Transferor Company, shall, without the need for any further act, instrument or deed, be transferred to and vested in and be deemed to be transferred to and vested in the Transferee Company, with effect from the Appointed Date by operation of law or as transmission, as the case may be, in favour of Transferee Company. With regard to the licenses of the properties, the Transferee Company will enter into novation agreements, if it is so required by Applicable Law;

- 5.2.3 The Transferee Company, may issue notices in such form as the Transferee Company deems fit and proper stating that pursuant to the Tribunal having sanctioned this Scheme of Amalgamation of the Transferor Company with the Transferee Company under Sections 230 to 232 of the Companies Act 2013, the relevant debt, loan, advance, bank balance or other asset, be paid or made good or held on account of the Transferee Company, as the person entitled thereto, to the end and intent that the right of the Transferor Company to recover or realize the same stands transferred and assigned to the Transferee Company and that appropriate entries should be passed in their respective books to record the aforesaid changes without the need for any further act or execution of a separate instrument;
- 5.2.4 all the immovable properties (including but not limited to the land, buildings, offices, factories, sites, tenancy rights related thereto, and other immovable property, including accretions and appurtenances), whether or not included in the books of the

Transferor Company, whether freehold or leasehold (including but not limited to any other document of title, rights, interest and easements in relation thereto, and any shares in cooperative housing societies associated with such immoveable property) shall stand transferred to and be vested in the Transferee Company, as successor to the Transferor Company, without the need for any act or deed to be done or executed by the Transferor Company, as the case may be and/ or the Transferee Company;

5.2.5 all debts, liabilities, contingent liabilities, duties and obligations of every kind and nature (debentures, commercial paper, bonds, notes or other debt securities, loan from companies) of the Transferor Company shall, without any further act, instrument or deed be transferred to, and vested in, and/ or deemed to have been transferred to, and vested in, the Transferee Company, so as to become on and from the Appointed Date, the debts, liabilities, contingent liabilities, duties and obligations of the Transferee Company on the same terms and conditions as were applicable to the Transferor Company, and it shall not be necessary to obtain the consent of any Person who is a party to contract or arrangement by virtue of which such liabilities have arisen in order to give effect to the provisions of this Clause 5.2.5;

5.2.6 for the removal of doubt, it is clarified that upon the Scheme coming into effect and with effect from the Appointed Date, to the extent there are inter-corporate loans, deposits, obligation, balances or other outstanding as between the Transferor Company inter-se and/or the Transferee Company, the obligations in respect thereof shall come to an end and there shall be no liability in that behalf and corresponding effect shall be given in the books of account and records of the Transferee Company for the reduction of such assets or liabilities as the case may be;

5.2.9 the vesting of the entire undertaking of the Transferor Company, as aforesaid, shall be subject to the Encumbrances, if any, over or in respect of any of the assets or any part thereof, provided however that such Encumbrances shall be confined only to the relevant assets of Transferor Company or part thereof on or over which they are subsisting and no such Encumbrances shall extend over or apply to any other asset(s) of Transferee Company. Any reference in any security documents or arrangements (to which Transferor Company is a party) related to any assets of Transferor Company shall be so construed to the end and intent that such security shall not extend, nor be deemed to extend, to any of the other asset(s) of Transferee Company. Similarly, Transferee Company shall not be required to create any additional security over assets vested under this Scheme for any loans, debentures, deposits or other financial assistance already availed of/ to be availed of by it, and the Encumbrances in respect of such indebtedness of Transferee Company shall not extend or be deemed to extend or apply to the assets so vested;

- 5.2.10 on and from the Effective Date and till such time that the name of the bank accounts of the Transferor Company has been replaced with that of the Transferee Company, the Transferee Company shall be entitled to maintain and operate the bank accounts of the Transferor Company in the name of the Transferor Company and for such time as may be determined to be necessary by the Transferee Company. All cheques and other negotiable instruments, payment orders received or presented for encashment which are in the name of the Transferor Company after the Effective Date shall be accepted by the bankers of the Transferor Company and credited to the account of the Transferee Company, if presented by the Transferee Company;
- 5.2.11 without prejudice to the foregoing provisions of Clause 5, the Transferor Company and/ or the Transferee Company shall be entitled to apply to the Appropriate Authorities as are necessary under any law for such consents, approvals and sanctions which the Transferee Company may require and execute any and all instruments or documents and do all the acts and deeds as may be required, including filing of necessary particulars and / or modification(s) of charge, with the concerned ROC or filing of necessary applications, notices, intimations or letters with any authority or Person, to give effect to the above provisions;
- 5.2.12 all taxes and cess or other like payments or deductions (including but not limited to advance tax, self-assessment tax, regular tax, tax deducted at source, minimum alternate tax credits, dividend distribution tax, securities transaction tax, taxes withhold/paid in a foreign country, value added tax, sales tax, service tax, goods and service tax, etc.) paid / payable by or refunded / refundable to the Transferor Company with effect from the Appointed Date, including all or any refunds or claims shall be treated as the tax liability or refunds/claims, etc. as the case may be, of the Transferee Company, and any tax incentives, advantages,

privileges, accumulated losses and allowance for unabsorbed depreciation as per Section 72A of the Income Tax Act, losses brought forward and unabsorbed depreciation as per books of account, deductions otherwise admissible such as under section 40, 40A, 43B, etc of the Income Tax Act, exemptions, credits, holidays, remissions, reductions, service tax input credits, GST input credits etc, as would have been available to the Transferor Company, shall pursuant to this Scheme becoming effective, be available to the Transferee Company. This clause is to be read along with Clause 10 of this Scheme and the relevant authorities shall be bound to transfer to the account of and give credit for the same to the Transferee Company upon the coming into effect of this Scheme and upon relevant proof and documents being provided to the said authorities;

5.2.13 This Scheme has been drawn up to comply with the conditions relating to “Amalgamation” as specified under Section 2(1B) and other relevant provisions of the Income-tax Act, 1961. If any terms or provisions of the Scheme are found or interpreted to be inconsistent with the provisions of the said section and other related provisions at a later date including resulting from a retrospective amendment of law or for any other reason whatsoever, till the time the Scheme becomes effective, the provisions of the said section and other related provisions of the Income-tax Act, 1961 shall prevail and the Scheme shall stand modified to the extent determined necessary to comply with Section 2(1B) and other relevant provisions of the Income-tax Act, 1961;

5.2.14 Without prejudice to the above provisions, with effect from the Appointed Date, all inter-party transactions between Transferor Companies and Transferee Company shall be considered as intra-party transactions for all purposes from the Appointed Date.

6. EMPLOYEES, STAFF AND WORKMEN

- 6.1 On the Scheme becoming effective, all employees of the Transferor Company on the Effective Date, shall be deemed to have become employees of the Transferee Company, without any break in their service and the terms and conditions of their employment with the Transferee Company shall not be less favourable than those subsisting on the Effective Date. The Transferee Company undertakes to continue to abide by any agreement/settlement, if any, validly entered into by the Transferor Company with any union/employee of the Transferor Company recognized by the Transferor Company. It is hereby clarified that the accumulated balances, if any, standing to the credit of the employees in the existing provident fund, gratuity fund and superannuation fund of which the employees of the Transferor Company are members shall be deemed to be funds of the Transferee Company and/or shall stand transferred to such provident fund, gratuity fund and superannuation fund of the Transferee Company or to be established and caused to be recognized by the Appropriate Authorities, by the Transferee Company. It is clarified that the services of the employees of the Transferor Company will be treated as having been continuous, uninterrupted and taken into account for the purpose of the said fund or funds.
- 6.2 Pending the transfer as aforesaid, the provident fund, gratuity fund and superannuation fund dues of the employees of the Transferor Company would continue to be deposited in the existing provident fund, gratuity fund and superannuation fund respectively of the Transferor Company.
- 6.3 Without prejudice to the aforesaid, the Board of the Transferee Company, if it deems fit and subject to applicable laws, shall be entitled to retain separate funds within the Transferee Company for the erstwhile fund(s) of the Transferor Company.
- 6.4 The Transferor Company shall not vary the terms of service of employment of any employee except in the ordinary course of business.

7. LEGAL PROCEEDINGS

- 7.1 On the Scheme becoming effective, any suit, petition, appeal or other proceeding of whatsoever nature and any orders of court, judicial or quasi-judicial tribunal or other governmental authorities enforceable by or against the Transferor Company pending as on the Effective Date, shall not abate or be discontinued or in any way prejudicially affected by reason of the Amalgamation of the Transferor Company or of any order of or direction passed or issued in the Amalgamation proceedings or anything contained in this Scheme, but by virtue of the order sanctioning the Scheme, such legal proceedings shall be continued and any prosecution shall be enforced by or against the Transferee Company in the same manner and to the same extent as would or might have been continued, prosecuted and/or enforced by or against the Transferor Company, as if this Scheme had not been implemented.
- 7.2 After the approval of the Scheme by the Parties and until the Effective Date, the Transferor Company shall defend all legal proceedings, other than in the ordinary course of business, with the advice and instructions of the Transferee Company.
- 7.3 The transfer and vesting of the assets and liabilities under the Scheme and the continuance of the proceedings by or against the Transferee Company shall not affect any transaction or proceeding already completed by the Transferor Company between the Appointed Date and the Effective Date to the end and intent that the Transferee Company accepts all acts, deeds and things done and executed by and/or on behalf of the Transferor Company as acts, deeds and things done and executed by and on behalf of the Transferee Company.

8. PERMITS

With effect from the Appointed Date, all the Permits held or availed of by, and all rights and benefits that have accrued to, the Transferor Company, pursuant to the provisions of Section 232 of the Act, shall without any further act, instrument or deed, be transferred to, and vest in, or be deemed to have been transferred to, and vested in, and be available to, the Transferee Company so as to become as and from the Appointed Date, the Permits, estates, assets,

rights, title, interests and authorities of the Transferee Company and shall remain valid, effective and enforceable on the same terms and conditions to the extent permissible in Applicable Laws. Upon the Effective Date and until the Permits are transferred, vested, recorded, effected, and/ or perfected, in the record of the Appropriate Authority, in favour of the Transferee Company, the Transferee Company is authorized to carry on business in the name and style of the Transferor Company, and under the relevant license and/ or permit and/ or approval, as the case may be, and the Transferee Company shall keep a record and/ or account of such transactions.

9. CONTRACTS, DEEDS, BONDS, AGREEMENTS ETC.

5. The following documents were placed before the Board:

- (a) A draft of the proposed Scheme.
- (b) Other presentations, documents and information made to/ furnished before the Board pertaining to the draft Scheme.

Effect of the proposed Scheme

The Board perused the provisions in the Scheme which, inter alia, contains the rationale for the proposed Scheme of Amalgamation. The Board noted that the Transferor Company is carrying on business of manufacturing of computer software and providing automation solutions for homes, offices and hotels and the Transferee Company is carrying on business of manufacturing of Wires and Cables in India and is one of the fastest growing players in FMEG space.

The proposed Amalgamation would ensure transformation of the Transferee Company from inter alia an electrical manufacturing company to a technology focused solutions provider with inhouse research and development for IoT based products and will boost the FMEG business of the Transferee Company.

The proposed Amalgamation will result in the following benefits to the Companies:

Consolidation of Internet of Things (IoT) based home and office automation Products: The proposed Amalgamation will enable the technology of the Transferor Company to be consolidated with the product range of the Transferee Company.

Synergised Operations: The proposed Amalgamation will result in synergy benefits arising out of product and technology consolidation thereby reducing costs and increasing operational efficiencies.

Technology and R&D integration: The proposed Amalgamation will likely result in optimized technology transfer, reduced R&D costs, sharing of best practices and cross-functional learning and development. IoT Automation can be achieved across varied product categories plants of the Transferor Company, by using the Transferee Company's information technology applications and systems.

(i) Effect of the proposed scheme on Shareholders (including promoter)

The Transferor Company has two class of shares i.e Equity Shares and Preference Shares. Further, Transferor Company is the wholly owned subsidiary of the Transferee Company and Transferee Company is the sole preference shareholder of the Transferor Company.

Under the Scheme, there is no arrangement sought to be entered into between the Transferor Company and its equity shareholder(s). However, the equity shareholder(s) of the Transferor Company would cease to be the equity shareholder(s) of the Transferee Company pursuant to the sanctioning of the Scheme.

(ii) Effect of the proposed scheme on Creditors, Deposit Holders and Debenture Holders

Under the Scheme, there is no arrangement proposed with the creditors of the Transferor Company. No compromise is offered under the Scheme to any of the creditors of the Transferor Company. The liabilities of the creditors of the Transferor Company, under the Scheme, is neither being reduced nor being extinguished except liability of the Transferee Company. The creditors of the Transferor Company would in no way be affected by the Scheme.

As on date, the Transferor Company has no outstanding Secured debentures and therefore, the effect of the Scheme on any such debenture holders or debenture trustee(s) does not arise.

As on date, the Transferor Company has no outstanding public deposits and therefore, the effect of the Scheme on any such deposit holders or deposit trustee(s) does not arise.

(iii) Effect of the proposed scheme on Employees, Directors and Key Managerial Personnel

As stated in Clause 6.1 of the Scheme and with effect from the Effective Date, all the staff and employees of the Transferor Company shall become, and be deemed to have become, the staff and employees of the Transferee Company, on terms and conditions not less favourable than those on which they are engaged by the Transferor Company and without any interruption of or break

INDEPENDENT AUDITORS' REPORT

To

The Board Of Directors

Silvan Innovation Labs Private Limited

Report on the Interim Financial Statements

Opinion

We have audited the accompanying Interim Financial Statements of **Silvan Innovation Labs Private Limited** (the 'Company'), which comprise the Balance Sheet as at 31st December, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the period ended 31st December, 2022, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the 'Interim Financial Statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Interim Financial Statements give the information required by the Companies Act, 2013 (the 'Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ('Ind AS') and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st December, 2022, of its loss and total comprehensive income, its statement of changes in equity and its statement of cash flows for the period ended on that date.

Basis for Opinion

We conducted our audit of the Interim Financial Statements in accordance with the Standards on Auditing (SA's) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Interim Financial Statements section of our report.

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Interim Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Interim Financial Statements.

Management's Responsibility for the Interim Financial Statements

The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Interim Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Interim Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Interim Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Interim Financial Statements

Our objectives are to obtain reasonable assurance about whether the Interim Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Interim Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Interim Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve

- collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Interim financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Interim Financial Statements, including the disclosures, and whether the Interim Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Interim Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Interim Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our audit work; and (ii) to evaluate the effect of any identified misstatements in the Interim Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Silvan Innovation Labs Private Limited

Notes to Standalone Financial Statements for the period ended 31 Dec 2022

1. Corporate information

The Company (CIN: U72900KA2008PTC046964) was incorporated on June 30, 2008 to facilitate development and maintenance of business and software applications on all popular and mainframe and minicomputer platforms and to carry on the work of development of software and related services in all kinds. The registered office of the Company is situated at Bengaluru, Karnataka. Polycab India Limited has acquired 100% shareholding of the Company from existing shareholders pursuant to share purchase agreement dated 18 June 2021

2. Summary of significant accounting policies

A) Basis of preparation

i Statement of Compliance:

The audited financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] on accrual basis and other relevant provisions of the Act. Financial Statements have been prepared in accordance with the requirements of the information and disclosures mandated by Schedule III, applicable Ind AS, other applicable pronouncements and regulations.

ii Basis of Measurement:

The financial statements for the period ended 31 Dec 2022 have been prepared on an accrual basis and a historical cost convention, except for some of the financial assets and liabilities which have been measured at fair value or amortised cost at the end of each reporting period:

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received from sell of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

iii Classification of Current / Non-Current Assets and Liabilities:

The Company presents assets and liabilities in the Balance sheet based on current / non-current classification. It has been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013.

Operating Cycle:

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
 - Held primarily for the purpose of trading;
 - Expected to be realised within twelve months after the reporting period; or
 - Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- All other assets are classified as non-current.

A liability is treated as current when:

- It is expected to be settled in normal operating cycle;
 - It is held primarily for the purpose of trading;
 - It is due to be settled within twelve months after the reporting period; or
 - There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.
- All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

iv Functional and Presentation Currency:

These financial statements are presented in Indian Rupees (₹) which is the functional currency of the Company. All amounts disclosed in the financial statements which also include the accompanying notes have been rounded off to the nearest thousand up to two decimal places, as per the requirement of Schedule III to the Companies Act 2013, unless otherwise stated.

B) Use of estimates and judgements

The preparation of financial statements require to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur. The Company uses the following critical accounting estimates in preparation of its financial statements:

i Revenue Recognition:

The Company applied judgements that significantly affect the determination of the amount and timing of revenue from contracts at a point in time with customers, such as identifying performance obligations in a sales transactions. The Company allocated the portion of the transaction price to goods based on its relative standalone prices. Also, certain contracts of sale includes volume rebates that give rise to variable consideration. In respect of long term contracts significant judgments are used in:

- Determining the revenue to be recognised in case of performance obligation satisfied over a period of time; revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.
- Determining the expected losses, which are recognised in the period in which such losses become probable based on the expected total contract cost as at the reporting date.

Silvan Innovation Labs Private Limited

ii Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in current and future periods.

iii Provisions

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates. The timing of recognition requires application of judgement to existing facts and circumstances which may be subject to change.

iv Contingencies

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Potential liabilities that are possible but not probable of crystallizing or are very difficult to quantify reliably are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognized. Contingent assets are neither recognised nor disclosed in the financial statements.

v Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

vi Foreign Currency Transactions / Translations

Transactions in currencies other than Company's functional currency (foreign currencies) are recorded at the rates of exchange prevailing on the date of transaction. At the end of the reporting period, monetary items denominated in foreign currencies are reported using the exchange rate prevailing as at reporting date. Non-monetary items denominated in foreign currencies which are carried in terms of historical cost are reported using the exchange rate at the date of the transaction. Exchange differences arising on the settlement of monetary items or on translating monetary items at the exchange rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or expenses in the year in which they arise.

vii Provision for income tax and deferred tax assets

The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

viii Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If an indication exists, or when the annual impairment testing of the asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash-generating-unit's (CGU's) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from the other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered as impaired and it's written down to its recoverable amount.

The Company estimates the value-in-use of the Cash generating unit (CGU) based on the future cash flows after considering current economic conditions and trends, estimated future operating results and growth rate and anticipated future economic and regulatory conditions. The estimated cash flows are developed using internal forecasts. The estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the asset/ CGU.

ix Employee benefits

The accounting of employee benefit plans in the nature of defined benefit requires the Company to use assumptions. These assumptions have been explained under employee benefits note.

x Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

xi Estimation of uncertainties relating to the global health pandemic from COVID-19

The Company has taken into account the possible impacts of COVID-19 in preparation of the financial statements, including but not limited to its assessment of liquidity and going concern assumption, recoverable values of its financial and non-financial assets, impact on revenues and on cost budgets in respect of EPC contracts, impact on leases and impact on effectiveness of its hedging relationships. The Company has considered internal and certain external sources of information up to the date of approval of the financial statements and expects to recover the carrying amount of its assets. The impact of COVID-19 on the financial statements may differ from that estimated as at the date of approval of these financial statements.

Silvan Innovation Labs Private Limited

C) Significant Accounting Policies

i Revenue recognition

The Company applies IND AS 115 which establishes a five-step model to account for revenue arising from contracts with customers.

Measurement of Revenue

Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts, incentive schemes, if any, as per contracts with customers. Transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring good or service to a customer. Taxes collected from customers on behalf of Government are not treated as Revenue.

Sale of goods

Revenue from contracts with customers involving sale of products is recognized at a point in time when control of the product has been transferred at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services, and there are no unfulfilled obligation that could affect the customer's acceptance of the products and the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold. At contract inception, the Company assess the goods or services promised in a contract with a customer and identify as a performance obligation each promise to transfer to the customer. Revenue from contracts with customers is recognized when control of goods or services are transferred to customers and the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.

Other income

Other income is comprised primarily of interest income, dividend income, gain on investments and exchange gain on forward contracts and on translation of other assets and liabilities.

Interest income on financial asset measured either at amortised cost or FVTPL is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend income from investments is recognised when the shareholder's right to receive payment has been established.

Foreign Currency

The Company's Financial Statements are presented in Indian rupee (₹) which is also the Company's functional currency. Foreign currency transaction are recorded on initial recognition in the functional currency, using the exchange rate prevailing at the date of transaction.

Measurement of foreign currency item at the Balance sheet date:

(i) Foreign currency monetary assets and liabilities denominated in foreign currency are translated at the exchange rates prevailing on the reporting date.

(ii) Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

(iii) Exchange differences:

Exchange differences arising on settlement or translation of monetary items are recognised as income or expense in the Statement of Profit & Loss.

Warranty

The Company typically provides warranties for general repairs of defects that existed at the time of sale. These assurance-type warranties are accounted for under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets. In certain contracts, the Company provides warranty for an extended period of time and includes rectification of defects that existed at the time of sale and are normally bundled together with the main contract.

ii Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Capitalisation of costs in the carrying amount of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by the Company. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. Incomes and expenses related to the incidental operations not necessary to bring the item to the location and the condition necessary for it to be capable of operating in the manner intended by the Company are recognized in the Statement of profit and loss. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit & Loss for the year in which such expenses are incurred.

Gains or losses arising from derecognition of property, plant and equipments are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit & Loss when the asset is derecognized.

'Capital work-in-progress comprises of property, plant and equipment that are not ready for their intended use at the end of reporting period and are carried at cost comprising direct costs, related incidental expenses, other directly attributable costs and borrowing costs.

'The carrying amount of an item of property, plant and equipment is derecognised on disposal or when no further benefit is expected from its use and disposal. Assets retired from active use and held for disposal are generally stated at the lower of their net book value and net realizable value. Any gain or losses arising on disposal of property, plant and equipment is recognized in the Statement of Profit and Loss. Once the assets classified as held-for-sale, property, plant and equipment are no longer depreciated.

Depreciation on Property, plant and equipment's is calculated on pro rata basis on straight-line method using the management assessed useful lives of the assets which is in line with the manner prescribed in Schedule II of the Companies Act, 2013.

'The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively. Depreciation is not recorded on capital work-in-progress until construction and installation is complete and the asset is ready for its intended use

'Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. Borrowing cost incurred for constructed assets is capitalised up to the date by which asset is ready for its intended use, based on borrowings incurred specifically for financing the asset or the weighted average rate of all other borrowings, if no specific borrowings have been incurred for the asset. All other borrowing costs are expensed in the period they occur.

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

'If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

Transition to Ind AS: On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2020 measured as per the previous GAAP and used that carrying value as the deemed cost of the property, plant and equipment.

Silvan Innovation Labs Private Limited

iii Lease

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

iv Intangible Assets

Intangible assets acquired are reported at cost less accumulated amortization and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use.

Amortisation on intangible assets is calculated on pro rata basis on straight-line method using the useful lives of the assets and in the manner prescribed in Schedule II of the Companies Act, 2013.

The residual values, useful lives and methods of amortisation of Intangible assets are reviewed at each financial year end and adjusted prospectively.

Expenditure on research and development activities is recognized in the Statement of Profit and Loss as incurred. Development expenditure is capitalized as part of cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequent to initial recognition, the asset is measured at cost less accumulated amortization and any accumulated impairment losses, if any. The research and development cost has been amortized on pro rata basis on straight-line method using the useful lives of the assets i.e 5 years.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the statement of profit and loss when the asset is derecognised.

Intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets.

Transition to Ind AS: On transition to Ind AS, the Company has elected to continue with the carrying value of all of its Intangible Assets recognised as at 1 April 2020 measured as per the previous GAAP and used that carrying value as the deemed cost of the Intangible Assets.

v Income taxes

Income tax expenses comprise current tax and deferred income tax and includes any adjustments related to past periods in current and / or deferred tax adjustments that may become necessary due to certain developments or reviews during the relevant period. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current and deferred taxes are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively. Income tax received / receivable pertains to prior period recognised when reasonable certainty arise for refund acknowledged by the Income-tax department. Company periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount for financial reporting purposes at the reporting date. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date.

Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for deductible temporary differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

At each reporting date, the Company re-assesses unrecognized deferred tax assets. It recognises unrecognized deferred tax asset to the extent that it has become reasonably certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis. Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing current tax and where the deferred tax assets and the deferred tax liabilities relate to taxes on income levied by the same governing taxation laws.

vi Inventories

Raw materials, traded goods, work in progress, finished goods and stores and spares are valued at lower of cost or net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials, packing materials, and stores and spares is determined on a First In-First Out (FIFO) basis and includes all applicable costs, including inward freight, incurred in bringing goods to their present location and condition.

Work-in-progress and finished goods are valued at lower of cost or net realizable value. Cost includes direct materials as aforesaid, direct labour cost and a proportion of manufacturing overheads based on total manufacturing overheads to raw materials consumed.

Stock -in-trade are valued at lower of cost and or realizable value. Cost includes cost of purchase and includes all applicable costs, including inward freight, incurred in bringing the inventories at their location and condition. Cost is determined on a weighted average basis.

The stocks of scrap materials have been taken at net realisable value.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Silvan Innovation Labs Private Limited

vii Provisions

A provision is recognised when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the Statement of Profit & Loss. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Provision is recognised for expected warranty claims and after sales services when the product is sold or service provided to the customer, based on past experience of the level of repairs and returns. Initial recognition is based on historical experience. The initial estimate of warranty-related costs is revised annually. It is expected that significant portion of these costs will be incurred in the next financial year and all will have been incurred within warranty period after the reporting date. Assumptions used to calculate the provisions for warranties were based on current sales levels and current information available about returns during the warranty period for all products sold.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

viii Borrowing cost

Borrowing costs that are directly attributable to the acquisition, construction or erection of qualifying assets are capitalised as part of cost of such asset until such time that the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

Capitalisation of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

ix Earnings per share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as fresh issue, bonus issue that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

x Contingent Liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the Financial Statements.

xi Segment

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the Company's Chief Operating Decision Maker ("CODM") to make decisions for which discrete financial information is available. The Company's chief operating decision maker is the Executive Director.

The Board of directors monitors the operating results of all product segments separately for the purpose of making decisions about resource allocation and performance assessment based on an analysis of various performance indicators by business segments and geographic segments.

xii Employee benefits

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognized in respect of employees' services up to the end of the year and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Other long-term employee benefit obligations

Defined contribution plan

Provident Fund: Contribution towards provident fund is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

Employee's State Insurance Scheme: Contribution towards employees' state insurance scheme is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

Defined benefit plans

The Company provides for retirement benefits in the form of Gratuity. Benefits payable to eligible employees of the Company with respect to gratuity, a defined benefit plan is accounted for on the basis of an actuarial valuation as at the Balance Sheet date. In accordance with the Payment of Gratuity Act, 1972, the plan provides for lump sum payments to vested employees on retirement, death while in service or on termination of employment an amount equivalent to 15 days basic salary for each completed year of service. The present value of such obligation is determined by the projected unit credit method and adjusted for past service cost and fair value of plan assets as at the Balance Sheet date through which the obligations are to be settled. The resultant actuarial gain or loss on change in present value of the defined benefit obligation or change in return of the plan assets is recognized as an income or expense in the Statement of Profit and Loss. The expected return on plan assets is based on the assumed rate of return of such assets. The Company contributes to a fund set up by Life Insurance Company of India.

Silvan Innovation Labs Private Limited

xiii Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

(i) Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through Statement of Profit & Loss, transaction costs that are attributable to the acquisition of the financial asset. Financial assets are classified at the initial recognition as financial assets measured at fair value or as financial assets measured at amortised cost.

(ii) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in two broad categories:

- (a) Financial assets at amortised cost
- (b) Financial assets at fair value

Where assets are measured at fair value, gains and losses are either recognised entirely in the Statement of Profit & Loss (i.e. fair value through Statement of Profit & Loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income).

(a) Financial assets carried at amortised cost

A financial asset that meets the following two conditions is measured at amortised cost (net of Impairment) unless the asset is designated at fair value through Statement of Profit & Loss under the fair value option.

- (i) **Business Model test:** The objective of the Company's business model is to hold the financial assets to collect the contractual cash flow (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes).
- (ii) **Cash flow characteristics test:** The contractual terms of the financial assets give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding.

(b) Financial assets at fair value through other comprehensive income

Financial assets are subsequently measured at fair value through other comprehensive income if it is held with in a business model whose objective is achieved by both collections contractual cash flows and selling financial assets and the contractual terms of the financial assets give rise on specified dated to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit & Loss.

(ii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories is subsequently fair valued through Statement of Profit & Loss.

(iii) Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised

- (a) The rights to receive cash flows from the asset have expired, or
 - (b) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in
- When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it
- The Company discloses analysis of the gain or loss recognised in the statement of profit and loss arising from the derecognition of financial assets measured at amortised cost, showing separately gains and losses arising from derecognition of those financial assets.

(iv) Impairment of financial assets

The Company assesses impairment based on expected credit losses (ECL) model for the following:

- (a) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115
- (b) The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables and contract assets.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Company recognises an allowance for ECL for all debt instruments not held at fair value through profit or loss. ECL are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECL are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECL are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

Silvan Innovation Labs Private Limited

Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for doubtful trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-months expected credit losses or at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

The Company considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used.

If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

As a practical expedient, the Company uses the provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historical observed default rates over the expected life of the trade receivables and its adjusted forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

ECL impairment loss allowance (or reversal) during the period is recognized as other expense in the Statement of Profit & Loss.

D) Financial liabilities

(i) Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, lease liabilities and derivative financial instruments.

(ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

(a) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

(b) Gains or losses on liabilities held for trading are recognised in the profit or loss

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

(c) Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate method.

(iii) Embedded Derivatives

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss.

(iv) Derecognition

(a) A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(b) Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

(v) Cash Flow Statement

Cashflows are reported using the indirect method, whereby profit for the year is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cashflows. The cash flows from operating, investing and financing activities of the Company are segregated.

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand, cheques in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Notes to Standalone Financial Statements for the period ended 31 Dec 2022

3. Property, plant and equipment

Accounting policy

The changes in the carrying value of Property, plant and equipment for the period ended 31 Dec 2022 are as follows:

	Computers	Furniture and fixtures	Office equipments	Total

Gratuity and other post-employment benefit plans

(A) Defined Benefit plan

Gratuity Valuation - As per actuary

In respect of Gratuity, the Company makes annual contribution to the employee group gratuity scheme of the Life Insurance Corporation of India, funded defined benefits plan for qualified employees. The scheme provided for lump sum payments to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary for each completed year of service or part thereof in excess of six months. Vesting occurs upon completion of five years of service. The Company has provided for gratuity based on the actuarial valuation done as per Project Unit Credit Method.

Defined benefit plans expose the Company to actuarial risks such as

- (i) **Interest rate risk**
A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.
- (ii) **Salary Risk**
The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.
- (iii) **Investment Risk**
The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.
- (iv) **Asset Liability Matching Risk**
The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.
- (v) **Mortality risk**
Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk. If actual mortality rates are higher than assumed mortality rate assumption than the gratuity benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.
- (vi) **Concentration Risk**
Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.
- (vii) **Variability in withdrawal rates**
If actual withdrawal rates are higher than assumed withdrawal rate assumption then the gratuity benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.
- (viii) **Regulatory Risk**
Gratuity Benefit must comply with the requirements of the Payment of Gratuity Act, 1972 (as amended up-to-date). There is a risk of change in the regulations requiring higher gratuity payments.

A separate trust fund is created to manage the Gratuity plan and the contributions towards the trust fund is done as guided by rule 103 of Income Tax Rules, 1962.

The Company operates a defined benefit plan, viz., gratuity for its employees. Under the gratuity plan, every employee who has completed at least five years of service gets a gratuity on departure at 15 days of last drawn salary for each completed year of service. The scheme is funded with an insurance company in the form of qualifying insurance policy.

The most recent actuarial valuation of the plan assets and the present value of defined obligation were carried out as at 31st March, 2022 an external independent fellow of the Institute of Actuaries of India. The present value of the defined benefit obligation and the related current service cost were measured using the projected unit credit method.

31. Financial Instruments and Fair Value Measurement

A) Financial Instruments

Fair value measurements

The Company measures financial instruments, such as, derivatives, mutual funds etc. at fair value at each Balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (a) In the principal market for the asset or liability, or
- (b) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Financial Statements are categorised within the fair value hierarchy, to provide an indication about the reliability of inputs used in determining fair value, the Company has classified its financial statements into three levels prescribed under the accounting standard as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risk of the assets or liability and the level of fair value hierarchy as explained above.

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

	Carrying value		Fair value	
	31-Dec-22	31 Mar 22	31-Dec-22	31 Mar 22

	55,913.59	48,610.28	55,913.59	48,610.28

- (a) The management assessed that cash and cash equivalents, trade receivables, trade payables, short-term borrowings, loans to related party, loans to employees, short term security deposit and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- (b) The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

32. Financial Risk Management Objectives And Policies

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings and trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company also holds FVTPL investments and enters into derivative transactions.

The Company is exposed to market risk, credit risk and liquidity risk. The Board of Directors of the Company has formed a Risk Management Committee to periodically review the risk management policy of the Company so that the management manages the risk through properly defined mechanism. The Risk Management Committee's focus is to foresee the unpredictability and minimize potential adverse effects on the Company's financial performance. The Company's overall risk management procedures to minimise the potential adverse effects of financial market on the Company's performance are as follows:

(A) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, FVTPL investments and derivative financial instruments.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The Company is also exposed to the risk of changes in market interest rates relates due to its investments in mutual fund units in overnight funds.

The Company manages its interest rate risk by having a fixed and variable rate loans and borrowings. The Company enters into interest rate swaps for long term foreign currency borrowings, in which it agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount. At 31 December 2022, 100% of the Company's borrowings are at a fixed rate of interest

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Exposure to interest rate risk (Principal amount of loan)	Increase/ decrease in basis points	Effect on profit before tax
31st Dec 2022	52,000		
Increase	-	+200	(1,040)
Decrease	-	-200	1,040
31 Mar 22	45,500		
Increase		200	(910)
Decrease		-200	910

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency) and the Company's borrowings in foreign currency. The Company does not have any receivable and payable in Foreign currency as at 31 December 2022 and 31 March 2022

32. Financial Risk Management Objectives And Policies

(B) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Trade receivables and contract assets

The Company has adopted a policy of only dealing with counterparties that have sufficient credit rating. The Company's exposure and credit ratings of its counterparties are continuously monitored and the aggregate value of transactions is reasonably spread amongst the counterparties. Credit risk has always been managed through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business. On account of adoption of Ind AS 109, the Company uses expected credit loss model to assess the impairment loss or gain. The Company has applied Expected Credit Loss (ECL) model for measurement and recognition of impairment losses on trade receivables. ECL has been computed as a percentage of revenue on the basis of Company's historical data of delay in collection of amounts due from customers and default by the customers along with management's estimates.

The Company has sold without recourse trade receivable under channel finance arrangement for providing credit to its dealers. Evaluation is made as per the terms of the contract i.e. if the Company does not retain any risk and rewards or control over the financial assets, then the entity derecognises such assets upon transfer of financial assets under such arrangement with the banks. Derecognition does not result in significant gain / loss to the Company in the Statement of profit and loss.

The Company closely monitors its customers who are going through financial stress and assesses actions such as change in payment terms, discounting of receivables with institutions on no-recourse basis, recognition of revenue on collection basis etc., depending on severity of each case. The collections pattern from the customers in the current period does not indicate stress beyond what has been factored while computing the allowance for expected credit losses.

Other financial assets

The Company has adopted a policy of only dealing with counterparties that have sufficient credit rating. The Company's exposure and credit ratings of its counterparties are continuously monitored and the aggregate value of transactions is reasonably spread amongst the counterparties.

Credit risk arising from investment in mutual funds, derivative financial instruments and other balances with banks is limited and there is no collateral held against these because the counterparties are banks and recognised financial institutions with high credit ratings assigned by the international credit rating agencies.

(C) Liquidity risk

The Company's principle sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company believes that the working capital is sufficient to meet its current requirements.

Further, the Company manages its liquidity risk in a manner so as to meet its normal financial obligations without any significant delay or stress. Such risk is managed through ensuring operational cash flow while at the same time maintaining adequate cash and cash equivalents position. The management has arranged for diversified funding sources and adopted a policy of managing assets with liquidity in mind and monitoring future cash flows and liquidity on a regular basis. Surplus funds not immediately required are invested in certain financial assets (including mutual funds) which provide flexibility to liquidate at short notice and are included in current investments and cash equivalents. Besides, it generally has certain undrawn credit facilities which can be accessed as and when required, which are reviewed periodically.

The Company has developed appropriate internal control systems and contingency plans for managing liquidity risk. This incorporates an assessment of expected cash flows and availability of alternative sources for additional funding, if required.

Maturity Analysis

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

33. Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium and all other equity reserves attributable to the equity shareholders. The primary objective is to maximise the shareholders value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity, operating cash flows generated and external borrowings.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

The capital structure is governed by policies approved by the Board of Directors and monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt.

	31-Dec-22	31-Mar-22
Debts	52,000.00	45,500.00
Equity	19,543.04	38,485.45
Total capital	71,543.04	83,985.45
Debts	52,000.00	45,500.00
Gearing ratio	72.68%	54.18%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. As on 31 December 2022 the company had borrowings only from its holding company

No changes were made in the objectives, policies or processes for managing capital during the period/year ended 31 December 2022 and 31 March 2022

34 The Board of Directors at its meeting held on 12 October 2022 has approved a Scheme of Arrangement amongst the Company and its Holding Company viz. "Polycab India Limited", having an appointed date of 1 April 2022 under section 230 to 232 and other applicable provisions of the Companies Act, 2013. The Scheme will be effective on receipt of regulatory approvals and on fulfillment of conditions precedent therein. As on date of adoption of these financial statements by the Board, approval of the scheme of arrangement from NCLT is awaited, accordingly accounts have been prepared without giving any effects of the said Scheme of Arrangement.

35 Events after the reporting period

No significant adjusting event occurred between the balance sheet date and date of the approval of these financial statements by the Board of Directors of the Company requiring adjustment or disclosure.

Limited Review Report on unaudited consolidated financial results of Polycab India Limited for the quarter ended 31 December 2022 and year to date results for the period from 01 April 2022 to 31 December 2022 pursuant to Regulation 33 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

To the Board of Directors of Polycab India Limited

- 1 We have reviewed the accompanying Statement of unaudited consolidated financial results of Polycab India Limited (hereinafter referred to as "the Parent"), and its subsidiaries (the Parent and its subsidiaries together referred to as "the Group") and its share of the net loss after tax and total comprehensive loss of its joint venture for the quarter ended 31 December 2022 and year to date results for the period from 01 April 2022 to 31 December 2022 ("the Statement"), being submitted by the Parent pursuant to the requirements of Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("Listing Regulations")
2. This Statement, which is the responsibility of the Parent's management and approved by the Parent's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013, and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. Our responsibility is to express a conclusion on the Statement based on our review.
- 3 We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the circular issued by the Securities and Exchange Board of India under Regulation 33(8) of the Listing Regulations, to the extent applicable.

4. The Statement includes the results of the following entities:

Sr.No	Name of the Company	Relationship
1	Dowells Cable Accessories Private Limited	Subsidiary
2	Tirupati Reels Private Limited	Subsidiary
3	Steel Matrix Private Limited	Subsidiary
4	Polycab USA LLC	Wholly owned subsidiary

7	Silvan Innovations Labs Private Limited	Wholly owned subsidiary
8	Uniglobus Electricals & Electronics Private Limited	Wholly owned subsidiary
9	Polycab Support Force Private Limited	Wholly owned subsidiary
10	Techno Electromech Private Limited	Joint Venture

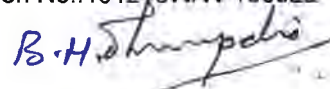

5. Based on our review conducted and procedures performed as stated in paragraph 3 above and based on the consideration of the review reports of the other auditors referred to in paragraph 6 below, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standard and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.
6. We did not review the interim financial statements of nine Subsidiaries included in the Statement, whose interim financial statements reflect total revenues (before consolidation adjustments) of Rs. 817.98 million and Rs. 2,688.15 million, total net profit after tax (before consolidation adjustments) of Rs. 54.09 million and Rs. 166.17 million and total comprehensive income (before consolidation adjustments) of Rs. 42.98 million and Rs. 166.34, for the quarter ended 31 December 2022 and for the period from 01 April 2022 to 31 December 2022 respectively, as considered in the Statement. The Statement also include the Group's share of net loss after tax of Rs. 8.11 million and Rs. 29.21 million and total comprehensive loss of Rs. 8.07 million and Rs. 28.92 million, for the quarter ended 31 December 2022 and for the period from 01 April 2022 to 31 December 2022 respectively as considered in the Statement, in respect of one joint venture, whose interim financial statements have not been reviewed by us. These interim financial statements have been audited by other auditors whose reports have been furnished to us by the Parent's management and our conclusion on the Statement, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and joint venture, is based solely on the reports of the other auditors and the procedures performed by us as stated in paragraph 3 above.

Our conclusion is not modified in respect of this matter.

Limited Review Report on unaudited standalone financial results of Polycab India Limited for the quarter ended 31 December 2022 and year to date results for the period from 01 April 2022 to 31 December 2022 pursuant to Regulation 33 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

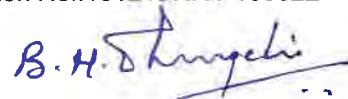

To the Board of Directors of Polycab India Limited

1. We have reviewed the accompanying Statement of unaudited standalone financial results of Polycab India Limited (hereinafter referred to as "the Company") for the quarter ended 31 December 2022 and year to date results for the period from 01 April 2022 to 31 December 2022 ("the Statement").
2. This Statement, which is the responsibility of the Company's management and approved by its Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013, and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("Listing Regulations"). Our responsibility is to issue a report on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standard and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.
