

MEIS cap: Trade bodies seek review, say large exporters to get badly hit

FE BUREAU
New Delhi, September 2

A DAY AFTER the government capped benefits under a key scheme at just ₹2 crore per exporter for outbound shipment made during the September-December period, exporters' bodies on Wednesday sought a review of the decision, saying medium and large exporters who are primarily responsible for driving growth will be badly hit by the move. Exporters are also upset that even this limit can be revised down, as the government has limited the overall output under the Merchandise Export From India Scheme (MEIS) to just ₹5,000 crore between September and December.

They have also sought an extension of the MEIS by three months to make it co-terminus with the current foreign trade policy, the validity of which will continue up to March 31, 2021.

Earlier, starved of resources following the Covid-19 outbreak, the revenue department had capped the outlay for the MEIS at just ₹9,000 crore for the April-December period, which meant that exporters might be deprived of over two-thirds of the benefits they usually get under this scheme. This forced the commerce ministry to block the online module for claiming the MEIS benefits since July 23. With Tuesday's notification on MEIS benefits, the online module has been reactivated.

The MEIS outgo was about ₹40,000 crore in FY19 and ₹42,500 crore in FY20. According to a commerce ministry estimate, about 98% of the exporters who claim MEIS will remain unaffected by the changes and less than 2% are likely to be impacted as per analysis of claims in the relevant period of 2018-19.

Zomato raises fresh \$62 million from Temasek

Delivery volumes, they point out, are currently less than 1/20th of volumes in mainland China volumes. Moreover, in terms of marketplace and pure-play delivery, India predominantly remains a delivery market, which has lower margins than the market-place model. In comparison, China's Meituan derives 35% of its volumes from the market-place channel.

In July, Zomato said it expected business to recover from the coronavirus-led disruption in the next three to six months. It added that the food delivery segment, of the restaurant industry, was clocking about 75-80% of pre-Covid GMV (gross merchandise value). In January, the Gurgaon-based firm had announced a \$150-million funding by Antfin Singapore Holding and its affiliates. Shareholder Info Edge had said, in a stock exchange filing, the transaction values Zomato at a pre-money valuation of \$3 billion. In its latest IPO filing, the Ant Group said "separately, in 2020, a change in foreign investment regulation in India led to our further evaluation of the timing of our additional investment in Zomato".

The investment by Temasek could be part of a larger financing round which the company had been planning to raise for some time.

PUBG among 118 China apps banned

The ministry of electronics and IT said it has received many complaints from various sources, including several reports about misuse of some mobile apps available on Android and iOS for stealing and surreptitiously transmitting users' data in an unauthorised manner to servers which have locations outside India.

"The compilation of these data, its mining and profiling by elements hostile to national security and defence of India, which ultimately impinges upon the sovereignty and integrity of India, is a matter of very deep and immediate concern which requires emergency measures," the government said.

The Indian Cyber Crime Coordination Centre, ministry of home affairs, has also sent an exhaustive recommendation for blocking these malicious apps. Likewise, there have been similar bipartisan concerns, flagged by various public representatives, both outside and inside Parliament, MeitY said.

It said recently that it has received credible inputs that

Sharad Kumar Saraf, president, Federation of the Indian Export Organisation, said the "sudden imposition" of a cap is going to "seriously affect exporters, whose numbers may not be very large, but their contribution to exports warrant a revisit to the imposition of cap".

Saraf said the orders for exports to be made during September-December have already been negotiated earlier factoring the existing benefits. "These benefits are part of the export competitiveness and, therefore, the sudden change will affect the exporters financially, as buyers are not going to revise their prices upward," he said.

Bhuvnesh Seth, vice-chairman, Export Promotion Council for Export-oriented Units and Special Economic Zones, said: "This sudden change in trade policies needs to be avoided at all costs as it brings uncertainties in decision-making and pricing policies of exporters." The cap of ₹5,000 crore "would create an uncertainty, as that means that scheme can be withdrawn even earlier than December 31, 2020", he said.

The notification also suggests that there will be no change in the coverage of MEIS and the applicable rates (up to 5% of the consignment value). However, exporters obtaining new export-import codes on or after September 1 will be ineligible to submit any MEIS claim for exports made during the four months through December.

Merchandise exports witnessed a record 60% crash year-on-year in April, although the contraction narrowed to 37% in May, 12% in June and 10% in July, as lockdown curbs were lifted from June. However, risks to exports from external headwinds still remain very strong.

information posted, permissions sought, functionality embedded as well as data harvesting practices of these apps raise serious concerns. Also, these apps collect and share data in surreptitious manner and compromise personal data and information of users that can have a severe threat to security of the state.

"This move will safeguard the interests of crores of Indian mobile and internet users. This decision is a targeted move to ensure safety, security and sovereignty of Indian cyberspace," the government added.

Amazon adds to its India offerings

It began offering auto insurance in July and gold investment products in August — both a first for Amazon. Its US fin-tech efforts have been modest by comparison, stymied in part by merchant reluctance to use services offered by their biggest retail rival. In India, however, where it has over 100 million registered users, Amazon is better placed to use financial services to win subscribers to its annual ₹999 Prime plan which offers faster shipping and music and video streaming, tech executives said.

To that end, the company aspires to make Amazon Pay the country's payment method of choice, said Mahendra Nerurkar, head of Amazon Pay in India, which has signed up 4 million merchants. "Apparently Chinese fashion designers are leaving the back pockets off jeans because no one uses them anymore (for wallets)," Nerurkar told Reuters. "We would love to make that happen in India."

Netflix: 'Bad Boys' get respite from court

In its order, the bench said: "Mukul Rohatgi, senior counsel appearing for the petitioner (Netflix Entertainment Services India LLP), prays for withdrawal of this petition with liberty to avail an appropriate remedy in accordance with law. Prayer is allowed. "However, we make it clear that when the petitioner avails of such a remedy, the concerned court may deal with the matter on its own merits expeditiously. The special leave petition is dismissed as withdrawn with the liberty aforesaid."

Rohatgi, who was appearing for Netflix, said several petitions pertaining to the web series are pending in various high courts and the apex court should transfer these matters to itself. The bench issued notice on the separate petition filed by Netflix seeking transfer of the matters pending before different high courts.
