Sebi issues paper to regulate online bond platforms

FE BUREAU
Mumbai, July 21

THE SEBI ON Thursday came out with a consultation paper to regulate online bond platforms that sell debt securities to investors, particularly non-institutional ones, via the private placement mode.

Most of such bond platforms are fintech companies or are backed by brokers and include the likes of GoldenPi, Harmony, BondsKart, Wint Wealth and Indiabonds.

“While these bond platforms do tap a group of investors, particularly non-institutional investors to invest in bonds, they do not come under any regulatory purview i.e. the platform providers are not registered with any regulator. This has given rise to a need to guide and regulate these platforms in order to bring about, inter alia, regulatory oversight, common standard practices, investor redress, Sebi observed.

The increased use and volumes on such platforms has given rise to a number of concerns. These include lack of regulatory oversight, offering of listed and unlisted debt securities on the same web-page or tab on the websites of

BRINGING REGULATORY OVERSIGHT

■ Most of such bond platforms are fintech companies or are backed by brokers and include the likes of GoldenPi, Harmony, BondsKart, Wint Wealth and Indiabonds

■ The consultation paper has proposed that these bond platforms should register as stock-brokers (debt segment) with Sebi or be run by Sebi-registered brokers

these platforms, absence of standard KYC norms, ambiguity in redressing investor grievances and offering of high yield securities to whet the investor appetite.

The paper has proposed that these bond platforms should register as stock-brokers (debt segment) with Sebi or be run by Sebi-registered brokers. “This will enhance the confidence of investors as the

platforms would be provided by SEBI regulated intermediaries. Additionally, the stock-broker regulations will be applicable to these entities, which would govern their code of conduct and other aspects related to their operations and risk management,” the regulator said.

The debt securities offered for buy/sale by online bond platforms should only be listed

debt securities.

There is a concern that down-selling of debt securities issued on a private placement basis by bond platforms to a large number of investors may possess the characteristics of a deemed public issue (DPI). To address this, the paper has proposed that listed debt securities issued on a private placement basis, offered for sale on bond platforms shall be locked-in for a period of six months from the date of allotment of such debt securities by the issuer.

Alternatively, transactions executed on the online bond platforms can be routed through RFQ (request for quote platform) of the stock exchanges where transactions will be cleared and settled on a delivery versus payment (DVP-1) basis.

“The APIs of the exchange platforms can be utilised by the bond platforms for ease of integration with the exchange systems. This will be similar to the trading model followed for equity transactions, where stock brokers build their own front-end for facilitating placing of orders by their clients and the transactions are executed on the exchange trading platforms,” Sebi said.

Citi expects India corporate biz revenue to grow 10% a year

NUPUR ANAND
Mumbai, July 21

CITIGROUP EXPECTS ANNUAL growth in its corporate banking business in India to accelerate to 10% in the next few years as it focuses on its institutional business after recently selling its consumer banking business, an executive said.

“Conservatively, we expect India corporate banking business revenue to grow at around 10% (a year) in dollar terms in (the) next three-four years, which translates to 16-17% in rupee terms considering the depreciation,” K Balasubramanian, head of corporate banking, South Asia, told Reuters on Thursday, noting Citi has been ramping up hiring.

Growth of 10% would be “200 basis points” higher than annual growth seen in the last few years and faster than sev-

eral other countries in which the bank has a presence, he said.

In the year ended March 2021, Citi India’s revenue from corporate banking totalled ₹8,513 crore (\$1.07 billion), the biggest contributor to its business surpassing revenue from treasury, retail and other banking.

Revenue from corporate banking includes interest and fees earned on loans to cus-

tomers and income from trade and transaction services, according to the regulatory filing.

Volatility in global markets amid the conflict between Russia and Ukraine has boosted business with commodity-linked hedging in the last six to nine months reaching the highest level the bank has ever done in India, said Balasubramanian.

India is a leading contributor to corporate banking revenue in the Asia-Pacific, he said.

Despite pandemic disruptions, India remains one of the fastest-growing major economies, with growth forecast to average 7.2% this fiscal.

Earlier this year, Citi sold its consumer franchise business in India to Axis Bank. It is winding down its consumer business in 12 other markets as well to refocus on its more lucrative institutional and wealth management businesses. —REUTERS

ICICI Sec net income falls 12% in June quarter

ICICI SECURITIES ON Thursday reported a 12% decline in net income at ₹273 crore for the June quarter despite an increase in revenue during the same period.

The company’s top line grew 6% to ₹795 crore in the first quarter of this fiscal on the back of a healthy growth in retail allied and distribution income, it said in a statement.

Institutional equities revenue during the quarter fell 17% to ₹48.6 crore, primarily due to the slowdown in market volumes and decline in capital market deals.

Distribution business revenue stood at ₹152 crore, up 28% on the back of strong performance from mutual funds, insurance and other products. —PTI

RBI postpones MPC meeting by a day to Aug 3

PRESS TRUST OF INDIA
Mumbai, July 21

THE RESERVE BANK of India has postponed the meeting of its interest rate setting Monetary Policy Committee by a day to August 3 due to administrative exigencies.

The RBI said the decision of the MPC will be known on August 5 as against the earlier schedule of August 4.

“Due to administrative exi-

gencies, it has been decided to reschedule the MPC meeting from August 2-4, 2022 to August 3-5, 2022,” RBI said in a statement on Thursday.

The MPC announces the bi-monthly monetary policy after deliberations on the prevailing domestic and economic situations.

The panel, headed by RBI governor Shaktikanta Das, has two representatives from the central bank and three exter-

nal members.

It is widely expected that the RBI may increase benchmark interest rate to cool down

high inflation. The retail inflation print was 7.01% for June, higher than the RBI’s upper tolerance level. The central government has tasked the RBI to ensure that inflation remains at 4% with a margin of 2% on the either side.

The inflation target for the period April 1, 2021 to March 31, 2026 under the RBI Act 1934 is 4% with an upper tolerance of 6% and a lower tolerance of 2%.
