## Awarded BESS order from West Bengal State Electricity Distribution Company Establishing of 1 GWh BESS with additional Greenshoe option for a further 1 GWh Revenues of Rs. 1,563 Cr (Rs. 3,126 Cr including Greenshoe option)

**Hyderabad, January 8, 2026:** Power Mech Projects Limited (“PMPL” or the “Company”) one of the leading industrial engineering, construction and services companies in the power and infrastructure sectors, has announced that its wholly owned subsidiary, PM Green Private Limited as a lead member has secured a contract for 1 GWh Battery Energy Storage System (BESS) from West Bengal State Electricity Distribution Company Limited (WBSEDCL).

As part of PMPL renewable energy strategy, PM Green participated in the tender from the Department of Power (DoP), Government of West Bengal, and has been awarded the contract for setting up a 250 MW / 1,000 MWh Battery Energy Storage System (BESS). The project has been structured as a Build, Own, Operate (BOO) model, with a 100% off-take guarantee from WBSEDCL. The scope of work includes design, finance, engineering, procurement, construction, operation, and maintenance of the BESS facility at the Goaltore Substation. There is an additional greenshoe option with additional capacity of 250MW / 1,000 MWh to be established at Durgapur Project Limited Campus, Durgapur.

### Key Features of the Contract:

- Project Capacity : 250 MW/ 1000 MWh at Goaltore SS, Paschim Midnapore
- Green Shoe Capacity : 250 MW/ 1000 MWh at Durgapur Project Ltd Campus, Durgapur
- Construction Period : 18 months from signing the Battery Energy Storage Purchase Agreement (BESPA)
- Contract Duration : 15 years with provision for extension upto 5 years from Schedule Commissioning Date
- Revenue Generation : ₹ 3,126 Crores (Including Greenshoe Capacity)

### Commenting on the BESS Contract, Mr. Sajja Kishore Babu, Chairman and Managing Director said:

As India crosses the monumental threshold where renewable energy exceeds 50% of our installed capacity, green energy is the next great challenge. We need advanced peak-shaving solutions to balance the grid and ensure that the transition to “Green” does not compromise “Reliable”.

This BESS project is far more than a commercial win, it is the first concrete step in our vision to provide that equilibrium. While PM Green is taking its foundational steps today, it carries the decades of “Execution Power” and the ‘vast engineering legacy’ of Power Mech. Winning a project of this scale as our debut in energy storage solutions is a powerful testimony to our capabilities to handle large and complex projects.

## About Power Mech Projects Limited

Power Mech Projects Limited is among the leading project and infrastructure construction companies in India, and a leading plant operation and maintenance (O&M) service provider based in Hyderabad with a global presence. Established in 1999, the Company has built a strong niche across a wide spectrum of services spanning power, non-power and infrastructure sectors, including Engineering, Procurement, Construction, Erection, Testing and Commissioning of main plant and Balance of Plant, along with O&M, repairs, overhauling, renovation and modernization of power plants and related civil works. With major operations in India, the Company has also expanded internationally and is present in more than ten countries.

Over the last fifteen years, the Company has diversified its portfolio to strengthen the balance between power and non-power businesses, expanding into infrastructure segments such as Railways, Water Projects, Roads, Mining Development-cum-Operation, Cross Country Pipelines, Steel Plants, Material Handling & Manufacturing and Renewables. Leveraging its deep O&M expertise, the Company has emerged as the largest O&M player in the country and a service provider of choice. Entering its third decade of operations, the Company continues to align its business model with the opportunities created under the National Infrastructure Pipeline (NIP), maximizing the benefits of large-scale sectoral investments
