# Leadership Commentary

**Commenting on the performance Mr. Sajja Kishore Babu, Chairman and Managing Director said:**

"As we close the second quarter of FY 27, we remain focused on accelerating our strategic growth initiatives and strengthening our market leadership. The current quarter reflected higher execution across key business verticals. This was supported by Infrastructure Construction, Industrial Construction[1], Industrial Services[2] and International projects. The quarter also marked order book expansion across Industrial Services[2].

From a financial perspective, Revenue from Operations was INR 1,609 crore, registering a 30% YoY increase. EBITDA for the quarter was INR 187 crore with a margin of 11.55%. The margin was higher compared to Q1 FY 27, primarily due to sustained execution across core segments and the ramp up of operations on newly secured orders. PAT for the quarter was INR 88 crore with a margin of 5.5%, an increase of 12.5% YoY, mainly due to higher revenues.

The Company secured order inflows of INR 1,890 crore during Q2 FY27 and an additional inflow of INR 1,046 Cr in Q3 till date. Key awards included the 5-year Comprehensive O&M of 2 x 600 MW Athena plant by Vedanta, the 5-year Comprehensive O&M of 2 x 600 MW Moxie Power Thermal Plant at Adani's Tuticorin plant, and the 3-year Operation & Maintenance of AHP and CHP at Yadadri Thermal Power Station by TGGENCO.

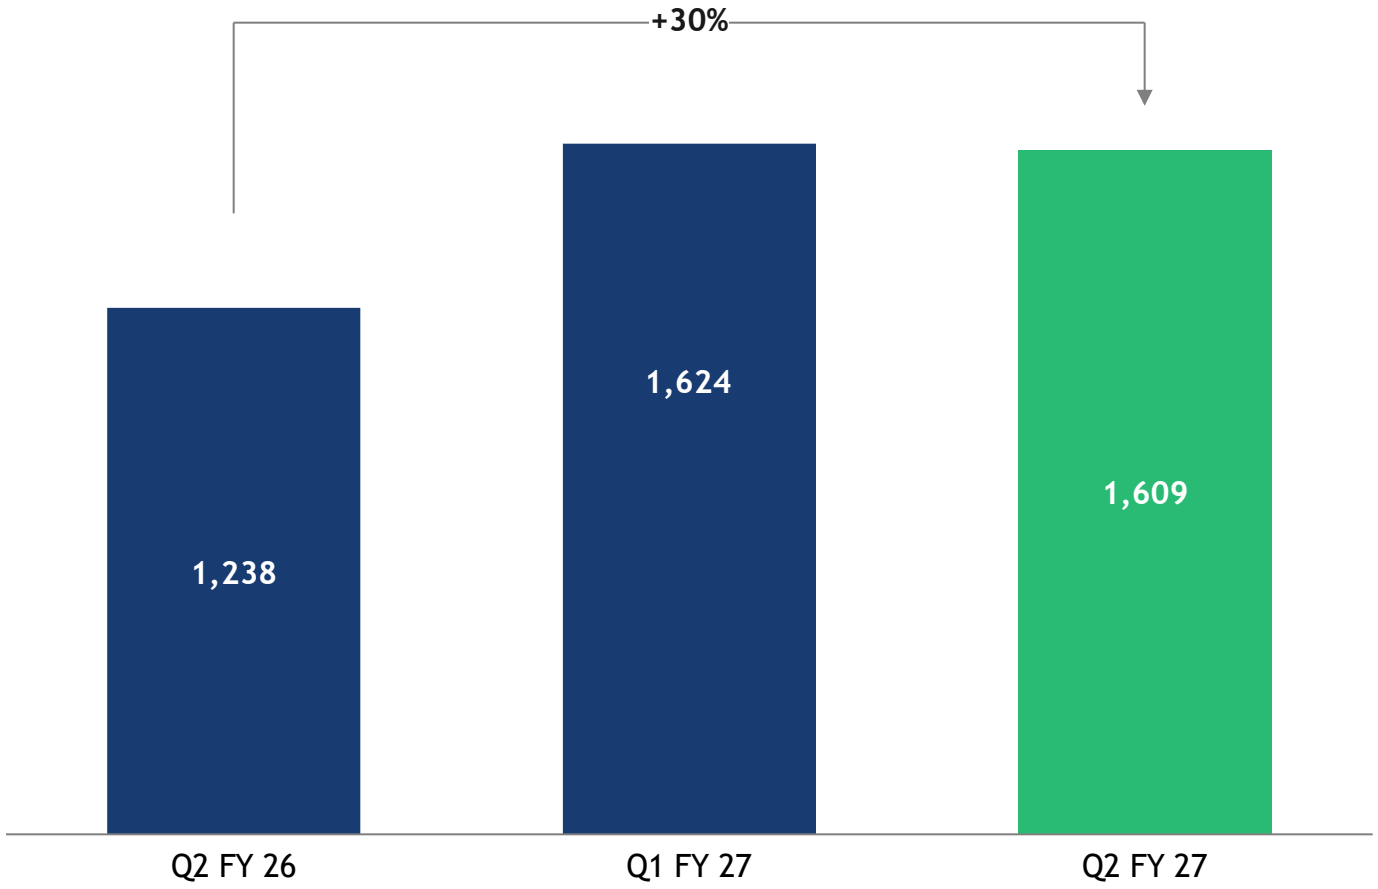

Looking ahead, management remains focused on operational excellence, improving profitability and executing the order pipeline across core and emerging businesses. With an order backlog of INR 56,729 crore, including MDO, the Company has revenue visibility across power, infrastructure, O&M and mining.

The company continues to strengthen its presence in BOP EPC packages, Power O&M contracts, both domestic and international, Civil Infra and Urban Mobility. At the same time, management remains focused on leveraging its execution capabilities to drive sustainable growth, expand into adjacent opportunities that complement the existing business model, and enhance overall margin performance. This strategic approach is expected to support long-term value creation while maintaining growth momentum".
