<u>Paradeep Phosphates Ltd Posts Q1 FY 27 Results: Strong and Robust Performance</u>

28 July 2026, Bengaluru: *Paradeep Phosphates Ltd (BSE: 543530, NSE: PARADEEP)*, one of India's leading fertilizer companies announced its financial results for the quarter ended **30th June 2026**.

In **Q1 FY27**, Revenue from operations **increased 36% YoY to ₹ 6,124 crore**, **EBITDA** rose **24%** YoY to **₹ 764 crore, PBT** increased **24%** YoY to **₹ 526 crore** and **PAT** stood at **₹ 393 crore**, up **24%** YoY. Sales Volume grew **by 4% to 9.85 LMT.**

Despite the prevailing global uncertainities led by Middle East Conflict (which resulted in sharp escalation and volatility in Raw Material prices), PPL delivered strong performance on the strength of its existing supply chain efficiencies, agile sourcing diversification strategy for key raw material and PAN India Marketplace selling and distribution capabilities. With this performance, the company has been further able to strengthen its leadership position in the Phosphatic Fertilizer.

Commenting on the performance, Mr. N. Suresh Krishnan, Managing Director & CEO, said:

PPL has once again demonstrated strong operational and financial performance for the Q1 FY 27 reflecting the strength of our integrated operations and our agility to navigate the global volatility. We have been able to run our plants efficiently in the Q1 FY 27 and have been able to manage sourcing of key raw materials in competitive manner.

Our key project of Phos Acid expansion (Phase 1) from 500,000 MTPA to 700,000 MTPA at Paradeep is on track.

The Board of PPL in its Q1 FY 27 meeting approved the investment proposal of INR 250 Cr for setting up Aluminium Fluoride (AlF_3) Plant at Paradeep. The proposed investment aligns with the company's strategic objective to enter and diversify into related industrial chemicals space and will build and strengthen company's non-subsidy portfolio in due course. The proposed investment is reinforcement of manufacturing excellence capability by having a by-product converted into value added products. These investments in Speciality /Industrial Chemicals will further augment our endeavour to create long term value for our shareholders.

Looking ahead, we believe the global uncertainty will prevail and we will remain committed to drive growth in this challenging time through focussed and agile operational discipline.

About Paradeep Phosphates Limited

Paradeep Phosphates Ltd (PPL) is one of India's largest phosphatic fertilizer companies, with an annual capacity of 3.7 million MT across Paradeep (Odisha), Goa, and Mangalore. The company produces DAP, NPK grades (N-10, N-12, N-14, N-19, N-20, N-28), and Urea, and markets them under trusted brands *Jai Kisaan Navratna* and *Jai Kisaan Mangala*.

PPL serves over 12 million farmers through 100,000+ retailers across 18 states in India, supported by strong backward integration, a robust logistics network, and ESG-driven growth.
