G. Jayaraman
Company Secretary

Encl.: As above

Tech Mahindra enters Channel NewsAsia Sustainability Index

One Amongst the Top 3 Indian companies and ranked among the Top 20 Sustainable Asian Companies

Hyderabad – October 12, 2016: Tech Mahindra, a specialist in digital transformation, consulting and business re-engineering, has been ranked as one of the Top 3 companies in India and one of the Top 20 companies in Asia in the *Channel NewsAsia Sustainability Ranking* for Asia's top businesses which was announced recently at the CSR Asia Summit in Hong Kong.

The ranking is a joint initiative between Channel NewsAsia, a prominent Asian TV news channel, Sustainalytics, an independent ESG and corporate governance research, ratings and analysis firm, and CSR Asia, a leading provider of advisory, research and training services on sustainable business practices in Asia. The index lists 100 companies, across 11 key Asian economies, with the highest sustainability performance and highlights the Top 20 companies and the Top 3 companies per economic entity. Territories covered include China, Hong Kong, India, Indonesia, Japan, Malaysia, Philippines, Singapore, South Korea, Taiwan and Thailand.

The current results corroborates Tech Mahindra's strategy towards driving our sustainability agenda where the company has taken specific measures such as investments in renewable energy and water reusability projects; focused investments in innovative solutions in green sustainability solutions sphere such as SMART-Cities concept, Micro Grid which helps our customers achieve their sustainability goals; investments in associate engagement which has helped us towards associate well-being and creating a better talent pool.

Mr Sandeep Chandna, Chief Sustainability Officer at Tech Mahindra said *"We are happy to be ranked among the best companies in India and Asia for our Sustainability practices which are increasingly becoming part of all our business strategies and plans. We are committed towards improving ourselves across environmental, social and governance parameters, to strengthen our systems and drive sustainability rigorously."*

Globally, sustainability issues have become a priority for investors, consumers and companies alike. From environmental management, to supply chain management, to transparent governance - stakeholders are looking at the impact of these issues on their businesses. Many of the world's leading organisations have already embedded sustainability principles into their business models, while others are still working on their sustainability initiatives. The *Channel NewsAsia Sustainability Ranking* provides businesses and their stakeholders a measure to benchmark their performance against other regional businesses.

Tech Mahindra has been in the forefront of Sustainability and this year it was selected as one of the only 3 Indian companies to have entered the 2016 Dow Jones Sustainability Index (DJSI) World rankings and by being one of the 10 Indian companies ranked in the DJSI emerging markets.

About Tech Mahindra

Tech Mahindra represents the connected world, offering innovative and customer-centric information technology services and solutions, enabling Enterprises, Associates and the Society to Rise™. We are a USD 4.2 billion company with 107,200+ professionals across 90 countries, helping over 818 global customers including Fortune 500 companies. Our innovation platforms and reusable assets connect across a number of technologies to deliver tangible business value to our stakeholders. Tech Mahindra is also amongst the Fab 50 companies in Asia as per the Forbes 2016 List.

We are part of the USD 17.8 billion Mahindra Group that employs more than 200,000 people in over 100 countries. The Group operates in the key industries that drive economic growth, enjoying a leadership position in tractors, utility vehicles, after-market, information technology and vacation ownership.
