Nilesh Limaye
Company Secretary

Zensar Technologies Cited as a Vendor to Watch in Gartner 2016 Market Trends:

Application Testing Services Must Address the Shift to Digital Business Requirements Report

Pune, India, May 31, 2016: Zensar Technologies, a leading digital solutions and technology services company, was cited in the May 4, 2016 'Market Trends: Application Testing Services Must Address the Shift to Digital Business Requirements' [ID G00261886], by analyst Susanne Matson of Gartner.

One of Gartner's recommendations in the report is that "Testing practice managers that want to take advantage of the opportunities associated with growth in digital business should: build scope, scale and partnerships to assure ecosystems including applications, network, technical infrastructure, communications infrastructure and the security aspects involved in supporting the information flowing through these ecosystems."

Zensar is listed as a Vendor to Watch in the Applications Testing Service Provider space.

Commenting on this citation, Sandeep Kishore, Chief Executive Officer and Managing Director, Zensar Technologies said, "It is an honor to be cited in this acclaimed list of global testing service providers by Gartner. Our testing practice offers mature solutions with key outcomes delivered for global customers. We will continue building on our expertise to bring in more value for customers as they adopt a digital posture."

"Zensar is proud to be included as a Vendor to Watch in Gartner's Application Testing Services Market Trend report," stated **Prameela Kalive, Executive Vice President, Global Head – Custom Application Solutions, Zensar Technologies**. "Zensar's automation driven culture, coupled with our proprietary testing frameworks and business driven KPIs provides continued business assurance to our clients."

Zensar's testing services framework offers differentiated offerings aligned to changing market trends. The offerings encompass managed testing services, niche customized testing, outcome based testing as well as end-to-end digital testing services. The benefits are highlighted as below:

- Reduction in time to market
- End to End Security and performance preparedness
- Visible cost savings-both CAPEX and OPEX
- Visible reduction in cycle times
