## **Hon'ble Chief Minister Yogi Adityanath Inaugurates 300 KLPD Grain-Based Distillery by Keyaan Distilleries, Designed & Engineered by Praj Industries**

**Gorakhpur, 8 April 2025** — In a major step towards strengthening Uttar Pradesh's industrial and agricultural landscape, Keyaan Distilleries Pvt Ltd inaugurated its state-of-the-art 300 KLPD grain-based distillery, scalable up to 500 KLPD. The facility was inaugurated by Hon'ble Chief Minister Shri Yogi Adityanath Ji, reaffirming the state's commitment to green growth, rural development, and investment-led transformation.

Designed, engineered, and commissioned by Praj Industries Ltd, a global leader in industrial biotechnology, the facility will produce fuel ethanol and rectified spirit for medicinal use using broken rice, maize, and corn as feedstock. The project strengthens the agro-processing sector and contributes to India's ethanol blending roadmap.

Spread across 30 acres, the distillery is expected to create over 1,200 direct and indirect jobs, while providing consistent demand for local grains—empowering farmers and integrating them into the clean energy value chain.

During the inauguration, CM Yogi Adityanath praised the project for enhancing energy security, promoting foreign exchange savings through reduced crude imports, and setting the stage for advanced green fuels like Sustainable Aviation Fuel (SAF). He lauded both Keyaan Distilleries and Praj Industries for building a world-class facility that aligns with the vision of Atmanirbhar Bharat.

As the technology partner, Praj Industries has delivered an integrated, future-ready distillery solution, combining high efficiency with environmental sustainability. With over 1,000 successful projects globally, Praj continues to drive innovation and transformation in the bioeconomy sector.

The inauguration marks a defining moment in the journey toward a self-reliant, energy-secure, and agriculturally empowered India.

### **About Praj Industries Ltd**

Praj, India's most accomplished industrial biotech company, is driven by innovation, integration, and delivery capabilities. Over the past four decades, Praj has focused on environment, energy, and agri-process industry, with more than 1000 customer references spanning more than 100 countries across six continents. Bio-Mobility® and Bio-Prism® are the mainstays of Praj's contribution to the global Bioeconomy. The Bio-Mobility® platform offers technology solutions globally to produce the renewable transportation fuel, thus ensuring sustainable decarbonization through a circular bioeconomy. The Company's Bio-Prism® portfolio comprises technologies to produce

renewable chemicals and materials, promises sustainability while reimagining nature. Praj Matrix, the state-of-the-art R&D facility, forms the backbone for the company's endeavours towards a clean energy-based Bioeconomy. Praj's diverse portfolio comprises Bio-energy solutions, Critical process equipment & skids, Breweries, Zero liquid discharge systems and High purity water systems. Led by accomplished and caring leadership, Praj is a socially responsible corporate citizen. Praj is listed on the Bombay and National Stock Exchanges of India.
