Sub: Request to grant further time period for compliance of Regulation 33 i. e. to Submit Financial Results for the Financial Year Ending on March 31st, 2020 due to the COVID -19 virus pandemic

Dear Sir,

This is with reference to the above mentioned subject matter, whereas SEBI has come forward and has provided relaxation for various Compliances under the SEBI (LODR) Regulations vide Circular No. SEBI/HO/CFD/CMD1/CIR/P/2020/38 dated March 19, 2020. One amongst such relaxation is under regulation 33 regarding Extension in Filing Annual Financial Results within 60 days from the end of Financial Year with a relaxation period of 1 month. In this regard, we further wish to submit as under:

1. The COVID -19 pandemic caused the disruption of business not only in India but across the Globe. It has effect the economy of whole world and so as the Handcraft business is also not immune from the lethal disease. Our factories units and offices were closed due to lockdown and curfew across the country.

2. As a result of sudden lockdown we are not able to reach out to update the Accounting records and other relevant data. This environment severely impact the company's ability to prepare its financial statements and get them audited per the timelines because neither the company's management was able to provide data to the Auditor nor the Auditor was in state to perform his function appropriately and evaluate the company's financial statements effectively.

3. Now, from the 8th of June in Jodhpur where the cases of virus is comparatively high, with the end of 4th lockdown we have been provided some relaxation to do business following the guidelines given by the Government, but it take some to mobilise the business of the company and get the financial statement of the company audited.

4. Along with that the impact of COVID-19 reporting is not restricted only to the audited financial statements. While preparing their annual reports and investor presentations, companies would need to ensure that their Management Discussion & Analysis, risk management disclosures and investor decks are also suitably updated.
