Media Release

GST Reduction a Game-Changer for Organised Dry Fruits Industry

We at **Proventus Agrocom Limited (NSE SM Symbol: PROV)**, one of India's leading brand players in **dry fruits, nuts, and healthy snacking**, wholeheartedly welcome the forward-looking step by the Government of India, under the dynamic leadership of **Hon'ble Prime Minister Shri Narendra Modi ji**, to reduce GST on almonds and other nuts from **12% to 5%**.

This important reform will not only **boost consumption** and make healthy, nutrient-rich products more affordable for Indian consumers, but also aligns with the Hon'ble Prime Minister's vision of building a **Healthier India**. By encouraging higher adoption of natural, wholesome foods, this move will play a vital role in strengthening the nation's nutrition and wellness journey.

At the same time, the reduction in GST will give a strong impetus to the **organised branded dry fruits and healthy snacking industry**, creating opportunities for greater value addition, farmer linkages, and consumer trust. Notably, **over 98% of ProV's brand portfolio now falls under the 5% GST category**, which will help us deliver even greater value to our customers and expand consumption across the country.

We believe this policy change will act as a **trigger for large-scale demand creation**, leading to the rapid growth of this category into a globally competitive sector. As a committed industry leader, **ProV is fully aligned with this vision**. We are confident that such progressive initiatives will further accelerate our growth momentum and enable us to achieve our target of **crossing ₹1,000 crore in brand revenues by FY28**, while contributing to the broader mission of making India healthier, stronger, and self-reliant.
