Weak prices hurt Tata Steel net profit in Q4

The company reported a consolidated profit of ₹1,201 crore in Jan-Mar

Nehal Chalkawala
nehal.chalkawala@livemint.com
MUMBAI

Tepid steel prices in the domestic market dragged down Tata Steel's standalone revenue and profit for the fourth fiscal quarter, even as volumes saw a marginal uptick. A weak show in its European operations further weighed on the profitability of Asia's oldest steelmaker.

The steelmaker will infuse \$2.5 billion (about ₹2,411 crore) in its Singapore unit T Steel Holdings Pte. Ltd over the course of FY26 for repayment of debt and restructuring costs in subsidiaries, the company said Monday.

The company declared a dividend of ₹3.6 per share.

A weak show in its European operations further weighed on the profitability of Asia's oldest steelmaker.

The company reported a consolidated profit of ₹1,201 crore in January-March, more than doubling from the same period last year. This was after losses in the Netherlands and the UK offset the company's profitable operations in India.

Tata Steel's standalone operations in India logged a net profit of ₹3,141 crore during the quarter, 19% less than the same period a year ago due to lower steel prices.

Consolidated revenue for the quarter was 4% lower year-on-year at 1,56,218 crore. Earnings before interest, tax, depreciation and amortization (EBITDA) remained flat at ₹16,762 crore.

"FY2025 has been an important transition year for Tata Steel with significant developments across operating geographies," said T.V. Narendran, chief executive officer and managing director, Tata Steel. During the year, the company commissioned India's largest blast furnace at Kalinganagar, decommissioned two blast furnaces in the UK and achieved production levels near rated capacity in the Netherlands, he said.

Quarterly sales in India were best-ever

at around 21 million tonnes, up 5% on year, aided by a ramp-up of the new blast furnace at Kalinganagar and capacity utilisation close to 100% at other operations.

In the UK, it has transitioned to supplying its customers imported steel, which is processed at its downstream mills at Port Talbot. This has cut its costs and losses.

terjee, executive director and chief financial officer, Tata Steel.

In the Netherlands, the company managed to resume production at full capacity after several quarters of reduced production due to maintenance-related shutdown of a blast furnace. The Dutch operations marked an EBITDA of ₹124 crore, versus ₹206 crore loss a year ago.

"The discussion with the Government of Netherlands on the integrated decarbonisation and environmental measures project continues to be intense and we are also engaged with the provincial and environmental authorities on the above," Chatterjee said.

Tata Steel stock rose 6.16% to close at ₹151.55 on Monday on the BSE. The benchmark Sensex gained 3.74% during the session after tensions between India and Pakistan eased and amid progress in trade negotiations between the US and China.

EUROPE DISAPPOINTS

TATA STEEL posted an EBITDA loss of ₹973 cr in the UK in Q4 compared to ₹388 cr a year ago

COMPANY'S consolidated revenue for Q4 was 4% lower y-o-y at ₹56,218 crore

THE steelmaker will infuse \$2.5 billion in its Singapore unit T Steel Holdings Pte. Ltd in FY26

Canara Bank eyes corporate loan growth

Shayan Ghosh
shayan.ghosh@livemint.com
MUMBAI

State-run Canara Bank is yet to see a secular revival in corporate credit growth, with demand limited to infrastructure, renewables and certain manufacturing segments, a top official said, hoping that rate cuts would spur consumption and lead to more borrowings by companies.

Chief Executive K. Satyanarayana Raju said in an interview that the bank expects the second half of the financial year to see some revival in demand for corporate loans. He said demand is limited to sectors where it was seen in the last financial year.

"We will see traction in infrastructure, roads, green energy, data centre creation, real estate (both residential and commercial), manufacturing units like solar panels, steel and cement," he said.

The Bengaluru-based bank saw a 9.8% year-on-year (y-o-y) rise in a segment it classifies as 'corporate and others',

The bank saw a 9.8% y-o-y growth in a segment it classifies as 'corporate and others', higher than loans to small businesses. MINT

higher than loans to small businesses that grew 8.2%. At ₹4.6 trillion, 'corporate and others' loans accounted for 43% of its total advances of ₹10.7 trillion as on 31 March.

"Even now, we will grow our corporate loan book at 10%," said Raju. "That is why our corporate to retail, agri, MSME (micro, small and medium enterprises) loan book ratio will be around 42:58."

In comparison, India's largest lender State Bank of India (SBI) saw a 9% y-o-y growth in corporate advances, albeit on a

significantly larger base. Yet, for the largest domestic private sector lender HDFC Bank, the 'corporate and other' wholesale book shrank 3.0%. Indian banks have been awaiting a revival in corporate credit for several quarters now. Bankers have said in the past that firms, especially the large ones, are more conscious of debt and would rather use their internal accruals to fund capital expenditure, if any.

That said, private capex has lagged expectations and corporate advances, albeit on a

which seems to be doing the heavy lifting.

Mint reported on 1 April that announcements of new projects—a proxy for spending—were skewed in favour of the government with a 17% y-o-y rise. In contrast, the private sector saw an 89% sequential increase but only a modest 3.3% rise from a year earlier, the report said, citing provisional data from the Centre for Monitoring Indian Economy.

Meanwhile, like many of its peers, Canara Bank continues to be conservative in its approach towards non-banking financial companies or NBFCs. Raju said that a couple of years ago, NBFCs accounted for 16-17% of the bank's total loans, which has come down to 12%. In absolute numbers, we are almost stagnant," said Raju, adding that while the bank continues to lead to NBFCs, it does not want to compromise on the quality of the promoters, the quality of the company, and on the pricing of the loan.

TCS leases huge office space in Chennai

Machurina Nandy
machurina.nandy@live.com
BENGALURU

Tata Consultancy Services Ltd (TCS) has leased around 630,000 sq. ft of office space in Chennai's Ozone Techno Park at a monthly rent of ₹2.8 crore.

India's largest information technology (IT) services company leased the space in Chennai's Navalur suburb from Platinum Holdings Pvt. Ltd for 10 years after paying a deposit of ₹25.5 crore, per documents accessed by real estate data analytics firm Propstack. As per the lease terms, the rent will

increase by 12% every 3 years. A TCS spokesperson didn't respond to an email query on the transaction.

Office space leasing by domestic IT services firms has been slow across major Indian cities, reflecting a slowdown in the sector amid global economic and geopolitical uncertainties.

Raja Seetharaman, co-founder, Propstack, however, said domestic IT services companies were continuing to expand.

Office space leasing by domestic IT services companies has been slow across major cities

"Despite broader economic factors and technological shifts impacting the IT sector, companies continue to commit to significant office spaces, reflecting diverse operational strategies including work from office and regional preferences," said Seetharaman.

"This transaction also indicates that while GCCs (global capability centres) continue to be the flavour, IT companies in India continue to expand."

Last year, TCS leased over 1

million sq. ft of office space in Hyderabad for 15 years, as per Propstack. While the registration took place in April this year, the lease had commenced on 1 October.

However, leasing by other IT firms has been slow, with Cognizant Technology Solutions Corp. and Wipro Ltd even giving up real estate to rationalise costs.

Earlier this year, Cognizant sold about 600,000 sq. ft of office property on Chennai's Old Mahabalipuram Road to Bengaluru developer Bagmane Constructions for ₹612 crore.
