PRESS RELEASE

Infosys Partners with HPE to Help Customers with Mainframe Modernization

Bengaluru – November 27, 2017: Infosys (NYSE: INFY), a global leader in consulting, technology and next-generation services today announced a partnership with Hewlett Packard Enterprise (HPE) to offer a joint end-to-end mainframe modernization solution, which will provide global enterprise customers robust hardware and advanced software architecture.

Infosys' Mainframe Modernization Solution powered by HPE's Mission Critical Computing Systems is aimed at fueling innovation and obtaining cost efficiencies while maintaining security and scale. The joint solution by Infosys and HPE will offer customers an integrated platform that will transform their legacy applications to the latest hardware and software architecture, enable cloud and mobile ready applications, and simultaneously reduce cost and enhance customer experiences.

This solution facilitates development of new business models supported by new technologies such as Artificial Intelligence (AI), Automation, and newer classes of middleware and database architecture which will enable companies to transform seamlessly from mainframe platforms.

Ravi Kumar, President & Deputy Chief Operating Officer, Infosys, said "Digital transformation is being embraced by enterprises across various industries. Infosys, through this partnership with HPE, aims at co-creating and enabling clients to simplify their IT landscape by redeploying existing mainframes on modern architecture. Customers will be able to re-host and re-engineer their business critical enterprise applications on modern hardware and software architecture to scale and accelerate the business impact in a secure manner. This will lead to enhanced productivity for customers across industry segments. This partnership with HPE will help clients modernize their mission-critical infrastructure with confidence."

Paul Hunter, Global Channel Chief, HPE, said, "We have a strong line-up of robust and secure systems helping organizations successfully migrate their mainframe environments with a wide range of complexities and mission critical requirements, towards a secure hybrid IT environment. Our partnership with Infosys will help enterprises transformation and generate significant value in today's competitive business landscape."

About Infosys

Infosys is a global leader in technology services and consulting. We enable clients in 45 countries to create and execute strategies for their digital transformation. From engineering to application development, knowledge management and business process management, we help our clients find the right problems to solve, and to solve these effectively. Our team of 198,000+ innovators, across the globe, is differentiated by the imagination, knowledge and experience, across industries and technologies that we bring to every project we undertake.

Safe Harbor

Certain statements in this press release concerning our future growth prospects are forward-looking statements regarding our future business expectations intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, and unauthorized use of our intellectual property and general economic conditions affecting our industry. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2017. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. In addition, please note that any forward-looking statements contained herein are based on assumptions that we believe to be reasonable as of the date of this press release. The company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the company unless it is required by law.
