Innogy Business Services UK and Wipro Named Winners of ISG Paragon Awards™ Europe

East Brunswick, New Jersey, USA and Bangalore, India – August 9, 2017: Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading global information technology, consulting and business process services company and Innogy Business Services UK Limited, a subsidiary of innogy SE, an established European energy company have been named winners of the 2017 ISG Paragon Awards™ Europe by Information Services Group (ISG), a leading global technology research and advisory firm.

Innogy Business Services UK and Wipro were recognized for their outstanding work and partnership in the 'Excellence' category, which honours industry leaders for outstanding delivery by a service provider.

Produced by ISG Events, a new business unit that offers high-value, must-attend industry conferences, the ISG Paragon Awards™ Europe celebrate the evolution of the sourcing industry through the application of new sourcing approaches and digital technology, including the use of robotic process automation.

The winners were selected by an independent panel of industry experts drawn from the fields of business, media and philanthropy.

ISG Partner, Barry Matthews said, "The ISG Paragon Awards™ recognize and celebrate organizations and individuals that have made a significant contribution to helping enterprises make the best use of new processes and technologies. We extend our congratulations to Innogy Business Services UK and Wipro for their ground-breaking vision and inspirational approach to adoption of the Wipro HOLMES Artificial Intelligence Platform™ for Service excellence, while showcasing the value of strong partnerships between enterprises and their service providers."

As a strategic partner to Innogy Business Services UK since 2013, Wipro has been providing datacentre services, applications support and application development. With Wipro HOLMES, Innogy Business Services UK has been able to increase operational efficiency and enhance end user satisfaction across their infrastructure management, applications and key business processes and accelerate their digital journey. This has been achieved through a combination of predictive systems, cognitive process automation, visual computing applications, knowledge virtualization & machine reasoning.

Acknowledging the award, **Birgit Lichtenstein, Managing Director, Innogy Business Services UK Limited** said, "We are always focusing on getting better and faster. In order to support our overall business performance, automation and Artificial Intelligence have become an indispensable part in the overall end to end process chain. The continuous extension and rapid

growth of automation and Artificial Intelligence has surely unlocked significant efficiency improvements and will do so in the future. We are absolutely proud that we have been honoured for that with the Paragon award."

Arun Krishnamurthi, Senior Vice President, Utilities vertical, Wipro Limited said, "Wipro has been at the forefront of the automation and Artificial Intelligence journey for over five years now. Our bold investments in next-gen cognitive computing capabilities position Wipro as the partner of choice for our Utilities clients. This prestigious award from ISG is a testimony to the exceptional results that Wipro HOLMES has been delivering in value creation for clients across Utilities."

About ISG

ISG (Information Services Group) (NASDAQ: III) is a leading global technology research and advisory firm. A trusted business partner to more than 700 clients, including 75 of the top 100 enterprises in the world, ISG is committed to helping corporations, public sector organizations, and service and technology providers achieve operational excellence and faster growth. Wipro Forward-looking and Cautionary Statements

Certain statements in this release concerning our future growth prospects are forward-looking statements, which involve a number of risks, and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property, and general economic conditions affecting our business and industry. Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission. These filings are available at www.sec.gov. We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
