Wipro Gallagher Solutions Integrates Uniform Closing Dataset into NetOxygen

Proactive compliance strategy enables WGS clients to seamlessly deliver UCD well ahead of September 2017 mandate

FRANKLIN, Tenn., February 13, 2017 –Wipro Gallagher Solutions (WGS), a Wipro Limited company, today announced that its NetOxygen Loan Origination System (LOS) has been directly integrated with Government Sponsored Enterprise (GSE) tools to ensure full compliance with the Uniform Closing Dataset (UCD) in the United States.

A required industry dataset based on the Mortgage Industry Standards Maintenance Organization (MISMO) 3.3 standards, UCD allows information on the Consumer Financial Protection Bureau's (CFPB) Closing Disclosure to be communicated electronically, thereby providing accuracy, consistency and clarity on loan transactions. The UCD must be submitted to the GSEs for validation of loans with a note date on or after September 25, 2017. UCD submission must occur prior to Uniform Loan Delivery Dataset (ULDD).

The direct GSE integration not only allows NetOxygen users to adhere to industry compliance standards, but also enables them to submit a file from NetOxygen's delivery manager for GSE consumption. NetOxygen also enables the file to be extracted manually for downstream aggregators. WGS ensures client UCD readiness by using Application Program Interfaces (APIs) that connect to both WGS' native and third party imaging solutions.

WGS is conducting orientation sessions with customers to demonstrate the new features and provide guidance on how to extract and upload the data most effectively.

"We've designed a structured compliance approach that not only provides lenders with the tools necessary to comply with the latest requirements well before the mandate's deadline, but also helps them streamline their processes," said **Scott Dunn, Head of Product Management and Strategy, Compliance for Wipro Gallagher Solutions, Wipro Limited.**

About Wipro Gallagher Solutions

Forward-looking and Cautionary Statements

Certain statements in this release concerning our future growth prospects are forward-looking statements, which involve a number of risks, and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property, and general economic conditions affecting our business and industry. Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission. These filings are available at www.sec.gov. We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
