Wipro Wins 2015 Aegis Graham Bell Award for 'Innovation in IoT'

East Brunswick, New Jersey, USA and Bangalore, India – December 11, 2015: Wipro Limited (NYSE:WIT), a leading global information technology, consulting and business process services company, today announced that its IoT solution 'Universal Data Parser' (UDP) has been awarded the 2015 Aegis Graham Bell Award for 'Innovation in the field of Internet of Things.

Aegis Graham Bell Award is India's largest and the only innovation award in the field of Telecom, Internet, Media and Entertainment (TIME) and Social, Mobility Analytics and Cloud (SMAC). Wipro received this award for its commitment to deliver innovative, specialized solutions and services for the IoT requirements of its clients across industries. The awards were presented by Dr. Jitendra Singh, Minister of State for Prime Minister Office; Ministry of Personnel, Public Grievances and Pensions; Department of Atomic Energy and Department of Space and Union Minister of State (Independent Charge) in the Ministry of Development of North Eastern Region, at the recently held Aegis Graham Bell award ceremony, in New Delhi.

Universal Data Parser enables flexible adaptation of data streams from a wide range of end devices to IoT platforms and data stores.

Alan Atkins, Vice President, Global Head IoT, Wipro Digital, said, "We are delighted to receive this award, as it recognizes our ability to deliver innovative solutions and services for our customers. The UDP allows non-IT practitioner to quickly define, translate, analyse and document the inclusion of new devices into an IoT ecosystem within hours, as compared to weeks of development and testing. We will continue to innovate and build a sustainable IoT ecosystem for our customers."

Forward-looking and Cautionary Statements

Certain statements in this release concerning our future growth prospects are forward-looking statements, which involve a number of risks, and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property, and general economic conditions affecting our business and industry. Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission. These filings are available at www.sec.gov. We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
