RELEASE

Dated: May 7th, 2012

Indian power sector embarks on a new era with the commercial operation of first unit of Simhapuri Energy Private limited (SEPL) imported coal based thermal power project located in Nellore District of Andhra Pradesh on 4th May, 2012. The project is being developed in 2 stages with 2x150 MW thermal units in each stage. SEPL, a Group company of Hyderabad based Madhucon Group has entered into Power Tolling Agreement with PTC India Limited for Stage-1 of the project. This is first-of-its-kind of Agreement in India.

As per the Agreement PTC shall supply coal for the entire Stage-1 of the project and SEPL shall use the coal supplied by PTC for conversion into Electricity. PTC has contracted capacity of 200 MW of the Stage-1 for which PTC shall pay conversion charges and supply free coal to SEPL while the electricity generated will belong to PTC to be sold in the market.

About PTC

PTC India Ltd., a Government of India initiative, is the pioneer in starting a power market in India. The Company has maintained its leadership position in the power trading since inception. PTC has also been authorized by the Government of India to trade electricity with Bhutan and Nepal. The trading activities undertaken by PTC include long term trading of power generated from large power projects as well as short term trading arising as a result of supply and demand mismatches.

The Company is credited with number of products in the electricity trading market to meet the divergent needs of the customers. Driven by the vision to forge a vibrant power market, PTC has been able to provide innovative services to its clients and build faith and trust as a reliable partner resulting in repeated transactions. PTC has made foray into fuel intermediation, renewable sources as well as investment in energy assets. Building of an integrated energy value chain is central to the Company's growth agenda.
