Re.: Press Release - Panacea Biotec announces strategic alliance with Kremers Urban for 11 High Barrier to Entry Generics; and the launch of Tacrolimus Capsules in US

Dear Sir,

Pursuant to the provisions of Clause 36 of the Listing Agreement entered with your Exchange, we wish to inform you that the company has entered into a strategic alliance with Kremers Urban Inc. (part of UCB Group) for 11 high barrier to entry generics, whose market size in US at the innovator level is around USD 4 billion.

The first product in this portfolio to reach the market is Tacrolimus Capsules that is being launched in US in Nov 2012. Panacea Biotec was granted approval of the product from the United States Food and Drug Administration (FDA) in September 2012. Tacrolimus is used along with other medications to prevent rejection (attack of a transplanted organ by the immune system of a person receiving the organ) in people who have received organ transplants. Tacrolimus is in a class of medications called immunosuppressants. It works by decreasing the activity of the immune system to prevent it from attacking the transplanted organ.

A copy of the Press Release being issued to the media, etc. in this regard is enclosed for your kind reference and record please. Kindly acknowledge the receipt.

Thanking you.

Sincerely yours,
for Panacea Biotec Ltd.

Vinod Goel
