SIGNIFICANT HIGHLIGHTS

Allied Digital Services Limited (ADSL) is currently focusing on Government Projects/ Smart City Projects in India. It has executed a Pune City Surveillance Project which is by far recognized as the best project in the Country and has led to opening of several opportunities for bidding similar projects across the country under the safe/smart cities initiative of Government of India.

Presently, we have received a prestigious project of Jaipur Development Authority (JDA) under consortium.

Many similar projects have been earmarked for bidding and ADSL has already submitted proposals for few projects and is awaiting for their outcome.

Internationally, Allied Digital has begged project of large retail chain client to provide dispatch services and Retail Store Support / Retail Store Rollout across forty countries all over the Globe.

Company has been recently accoladed as Best Brand in the Country by The Economic Times. In past one year ADSL has been awarded with dozens of awards for its emerging leadership and technology along with several awards recognizing its Corporate Brand Image.

Currently, a very interesting time has come to ride on the worldwide digital wave and ADSL is now ready to address newer challenges for enterprise and Government Customers for its Digital Transformation.
